Mediumship/Discussion Text

Albert: I wish to say, (pause) ...there is gratitude for, (pause) ...for you, (pause), ...and for, (pause), ...Cornelius, that who you know as Cornelius, because the love that I felt coming from his soul was indeed the thing that allowed me to open my heart and to see so much in a different light.

There was no possible way before I connected to his love, with his understanding, that I could have ever, ever moved from the chains of the restrictions that I had placed around myself. And my progression is slow but it is steady. But the differences that I am now experiencing are unimaginable, have been unimaginable and, I have such gratitude and I wish you to let him know from me, the gratitude and the love that I now feel for him.

I, (pause), ...I had no idea that having suffered for so long, I could even feel as much as I am feeling now and although it is not strong it is certainly more than I could ever have imagined or thought, where I am, where I have been. And there are such wonderful, wonderful, wonderful souls around me who are offering me every type of love that I am ready for in any moment. And I am learning and I am progressing and I'm experiencing so many different things, the choices appear to be endless, and I am cautious, of course I am cautious, because I've been in such darkness for so long and I have suffered for so long. But I'm just, ...am again in gratitude that I have been given this opportunity to share with you and please thank Cornelius for me, because this is what made such a difference. Thank you so much.

I, ...I wish to add that I am sharing what I have learnt, and that many people in these realms, through my experience, are hearing this news and, and I will endeavour to continue to share because I do indeed have this gratitude. Thank you.

TN: I'm sorry, I don't understand. The first channelling was from Albert?

AJ: Albert was in the hells, um, and he came to speak with Cornelius through NLD because Cornelius has been in the hells to.

NLD: Actually I think I have it in here (her notebook) that first contact.

AJ: Ahhh, his first contact with you, yes, he came because we invited a group of spirits to one of our sessions in Australia. About four and a half thousand spirits or so came, but, there was a group of spirits who came over the preceding day, one of them was this man Albert. And Cornelius happened to chat with Albert, through NLD, about being in the hells, and what it is like being in the hells and how to get out.

NLD: Oh here it is.

Albert: (NLD quotes Albert writing to her while in Australia.) I hate you, no I don't. Why are you doing this? Why are you giving hope when there is none? I went to hell and there is no other realities I can be in here. I am forever here, I have been told this is it. Why do you give false hope? Nothing can work from here. When I am in the foulest of hells. I have sinned and will remain a sinner. I came to you because I heard of this word is spreading and I can just reach you. Thank you for at least hearing me. I await the answer. It will take all my effort to hear it but I will try to. I am Albert.

NLD: (sigh) and that was the first one, and then it turned out he was in chains, he was like, you know, completely stuck and he talked to Cornelius.
