

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Welcome & Housekeeping
Presenter(s):	Mary
Description:	Mary welcomes the participants to the Assistance Group, and outlines the general plan for the programme, along with providing some general principles for participants to follow

Welcome

Our pleasure

To meet you and welcome you and to present these sessions to you
Jesus & Mary have prepared all of the sessions
Igor, Lena, Cornelius, Eloisa and Kelly are the technical support team

Choices

To gain a much better education about love
To practice principles of Divine Truth, humility, desire for truth & love
To meet each other
To engage these sessions with all of your heart
To love venue, recording, others, self and presenters

Opportunity

To learn from the person who discovered and knows the information
Rare to be able to learn from a person who have personal experience

Programme Format

Group format

Group program 34 hours
In this group we will focus your attention on "Understanding God's Loving Laws"
Lasts for 6 days contact time (8 days total)
Each session is two days long, and then we have a day break

Programme

Please make sure you are here well in advance of each presentation
There is homework before each day break
The first day of each session begins at 10:30am
The second day of each session begins at 11:00am

Timing & time table changes

Toilet breaks every one hour and 20 minutes at the most
We won't wait to start presentations and music will be played before we start
All toilet breaks are 10 minutes
All lunch breaks are 30 minutes

General

There are no feedback sessions in this group
Café music programme is cancelled
Use of pools and facilities for all participants
Facilities bins

Logistics

HDD copying

Place any hard disk drive you want copied on the name tag table at the rear
Jesus will place all copied hard disk drives on the right table at the rear
Please download the copy layout and how to use the drive from the website
Label your HDD with your name and type of computer (e.g. Mac, PC)

Families with children

There are many dangerous places within the venue
You must be completely responsible for your children at all times
Please obey the rules for the resort
Please make sure that if your children create noise in this auditorium during the programme you immediately remove them
Make your own arrangements for baby sitting etc if you wish

General

If sharing accommodation

Those sharing with strangers (hopefully new friends)

Pool use

Pools at the resort can be used by all attendees

Love

Venue

Loving to keep your room clean and tidy
Rooms will not be serviced during your stay
Pay for additional servicing if you want it
Be courteous with staff and other guests

Recording (very important)

We are recording all sessions
Please be aware of not walking in front of cameras
We are doing live editing
Don't talk to the technical team while they are performing their jobs
Make sure you are quiet during the session

Microphone use

If you use the microphones, please make sure you use them properly
If you use the microphones, please stand automatically if not in the front 3 rows
Please do not hide from the video camera while in the audience
Need volunteers for running the microphones on rotation
(Demonstrate the usage of the mics)

Presenters

Remember we are talking for 5-7 hours straight per day
We do not wish to have additional conversations with you about your personal issues
We have plenty of question and answer sessions to ask about principles
Please clear this venue promptly after the conclusion of final talks each day
Please arrive on time for each session

Each other

Please make sure you are loving to each other
Make sure you are not condescending, belittling or arrogant with each other
We shall remove any person who is unloving to ourselves, other guests, or the venue itself

Volunteers

If you treat any volunteer with anger or frustration, you will be removed from the group. A number of people did this last time without our knowledge.

Attendance

Not being on time for presentations was a major problem in the previous groups
Presenters had to wait for you to be ready

This is very unloving

This was particularly a problem with the second of the last groups.

Opportunity to display love to venue, staff, presenters, support team and fellow participants

Ignoring presenter requests

This is a major problem with a lack of love and lack of will to love

e.g. Not standing up when you have the microphone. Having to be told over and over about this. In future will just be going to the next question.

e.g. Not holding the microphone close enough to your mouth. Having to be told over and over about this. In future will just be going to the next question.

e.g. Walking in front of the camera while they are shooting. In future you will be removed.

Addressing the lack of love

Presenters will address a lack of love immediately

If we find you have missed a presentation, then unless there are special circumstances (injury, sickness, death etc) we will ask you to leave the event

Sign of respect for the information and presenters to attend all of the sessions

Being present

Content will be emotionally challenging

Many in previous groups close down emotionally and become influenced

Practical tips include to drink water regularly and breath diaphragmatically

Emotional tips include to identify resistance and feel the emotion

General

Outlines

If you have not brought and pre-read your outlines, and prepared your questions, then there is little point in us preparing them beforehand for you.

Water

Please do not take water back to rooms

Purchase your own water for your rooms

Questions & General Interactions

New procedure

Write down your questions before you ask them

Put questions in folders at back of the room

If we do not answer questions in the Q&A we will answer them in the studio

Recommended types of questions

Are you saying?

Do you mean?

Current audience attitudes

Demonstrate a purposeful desire to sin

Presenters are not here to support your sin

Attitude Comparison	
Current Audience Position (Unloving Attitude)	What We Would Like To See (Loving Attitude)
I do little preparation for the week and rely on presenters to guide me through the material (lack of personal responsibility, lack of care, lack of awareness of the importance of the material etc)	A loving person examines each outline for each day's programme in the morning before the programme begins, and prepares questions in advance, and is prepared to have a seeking attitude towards the material
I want to be told what to do in my personal life without having to make heart felt soul based changes (lack of personal responsibility, desire to make someone else responsible for my life)	A loving person is a student who learns principles and then who takes responsibility for the experimenting with, understanding and application of those principles in daily life
I want to make personal statements (impose my own life upon others, forcing others to listen to my stories, forcing others to waste their time)	A loving person asks questions that do not waste the time of the presenter and other students and realizes the making statements for a selfish purpose is an addiction
I am not diligent in defining my questions and just say whatever pops into my head (wasting time of presenters and other students, being open to unloving spirit influences, getting the presenter off-topic)	A loving person prepares questions in advance if that is possible and makes sure that questions are clearly stated and have all time wasting removed (ah's, um's, I think I..., I feel I..., I am not sure but... etc)
I want to ask questions that have a direct relationship to my personal life (selfish, self-absorbed, wasting the time of presenters and students)	A loving person realizes that everything we present relates to your personal life, and that is it our own responsibility to relate everything to our personal life
Most of my questions are just statements of my own opinion in disguise (insincere, manipulative, resistance to humility, resistance to truth, lack of openness, lack of transparency)	A loving person is sincerely asking questions in order to obtain information they are not aware of, rather than posing questions as a method of arguing with the presenter about the material
Many of my questions are personal stories (impose my own life upon others, forcing others to listen to my stories, forcing others to waste their time)	A loving person provides a brief summary if asked by the presenter to do so, and does not tell long winded personal stories to 100's and potentially 1000's of people
Many of my questions are off topic (unloving to the presenter and audience, selfish, self-absorbed, time wasting)	A loving person always makes sure their questions are on-topic, and only related to material already presented that needs clarification and is not going to be presented in future discussions
Most of my questions were asked without any intention of listening to or absorbing the answer (unloving to the presenter and audience, selfish, self-absorbed, time wasting)	A loving person asks questions having gratitude for the time of the presenter and always carefully listens to and attempts to apply the answer given
I emotionally reject answers given (projecting my emotions at others is an unloving action, and driven by the desire to avoid truth)	A loving person is aware of their own emotional responses, and realizes how their own emotional responses are out of harmony with Love

Attitude Comparison (cont'd)	
Current Audience Position (Unloving Attitude)	What We Would Like To See (Loving Attitude)
Most answers were argued with, if not openly, certainly with my feelings (I am holding onto my own definitions of love and truth without being open to God's Truth)	A loving person is aware of how their own emotional responses reject truth, and does not ask questions when they know they are in personal disagreement with the subject (instead they make statements of disagreement)
I do not allow the presenters to complete answering my question (I want to change the subject, I lack humility, not being open to the answers given, I must voice disagreement rather than taking time to think about the answers, I am unloving to the other audience members)	A loving person does not take the time of another person by force, and does not argue with the person in a public setting because it takes the time of others without them being involved in the choice to give that time. A loving person feels their own personal emotions being confronted.
I ask questions based upon my own errors in understanding (I impose my errors in understanding upon the presenter and the audience)	A loving person makes sure their questions are not based upon errors which have already been identified by the presenter
I refuse to use the microphone properly (I am wasting other people's time since they cannot hear me properly, I refuse to respond to previous instruction about how to use the microphone)	A loving person always does what they have been instructed to do, especially when those instructions have a loving motivation or reasons
I refuse to do what I have been instructed to do (in a group setting this is very unloving to other audience members and the presenters and organizers)	A loving person always does what they have been instructed to do, especially when those instructions have a loving motivation or reasons and will save time for themselves and others
I want answers to personal situations rather than have to work out how the topic being discussed applies to my personal situation (lack of personal responsibility, lack of love of self and others)	I listen to and ask questions about the principles that apply, and then I spend time examining and relating these principles to my own daily life in my own time

The Presenters' Decisions

The presenters from now on will immediately stop and remove the microphone from any and all persons being unloving

If the presenter asks for the microphone to be removed from the person, and the person argues the decision, the presenters will remove the person

The presenters will not give an explanation for their actions (since we have already identified the unloving behaviour in the above table, and many hundreds of times beforehand)

The presenters will only respond to those people who have a sincere desire to love

During the main presentation the presenters will only accept questions about the subjects they have already covered

During the presentation Q&A's the presenters will only accept questions about the material in the related main presentation

Conclusion

Please relax and enjoy your participation in the group

Please make a general goal to participate more fully

Please also check your outlines and write questions at the beginning of each day

Next Presentation: Introduction

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Enforcing Love & Truth S1
Presenter(s):	Jesus
Description:	Jesus creates the correct environment for gaining an "Education in Love" by addressing gender based emotional issues caused by a lack of sincere desire for love, truth and self-awareness within the group

Prerequisites for This Group

To be here you must have:

- Watched all of the 2014 "Introduction To Love" Assistance Group
- Watched all of the 2016 "Developing My Loving Will" Assistance Group
- Watched all of the 2016 "Developing My Loving Self" Assistance Group
- Read all of the outlines for this group "Understanding God's Loving Laws"

If you have not done this then:

- You have ignored our request to complete the pre-requisites for the group
- You have disrespected Jesus & Mary's time and effort in preparing the group
- You have lied to Jesus & Mary about your preparedness by attending
- In future all persons lacking preparation will be removed

Enforcing Love & Truth

Introduction

- Group cannot support an education to love
- Group does not have a strong desire to love in its current state
- We must immediately address and solve some serious problems within the group before the group can continue
- Ratio of men to women is rapidly declining in most assistance groups (this group 22%, previous 28%) and this problem must be addressed

Totals are not exclusive, that is, some are in more than one group

Women's Attitudes & Emotions Within the Group

Women who emasculate men emotionally & sexually, and gain power over, control & bully other women

12 women in the group are in this condition

Most of these women:

- Have been coming to groups for over 5 years
- Have had their unloving behaviour addressed in private and in public
- Continue to desire a lack of awareness
- Continue to demonstrate a lack of desire to love
- Still excuse, justify, and minimize their unloving behaviour
- Continue their unloving actions and emotions towards men and other women
- Continue to have illusions of their own goodness and a heavy façade

When challenged get extremely angry or condescending
Those few who are new to Divine Truth will be given an opportunity to develop awareness and some desire to address the issues

Women who support other women who emasculate men emotionally and sexually, or who are more humble about the first issue

11 women in the group are in this condition

Again most of these women:

- Have been coming to groups for over 5 years
- Have had their unloving behaviour addressed in private and in public
- Continue to desire a lack of awareness
- Continue to demonstrate a lack of desire to love
- Still excuse, justify, and minimize their unloving behaviour
- Continue to support the actions of more abusive women
- Desire the approval and acceptance of more abusive women
- Continue their unloving actions and emotions towards men and other women
- Continue to have illusions of their own goodness and a heavy façade
- When challenged get extremely angry or condescending

Women who want power & control over other women & use abusive men & women to get it

3 women in the group are in this condition

All of these women:

- Have been coming to groups for over 5 years
- Have had their unloving behaviour addressed in private and in public

One of these women:

- Continue to desire a lack of awareness
- Continue to demonstrate a lack of desire to love
- Still excuse, justify, and minimize their unloving behaviour
- Continue to support the actions of abusive men
- Continue to denigrate, harm and desire power over other women
- When challenged generally ignore the counsel and advice given

Women who justify their fear of women bullies & do what women bullies want rather than confronting them

23 women in the group are in this condition

Again most of these women:

- Have been coming to groups for over 5 years
- Have had their unloving behaviour addressed in private and in public
- Continue to desire a lack of awareness
- Continue to demonstrate a lack of desire to love
- Still excuse, justify, and minimize their fear based unloving behaviour
- Continue to support the actions of more abusive women
- Desire the approval and acceptance of more abusive women
- Are not developing courage and a desire to love or be truthful
- Continue living in their fear and do what unloving women want them to do
- Continue to have illusions of their own goodness and a heavy façade
- When their fear is exposed get extremely angry or condescending

Women who have a loving desire to address most problems raised with them

9 women in the group are in this condition

Although some of these women have some of the above problems, they:

Are developing a desire to become aware and sincerely address these problems
Are a pleasure to deal with in a group situation

Men's Attitudes & Emotions Within the Group

Men who want to criticise, compete, and put down Jesus

2 men in the group are in this condition

For both of these men:

Jesus has personally discussed the issue

Jesus has discussed the causes of their behaviour relating to the unhealed father emotions and a belief in their own superiority that comes from their mothers

This is a specific unloving emotion towards the main presenter of the group and so

Jesus & Mary will immediately remove any person demonstrating these specific unloving emotions

Men who want sexual power and control over women

4 men in the group are in this condition

All of these men:

Want sexual and emotional power and domination over women

Have illusions of their own goodness and a heavy façade

When challenged on the issue get extremely angry or condescending

Are giving sexual power & energy to women who want power over other women

Two of these men are new to Divine Truth

Men who arrogantly believe women should meet all of their "needs"

5 men in the group are in this condition

All of these men:

Are arrogant with women and very demanding of women sexually

Have illusions of their own goodness and a heavy façade

When challenged on the issue get extremely angry or condescending

Two of these men are new to Divine Truth

Men who pander to abusive women in order to receive sex, sexual attention and validation

13 men in the group are in this condition

All of these men:

Are doing everything possible to support women in their unloving addictions in order to receive sexual validation, approval and attention from women

Have illusions of their own goodness yet are engaging their own addictions for selfish purposes

Are using fear or a desire for sexual activity to justify feeding the addictions of women who want power over them

Are demanding and needy for sexual interactions with women

Do not stand up for love or truth in their interactions with women

Many of these men:

Are severely influenced by women spirits as a result

Some of these men:

Have a desire to love God's Way but give up these desires when in the company of women

Are new to Divine Truth

Men who have a loving desire to address most problems raised with them

3 men in the group are in this condition

All of these men:

Are a pleasure to deal with in a group situation

Some of these men:

Have some of the other problems, but there are developing a desire to become aware and sincerely address these problems

Our Intentions

We need to improve the learning environment within the groups

The very severe inter-gender addictions causes many problems in groups

The severe resistance to dealing with these issues by releasing sincere emotions also allows for heavy negative spirit influence during the group

Very little inspiration can come from loving spirits

We wish to clear up these problems once and for all time in our groups

In future we will be enforcing love and truth immediately before we present

Very few participants in any presentation are addressing issues sincerely

For most this is despite having many years of exposure to Divine Truth

and this is also despite having a lot of personal assistance from Jesus & Mary

Those in this group who do not change their desire before Sunday morning will be removed from the group (particularly the group of abusive women)

No person who has been listening to Divine Truth for less than 3 years will be removed unless their actions and emotions during the group are very abusive and unloving

Conclusion

During the week, focus on principles and the application of principles

Spend time seeing how these principles can be applied in daily life

Are we here to Love, or just talk about Love?

Most participants need to question their own desire to Love

Needing to continually raise the same issues is an indication of lack of sincere desire

Questions Answered

00:30:00 Elvira Gregorich

What does sexually emasculating a man look like without having a sexual relationship?

00:41:32 Rachael Bush

What is a loving way to address an unloving behaviour in somebody else?

Foundation Principles

Next Presentation

Introduction to "Understanding God's Loving Laws"

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Introduction
Presenter(s):	Jesus
Description:	Jesus introduces the "Understanding God's Loving Laws" assistance group, conducts a brief revision of what has been taught already in the series, and discusses why understanding God's Laws is essential for an "Education in Love"

Purpose of "Education In Love" Assistance Groups

God's universe operates on God's Love

Every one of God's Laws from the smallest affecting our physical life and the greatest affecting our soul based life are all based on love

It makes logical sense to get an education in love, and in particular, God's Love

Revision

Being educated from the highest source

Necessity to be educated by God

Otherwise we will just have the same opinions as the world

The world's opinions have led us into the condition of pain and suffering we are in

To be educated from God we must first gain an education about connecting to God

Laws are involved in the connection with God

Laws are involved for the reception of God's Love into the human soul

God's definition of love

We need to accept God's definition of love

We need to release from ourselves our own false definitions of love

Developing My Will To Love

Material we have already covered

Many are struggling with this material already

Analyse my will to Love and change

Face my resistance to Love and change

Using the will to develop faith, longing for truth, desire for action and emotion

Develop my will to Love and change

Questions

Are my current choices making me happy now and in the long term?

Developing My Loving Self

Material we have already covered

Many are struggling with this material already

Understanding My Unloving Self

Removing My Unloving Self

Becoming My Loving Self

Questions

Am I going to be my real self?

Am I going to have a relationship with God?

Am I going to connect to the other half of myself?

Education In Love & Understanding God's Loving Laws

Introduction

Everyone treats these questions as optional, but all of these questions must be answered in the long term, and God's Laws dictate that this is so.

Why "Understand God's Loving Laws"

God's Laws are an expression of God's Love & state God's Intentions

God's Laws educate us about God's definition of love

God's Laws demonstrate to us where pain and suffering comes from

Benefits of Understanding God's Law	Results of Not Understanding God's Law
Understanding God becomes possible	Understanding God is not possible
A relationship with God becomes possible	A relationship with God is not possible
I gain an education about Love	I remain uneducated about Love
My redemption and transformation becomes possible	My redemption and transformation is not possible
I understand the causes of my current condition and pain	I remain confused as to the causes of my current condition and pain
I develop faith in God, God's Goodness and God's Creations	I remain without faith in God, God's Goodness and God's Creations
I gain an understanding of God's Truth	I do not understand God's Truth (since God's Laws are God's Truth)
I now understand what makes myself and others happy	I do not understand the causes of my own unhappiness and the unhappiness of others
I have the potential to use my will positively to bring happiness to myself and others	I do not understand how to live a complete, fulfilling and happy life
My life is governed only by the highest laws and I continuously benefit from engaging the highest laws	My life is limited by the fundamental Laws and I cannot experience the benefit of engaging higher laws

Conclusion

During the week, focus on principles and the application of principles

Make time and spend time seeing how these principles can be applied in daily life

Are we here to Love, or just talk about Love?

Most participants still need to question their own will to Love

Needing to continually raise the same issues is an indication of lack of will

Finish For Day

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Fundamental Facts
Presenter(s):	Jesus
Description:	Jesus discusses how Principles of Law that are an expression of God's Personality, Character, Attributes, Nature and Desires govern God's Laws, and presents some fundamental facts about God, God's Principles, and God's Laws

God

God is an infinite entity who existed before the Universe itself

God has Personality, Characteristics, Attributes, Nature and Desires

Each attribute is completed and perfected in God

Each attribute is not God, but only a part of God

God is Love, but Love is not God, but rather an Attribute of God

God is Truth, but Truth is not God, but rather an Attribute of God

God is Law, but Law is not God, but rather an Attribute of God

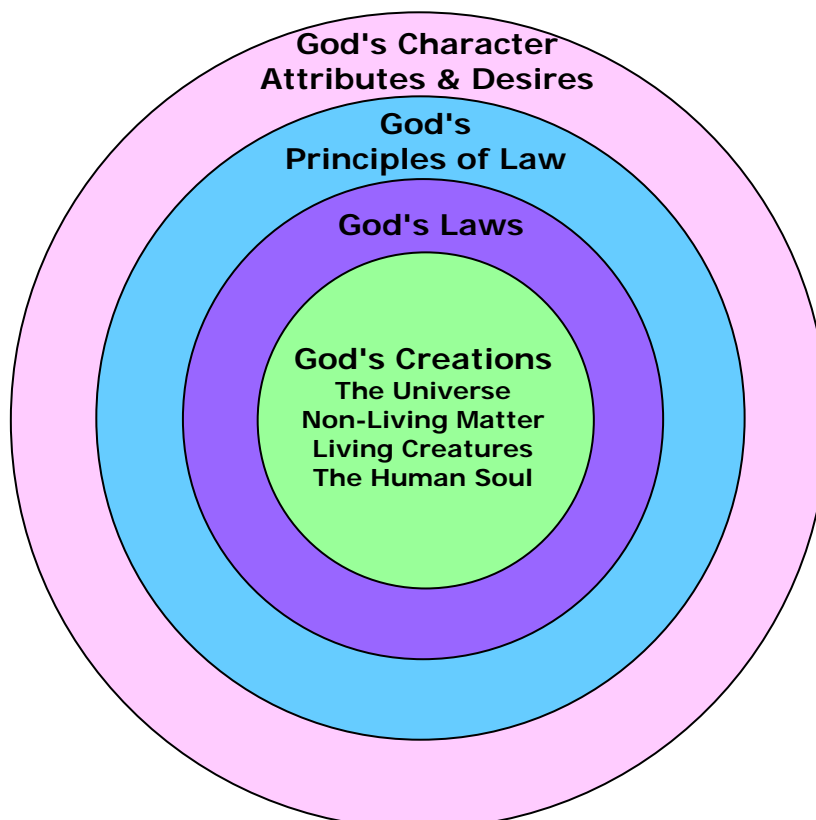

God is Will, but Will is not God, but rather an Attribute of God

Love, Truth, Law and Will are only parts of God

God's full personality, attributes, character, nature and desires are infinite

God's Universe

God's Universe Diagram

God's Principles

Properties of God's Principles

God's Principles form a framework for Law

Each law governed by the principles automatically achieve the goals and objectives of the principles

God's Principles can be grouped into classes for the purpose of examination

Groups of God's Principles

Foundation principles

Love	Truth	Life	Development
Economy	Function	Permanence	Scope

Order principles

Hierarchy	Governance	Responsibility	Compensation
-----------	------------	----------------	--------------

Soul specific principles

Will	Desire	Redemption	Transformation
------	--------	------------	----------------

God's Laws

Properties of God's Laws

Self-Maintaining Creations of God

Governed by God's Principles

Driven by God's Character, Attributes and Desires

Powered by God's Energy

Provide loving consequences (in the form of benefits) when they are obeyed

Provide loving consequences (in the form of correction) when they are disobeyed

Facts about God's Laws

Fundamental Facts About God's Laws	
Fact	Consequence
Potentially an infinite number of God's Laws exist	<p>Detailed discussion and understanding of the individual operations of each law is difficult and very time consuming unless God has provided a simple way of understanding them</p> <p>Humans will be in a process of eternal discovery of God's Laws, and human understanding of God's Laws currently is very limited, rudimentary and unsophisticated</p> <p>The discussion of individual laws is not an economical use of our time, energy or resources. It becomes impossible to discuss in any detail any single law within our 34 hour programme</p>
New laws are created every moment	<p>You will learn how this is possible during the week. We cannot discuss each law at the speed that each new law is being created. The irony is that the more we discuss each law the farther we get behind in knowing all of the laws.</p>

Fundamental Facts About God's Laws (cont'd)	
Fact	Consequence
Understanding God's Principles and God's Laws requires understanding God's Character, Nature and Personality	The secret to understanding law is to be able to feel God's Personality, Character, Nature and Attributes, and see how these parts of God form the Governing Principles of God's Laws Even intellectually, it is far more productive to discuss the Governing Principles of God's Laws than to discuss God's Laws themselves
Understanding God's Laws requires following "God's Way"	A person who does not follow God's Way will not be able to emotionally or intellectually grasp the important and fundamental details of the Principles governing God's Laws, or the operations of the laws themselves Unless humans are transformed at the soul level the mind's intellectual capacity, and the soul's emotional capacity remains limited, finite, and illogical, unable to understand God's infinite Wisdom, God's Principles or God's Laws
God's Laws are complex, intricate and mathematically defined	God's Laws have intricate relationships between each other God's Laws by nature have complex mathematical definitions and structure and form the fundamental scientific truth of the universe
God's Laws cannot be broken	Humans can attempt to rebel against God's Law but the rebellion will not be successful and they cannot exist outside of God's Law or outside of the laws natural workings
Jesus & Mary have spent 2000 years examining God's Laws and the Principles guiding Laws	It is impossible to transfer their knowledge to attendees in a 34 hour programme It is impossible to transmit a soul based understanding of law to people who are just beginning the process of transformation The examples provided in this programme are not preferred examples, but rather are examples geared towards human's current limited understanding

Comments from Our Spirit Friends

"The audience must beware of attempts to intellectualise and categorise law. The sum total of Law is infinitely greater than the parts Jesus will be able to explain to you in the time he has available.

"God's Laws have intricate workings, and it cannot be assumed that the small amount of principles Jesus shares with you for the purpose of beginning your awakening to the understanding of God's Loving Laws are a complete discussion, or even anything more than a brief introduction on the subject.

"God's Design of Law is far too complex to explain to the audience in their current condition. As they grow towards God far more will become clear and more truth will be understood. Jesus has created this group to hopefully inspire you on the path of discovering God's Laws, and to demonstrate to you the wealth of Truth that God has available to those who seek for it."

Fundamental Facts	
Conclusion	<p>Principles to be discussed</p> <p>We shall outline the definition, objectives, application, what the principle reveals about God, and give some examples of laws are governed by these principles.</p> <p>Each discussion is a very basic presentation of the subject</p> <p>Each presentation is designed to give very basic factual truth about each principle and inspire further exploration of the subject.</p> <p>There are many more principles that we could discuss that we do not have time to discuss in the program.</p> <p>Engage the program with consideration and enthusiasm</p> <p>I will be on time for all of the sessions I will participate in all of the sessions I will engage the homework and prepare my questions for each session</p> <p>This session: Foundation Principles</p> <p>We are going to continue the "Foundation Principles" for 2 days</p>
Summary	<p>Fundamental facts include:</p> <p>God is an infinite entity God's Personality, Characteristics, Attributes & Desires govern God's Principles God's Principles of Law govern God's Laws God's Laws govern the creation itself Billions of Laws exist Understanding Law requires following "God's Way" & receiving God's Love</p>

Questions Answered

00:04:17 Catherine Spence

Is that how the saying "we live and move and have our being in him" came about?

00:05:03 Alex Mrnak

Is the New Age thinking about everything being God somehow true?

00:08:18 Alisa Troitskaya

Will trying to deny or rebel against God enable us to get out of God?

00:08:35 Alisa Troitskaya

If a spirit is in the 6th sphere and still denying God, is the spirit living an illusion?

00:20:55 Peter Lytton-Hitchins

Does every law have every principle within it?

00:22:40 Alex Mrnak

Whenever we don't obey God's Laws does it feel like everything is working against us?

00:36:08 Barbara McNair

Are you saying that God created the potential for new laws and that our own soul condition creates the new law, or is it that God literally creates new laws?

00:38:23 Eva Lindberg

Is creation of laws exponential, with laws being created in ever faster amounts?

10 Minute Break

Series: Education In Love
Group: Understanding God's Loving Laws
Theme: Fundamental Facts Q&A
Presenter(s): Jesus
Description: Jesus answers questions from the audience about the material covered in the previous presentation "Fundamental Facts"

Introduction

Use the morning as an opportunity to formulate my questions

Examine the "Fundamental Facts" outline
Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

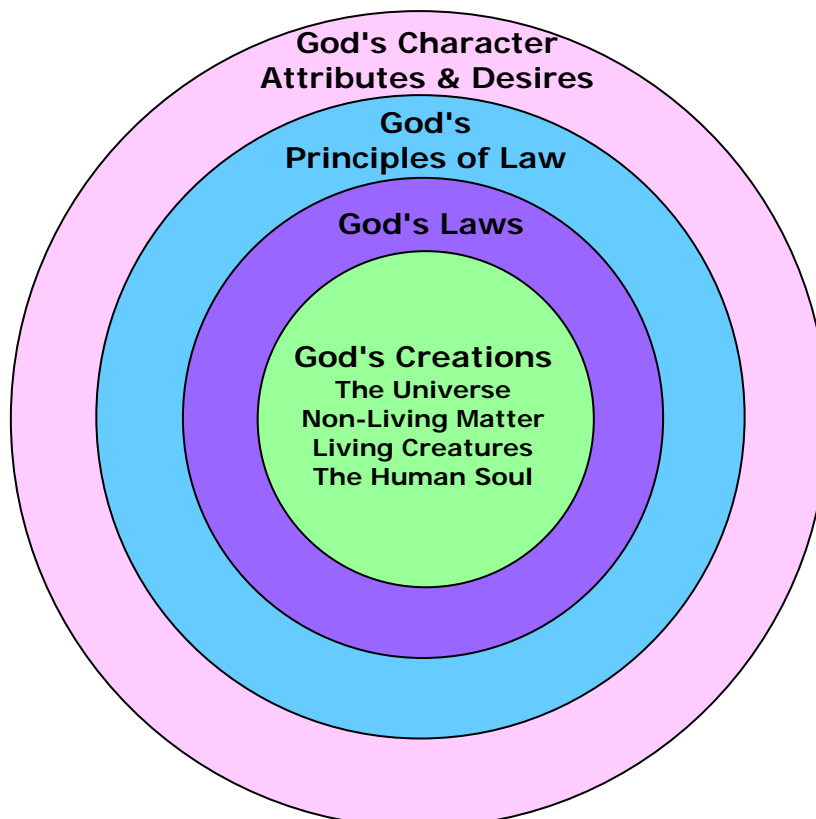

Stop telling stories, raise the issues directly
Stop parroting what I think, rather than asking Jesus what I want to know
Use the microphone properly

Questions Answered

00:01:11 Luli Faber

Do different laws have different parts of God's Personality in them? If so, could you give some examples?

00:01:51 Luli Faber

When you become at-one with God, is that when you are now living in harmony with all of God's Laws?

00:02:46 Luli Faber

Is God growing and changing? If so, how does this fit with each attribute being complete and perfect?

00:04:14 Eloisa Lytton-Hitchins

How did God come into existence?

00:04:19 Eloisa Lytton-Hitchins

How was God created?

00:05:29 Eloisa Lytton-Hitchins

Are there infinite principles like infinite laws? Are all laws pre-made?

00:08:29 Eloisa Lytton-Hitchins

When a new sphere was created did you have an opportunity to see its creation?

00:10:00 Courtney Pool

As the universe existed so long before humans, was God planning all along to create everything primarily for the human soul as God's Highest Creation?

00:11:33 Nicky Primetica

Can we use the feelings we have already received from God (e.g. love) as an internal "measurement stick" to understand God's Principles & Laws with continued experimentation?

00:14:08 Monique De Martin

Why would it be hard to conceptualise or feel God having personality, characteristics, attributes, and desires?

00:18:30 Lani Reid

How are new laws created every moment? Can you please give an example and how they are under the umbrella of existing laws?

00:21:06 Lani Reid

Do new creations have the same properties as their constituent parts?

00:21:50 Karen Henry

Why are they called "Foundation Principles"? Could you expand on the definition and qualities of Foundation Principles?

00:25:07 Pierre Joseph

Is your understanding of God's Laws & Principles a result of God's Gifts that come with the reception of God's Love or is it the exercise of your desire in that direction?

00:29:54 Pierre Joseph

Do all celestial spirits have the same desires?

10 Minute Break

Foundation Principles

Love & Truth Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Love & Truth Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Love & Truth that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Love Principles	
Summary	Love principles envelop God's Love around each creation, principle and law ensuring: <ul style="list-style-type: none"> Love governs all principles Love is enforced, compelled and upheld All creation experiences God's Love in different degrees All creation demonstrates and facilitates the flow of God's principled love The human soul can enter a love based relationship with God
Definition (What the principles are)	The law shall be love and uphold love The law enforces and compels love The law demonstrates and facilitates the understanding of love The law is compassionate
Objectives (Why the principles are applied to law)	To ensure all creation experiences the expression of God's Love To ensure the human soul learns about the availability of God's Personal Love To ensure the survival of all creation collectively To ensure loving order in all creation
Application (The creation and laws affected)	Every law All matter living and non-living
Reveals (What the principles reveal about God)	God's great desire is for all of His creation to be loved God's Love is the highest governing principle of the Universe God feels Love is more important than all other things
Examples (The principles' applications in law)	Gravity Lovingly promotes an environment that results in my being able to fearlessly express myself and enjoy my life. Aerodynamics Gives me a possible experience which exceeds my gravity bound state resulting in enhanced joy and amazing wonder. Law of Compensation Compensation lets me know when love has been upheld or compromised by my attitudes, emotions, thoughts or actions. Law of Forgiveness Compassion is demonstrated to me if I am repentant by allowing forgiveness for unloving emotions, feelings, thoughts and actions taken, even when I cannot correct all of the effects of what I have done.

Love Principles

Conclusion

Love principles:

Are impossible for humans to apply fully without receiving God's Love
Ensure purposeful existence and happiness for all creation
Are principles most frequently opposed and ignored by humans
Are the principles we have been teaching

Truth Principles

Summary

Truth principles envelop God's Truth around each creation, principle and law ensuring:

Truth is inseparably joined with Love as the highest of all principles
Truth is enforced and compelled
All creation lives within the framework of mathematical, scientific, spiritual and emotional fact
Precision and certainty in the fabric and framework of creation

Definition

(What the principles are)

The law shall be God's Truth
The law shall expose God's Truth and uphold God's Truth
The law is the spiritual, emotional, scientific and mathematical fact
The law is the fabric and framework of creation
The law enforces and compels truth

Objectives

(Why the principles are applied to law)

To ensure all creation experiences God's Truth
To ensure the human soul learns God's Truth
To provide a fixed framework for the operation of Love
To provide dependable and predictable law

Application

(The creation and laws affected)

Every law
All matter living and non-living

Reveals

(What the principles reveal about God)

God's great desire is for all of His creation to be in harmony with Truth
God's Truth is the framework for the expression of Love
God feels Truth and Love are indivisible

Examples

(The principles' applications in law)

Gravity

Is scientifically measurable and mathematically defined so that I can use the law with knowledge and certainty in my activities and life.

Aerodynamics

The law defines the primary conditions for flight, and once understood, I can build a device which engages the facts in order to fly.

Physical properties of elements & substances

All matter has individual characteristics and properties, and each element of the same kind will exhibit the same properties and react the same way under specific circumstances. Each substance of the same kind exhibits the same "truth".

Law of Attraction

Exposes to me the truth of my own condition by attracting circumstances and situations that expose the truth about my condition. Once I know my condition, I can see the causes for the events I attract.

Truth Principles (cont'd)	
Examples (The principles' applications in law)	Physical illness in the human bodies If I am ill, the truth principles in the Law of Compensation, the Law of Cause and Effect, and the Law of Attraction work together to expose that I am attempting to emotionally deny a truth about love (whether it be love of self, other half, others or the environment).
Conclusion	Truth principles: Are impossible for humans to understand without receiving God's Love Ensure existence, harmony and predictability for all creation Ensure fearlessness, security and safety for all creation Are principles most frequently opposed and ignored by humans Are the principles we have been teaching

Love & Truth Principles Q&A

Use the morning as an opportunity to formulate my questions

Examine the "Love & Truth Principles" outline
Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly
Stop parroting what I think, rather than asking Jesus what I want to know
Use the microphone properly

Questions About

Love Principles

What the principles are
Why the principles are applied to law
The creation and laws affected by the principles
What the principles reveal about God
Examples of the principles' applications in law

Truth Principles

What the principles are
Why the principles are applied to law
The creation and laws affected by the principles
What the principles reveal about God
Examples of the principles' applications in law

Questions Answered

00:45:46 Eloisa Lytton-Hitchins

If "truth and love are enforced and compelled" do we get to a point where it feels impossible to do anything but love and be truthful?

00:48:40 Eloisa Lytton-Hitchins

Since those in their first incarnation have not developed love, when they act out of harmony with love, do they feel less pain?

00:51:02 Eloisa Lytton-Hitchins

You said "All creation demonstrates and facilitates the flow of God's Principled Love."
Can you please explain what "Principled Love" is?

00:54:39 Eloisa Lytton-Hitchins

Is principled love more in line with God's Love and personal love more in line with natural love?

00:56:19 Karen Henry

How does non-living matter experience God's Love?

00:59:23 Questions

Truth Principles

00:59:55 Nicky Primetica

Are the Truth Principles applied to law to lead us all ultimately to love and God's Love if we seek it?

01:03:19 Pierre Joseph

Can you explain how "God's Truth is the framework for the expression of love?"

01:05:22 Pierre Joseph

Can God measure love mathematically?

01:05:40 Pierre Joseph

Why is that Truth Principles seem easier to grasp and understand than Love Principles? Has it to do with our emotion of rebellion against love?

30 Minute Break (Lunch)

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Life & Development Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Life & Development that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Life Principles	
Summary	Life principles transfer God's Life Force to each creation, principle and law ensuring: <ul style="list-style-type: none"> Life energy from God to be given to living creatures Life energy is transferred during pro-creation Life is promoted, nurtured, respected and sustained Imbalance is prevented and repaired Matter that "dies" is transformed to promote life
Definition (What the principles are)	<ul style="list-style-type: none"> The law shall allow God's Life Energy to enter creations The law shall promote, nurture, respect, and sustain life The law shall prevent and repair imbalance The law shall transform death to promote life The law shall allow for life to be given to creations
Objectives (Why the principles are applied to law)	<ul style="list-style-type: none"> To ensure creation, life, survival and balance To ensure matter will constantly change in order to support life To ensure survival before engagement of higher laws is enabled by ensuring that knowledge of the higher law is obtained before using the law To allow living creations to pro-create or replicate
Application (The creation and laws affected)	<ul style="list-style-type: none"> Every law All matter living and non-living
Reveals (What the principles reveal about God)	<ul style="list-style-type: none"> God loves life and created life God promotes, nurtures, respects, values and sustains life God feels that life is precious and sacred God wants us to know the higher laws before we use them
Examples (The principles' applications in law)	<p>Gravity Creates an atmosphere, and prevents creatures requiring that atmosphere from leaving the atmosphere due to physical centrifugal forces.</p> <p>Aerodynamics Requires knowledge (instinctual or obtained by investigation) of the law before flight can be obtained and prevents accidental engagement of the law without understanding principles.</p> <p>Compensation Prevents the degradation of a soul to the point that the soul cannot sustain its own life.</p>

Life Principles (cont'd)

Examples (The principles' applications in law)	Earth systems The earth's systems can maintain themselves and work to 'right' themselves (repair itself, regain equilibrium) even under extreme pressure (pollution etc) from other forces. Human bodies The human body has millions of automatic inbuilt correcting, detoxifying and eliminating systems that enable us to maintain life even under severe hardship or physical and emotional strain.
Conclusion	Life principles: Allow any creation to receive God's Life Force and then be able to supply that life force through its own pro-creative ability. Life principles also ensure that life remains sacred and that all mechanisms are created to support and sustain life. Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose life principles including: War, abortion, health care, eating meat, pollution, fear of emotions, fear of death, etc

Development Principles

Summary	Development principles allow each creation, principle and law to evolve, grow and change positively ensuring: Expansive change is forced upon all matter Growth is supported, encouraged and sustained Positive development and evolution occurs for all matter Increasing capacities can develop within all creation Self-determination of the human soul
Definition (What the principles are)	The law shall force expansive change upon all matter The law shall enforce, support, encourage and sustain growth The law shall support, encourage and sustain development and evolution The law shall support adaptation to different environments
Objectives (Why the principles are applied to law)	To ensure an enhanced condition of love develops over time To ensure the entire universe and all creatures never remain stagnant To ensure increasing capacities within all creation To allow self-determination in the human To allow life to adapt to harmful environments created by the human
Application (The creation and laws affected)	Every law All matter living and non-living
Reveals (What the principles reveal about God)	God loves, desires and enjoys the growth and development of His creations God has an expansive and generous nature God is a parent who delights in the expansive growth and joy of the human God values and encourages the development of all creatures God is not motivated to punitively or arbitrarily restrict His Creations
Examples (The principles' applications in law)	Gravity Gravity's existence allows my investigation and development in all forms of endeavour while remaining safe and secure.

Development Principles	
Examples (The principles' applications in law)	<p>Aerodynamics Knowledge of the law allows enhanced forms of travel and experiences (i.e. growth and development in my ability to move around).</p> <p>Human bodies Sperm and egg. Woman's womb supports the environment of development. Allows reflexes and instinct to develop.</p> <p>Compensation This law encourages me when I'm out of harmony with law to get into harmony with law by encouraging me to develop and change.</p> <p>Design and development of the universe The entire universe allows positive and negative development, but supports and encourages positive development only.</p> <p>Transformation The principle of development supports the complete transformation of the human into a different creature upon the reception of Divine Love.</p>
Conclusion	<p>Development principles: Allow any creation to develop and change by ensuring that the mechanisms for change and adaptation exist within the creation itself, and exist within the controlling laws.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose development principles including: Being attached to the past, nostalgic, opposing release of emotions, opposing resolution of interpersonal issues, opposing changes of family and friends, opposing experimentation, placing financial matters ahead of development, resisting emotional recognition of personal truth, restricting children's natural curiosity and experimentation, controlling outcomes and attempting to reduce the consequence of choices, etc</p>

Life & Development Principles Q&A

Use the morning as an opportunity to formulate my questions

Examine the "Life & Development Principles" outline
 Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly
 Stop parroting what I think, rather than asking Jesus what I want to know
 Use the microphone properly

Questions About

Life principles

What the principles are
 Why the principles are applied to law
 The creation and laws affected by the principles
 What the principles reveal about God
 Examples of the principles' applications in law

Development principles

What the principles are

Why the principles are applied to law

The creation and laws affected by the principles

What the principles reveal about God

Examples of the principles' applications in law

Questions Answered

00:43:27 Kate Eckersall

Could you explain or give an example of how fear of emotions opposes Life Principles?

00:46:39 Mary

Example: How suppressing emotions or living in fear effects creation around us

00:47:48 Alice Rosenbloom

An example of the Law of Compensation given is that it prevents degradation of a soul to the point that the soul cannot sustain its own life. How is that accomplished?

00:53:12 Pierre Joseph

To be in harmony with Life Principles, should everything we create be self-maintaining and repairing?

00:57:25 Pierre Joseph

Does God supply us with His Life Force only at the time of our conception or all the time? If He stops, do we die?

01:01:56 David Raizman

So do you mean that the mechanisms for change though created within me only exist as a potential due to free will, and not an inbuilt function?

01:05:22 Fab Tolli

Does the Development Principle force change in all creation even if our desire is to avoid change?

01:08:50 Mary: Questions from 6th sphere spirit

Without desire to change doesn't degradation automatically occur due to disharmony with Development? And isn't degradation a change and therefore in harmony with Development?

10 Minute Break

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Economy & Function Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Economy & Function that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Economy Principles	
Summary	Economy principles ensure that each creation and law economically uses resources by ensuring: <ul style="list-style-type: none"> The equal value of resources (time, matter and energy) The economical use of resources to create function The automation of laws and creations (no external maintenance) Economy is incorporated within creation and law
Definition (What the principles are)	<ul style="list-style-type: none"> The law shall consider time, matter and energy as <i>resources</i> of equal value The law shall utilise all <i>resources</i> economically The law shall be automatic and does not require external maintenance The law shall be incorporated within the creation itself The law shall benefit all creation
Objectives (Why the principles are applied to law)	<ul style="list-style-type: none"> To ensure all <i>resources</i> combined are treated with equal value To ensure all <i>resources</i> combined are utilised efficiently for abundance To ensure all systems are sustaining, self-maintaining and self-repairing To ensure the individual creature is supported by creation collectively To ensure humans understand benefits of collective economy
Application (The creation and laws affected)	<ul style="list-style-type: none"> Every law All matter living and non-living
Reveals (What the principles reveal about God)	<ul style="list-style-type: none"> God feels time, matter and energy are equally valuable God feels economy and abundance are mutually inclusive God feels economy results in abundance for all creatures God's economy is not motivated by a feeling of lack God feels that love does not waste anything (we can think about this in terms of physical creation but also in terms of emotional and spiritual experiences) God focuses on the real benefit rather than any short term "satisfaction"
Examples (The principles' applications in law)	<p>Gravity</p> <p>One law has the same benefit to all living creatures.</p> <p>Aerodynamics</p> <p>Knowing the higher law results in more economical use of time, energy and resources to accomplish larger outcomes (particularly if we redesigned the vehicle to have more loving energy sources and operation would result in no roads or destruction to environment through transportation).</p>

Economy Principles (cont'd)	
Examples (The principles' applications in law)	<p>Automation Instinct built into each living creature. Default operation built into all matter. e.g. Breathing; living organisms do not require decisions to breath.</p> <p>Decomposition A decomposing tree creates fertile ground to sustain more life, food for insects, birds, animals and other living elements of the system, a pocket of light that allows smaller trees that were previously shaded to grow.</p>
Conclusion	<p>Economy principles: Ensure all laws and creations economically use, and treat of equal value, all resources of time, energy and matter. Economy principles ensure that no resource is wasted, and that abundance exists naturally within the universe.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose economy principles including: Placing financial matters ahead of time, matter and energy, creating without consideration for future resource usage, creating without concern for creatures that live afterwards, watering gardens, using chemicals that destroy, selfishly valuing my personal resources over the resources of others, etc</p>

Function Principles	
Summary	<p>Function principles ensure that each creation and law has many functional purposes by ensuring:</p> <ul style="list-style-type: none"> The equal value of outcomes (results, beauty, and the use of resources of time, matter and energy) Each law and creation has multiple functions that are automatically fulfilled The economical use of resources to create multi-functionality The automation of function and outcome Creation itself instinctively "desires" to fulfil all outcomes
Definition (What the principles are)	<p>The law shall quantify the economical use of resources (time, matter and energy), the obtained results, and beauty as <i>outcomes</i> of equal value</p> <p>The law shall ensure all <i>outcomes</i> are automatically fulfilled</p> <p>The law shall ensure creation itself instinctively "desires" to fulfil all <i>outcomes</i></p>
Objectives (Why the principles are applied to law)	<ul style="list-style-type: none"> To ensure all <i>outcomes</i> combined are treated with equal value To ensure all <i>outcomes</i> combined are fulfilled To ensure each creation itself fulfils all <i>outcomes</i> To ensure each creation supports a system that fulfils all <i>outcomes</i>
Application (The creation and laws affected)	<p>Every law</p> <p>All matter living and non-living</p>
Reveals (What the principles reveal about God)	<p>God feels the only purpose of law is to create and enhance function</p> <p>God sees no point in creating without function or for beauty only</p> <p>God feels beauty is an inviolable part of loving function</p> <p>God enjoys function and beauty as mutually inclusive</p> <p>God creates function to inspire, satisfy, and increase the joy of the human soul</p>
Examples (The principles' applications in law)	<p>Gravity Gravity keeps all unconnected matter sustained within an atmosphere, and the atmosphere itself is sustained by gravity (along with other substances)</p>

Function Principles (cont'd)	
Examples (The principles' applications in law)	Aerodynamics While only recently enjoyed by the human itself, birds and other creatures (insects, etc) have engaged flight that benefits humans (e.g. fly, ant, bee) collectively, and inspired humans (e.g. bird of prey) to learn the law. Trees Trees have a multitude of functions, which include assisting survival and the creation of a usable atmosphere, habitat, heating, oxygen generation, removal of carbon dioxide, soil production, water management, as well as smelling good, supplying calming energy, and being beautiful to look at for humans. Every human specific law Each human specific law has multiple functions of removing sin, causing transformation, as well as making the human itself feel, smell and look more beautiful.
Conclusion	Function principles: Ensure all laws and creations have multiple functional purposes for their creation and existence, and treat of equal value, all resources of time, energy and matter, and all outcomes including function and beauty. Function principles ensure that each creation has multiple purposes and that each purpose benefits other creations. Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose function principles including: Not valuing resources (time, matter and energy), the obtained results, and beauty equally, creating without function, creating for a single function, destroying the environment to create, creating products that cover over truth (e.g. makeup for women), etc

Economy & Function Principles Q&A

Use the morning as an opportunity to formulate my questions

Examine the "Economy & Function Principles" outline
Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly
Stop parroting what I think, rather than asking Jesus what I want to know
Use the microphone properly

Questions About

Economy Principles

What the principles are
Why the principles are applied to law
The creation and laws affected by the principles
What the principles reveal about God
Examples of the principles' applications in law

Function Principles

What the principles are

Why the principles are applied to law
The creation and laws affected by the principles
What the principles reveal about God
Examples of the principles' applications in law

Questions Answered

00:03:13 Phoebe Bruce

Could you please explain how a law can be self-maintaining?

00:07:15 Phoebe Bruce

Once God creates the law is everything He sets up self-maintaining?

00:10:21 Luli Faber

Can you explain why time is of equal importance to energy and matter to God when God is an eternal being who has unlimited time?

00:13:34 Luli Faber

Is it possible to live in full harmony with Economy Principles on Earth?

00:15:21 Luli Faber

If someone become at-one with God, do they suddenly manifest a new home that is alive?

00:18:16 Luli Faber

Does God have a different definition of what is alive?

00:19:36 Karen Pronk

How can I waste an emotional or spiritual experience?

00:21:46 Karen Pronk

How can we determine beforehand which emotional experiences are wasting time?

00:25:24 Anna MacDonald

Does this mean a business run according to God's Principles will automatically be successful?

00:26:07 Anna MacDonald

What does business success look like from God's perspective?

00:30:05 Pierre Joseph

How did humans develop a feeling of lack in such an abundant universe?

00:32:59 Mary

Do we live in lack because we ignore truth and live in a state of fear?

00:34:24 Alice Rosenbloom

Can you please give an example of creating without function or for a single function and creating to serve multiple purposes?

00:46:18 Luli Faber

Can you give some examples of the instinctive desire that creation has to fulfil its outcomes?

00:50:48 Karen Henry

If our creations are not in harmony with the Function Principles are they then unloving and do God's Laws work to destroy them?

End Of Day

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Enforcing Love & Truth S2
Presenter(s):	Jesus
Description:	Jesus creates the correct environment for gaining an "Education in Love" by removing participants whom he feels are not addressing gender based emotional issues caused by a lack of sincere desire for love, truth and self-awareness

Enforcing Love & Truth

Removals

Jesus removes those participants whom Jesus and Mary feel are not addressing gender based emotional issues caused by a lack of sincere desire for love, truth and self-awareness

Jesus tells those participants why they are being removed and gives them an opportunity to ask questions about the issues

General questions from the audience about any issue are also allowed

Women Removed

Women who emasculate men emotionally & sexually, and gain power over, control & bully other women

7 women removed during the day are in this group

Women who support other women who emasculate men emotionally and sexually, or who are more humble about the first issue

1 woman removed is in this group

Women who want power & control over other women & use abusive men & women to get it

1 woman removed is in this group

Women who justify their fear of women bully's & do what women bully's want rather than confronting them

1 woman removed is in this group

Men Removed

Men who want to criticise, compete, and put down Jesus

None removed

Men who want sexual power and control over women

None removed

Men who arrogantly believe women should meet all of their "needs"

None removed

Men who pander to abusive women in order to receive sex, sexual attention and validation

None removed

Conclusion

During the week, focus on principles and the application of principles

Spend time seeing how these principles can be applied in daily life

Are we here to Love, or just talk about Love?

Most participants need to question their own desire to Love

Needing to continually raise the same issues is an indication of lack of desire

Questions Answered

00:21:05 Jennifer Brownson

Should I go now?

00:21:31 Dawn Ruffle

Can I be part of 2 groups? I am struggling to understand what you are saying!

00:23:25 Rebecca Johnstone

If you were in our position, what is the first thing you would look at to deal with this issue?

00:26:00 Rebecca Johnstone

Is feeling of superiority over women is due to the issues with my mother?

00:33:08 Sandra Tuszynska

Why am I placed in the second group rather than the first group?

00:36:48 Monique De Martin

Can you clarify what is causing my wanting power and dominance over women?

00:40:21 Feedback to: Cecily Tonkin

Intense demand onto other people to support her fear

00:45:34 Cecily Tonkin

So am I completely deluding myself that I have dealt with any of the fear?

00:48:35 Alex Mrnak

What does sexual power mean?

00:48:51 Alex Mrnak

What do you mean I give sexual power to women who want power over other women?

00:49:51 Adria Escudero

I am aware of my injury with wanting sexual power over women, but I don't see the sin of it yet, what would you recommend for that?

00:51:13 Adria Escudero

Do I also have a group of spirits with me who influence me and women?

00:53:22 Adria Escudero

Is it possible that my own mother from the spirit world influencing me?

00:54:58 Peter Lytton-Hitchins

Can I be part of all 4 groups of men you are mentioning here?

01:03:02 Feedback to: Lewis Evans

Big issue with low self worth and spirits attacking him

01:08:06 Feedback to: Jennifer Brownson

I thought I was dealing with my issues of anger with men

Permanence Principles

Foundation Principles

Permanence Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Permanence Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Permanence that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Permanence Principles	
Summary	<p>Permanence principles mean that all creation can rely on permanent law by ensuring:</p> <ul style="list-style-type: none"> Laws are unchangeable, consistent, permanent, and self-enforcing Laws are structured, verifiable and mathematical Laws are measurable, quantifiable and observable Creation has safety and predictability in the universe
Definition (What the principles are)	<p>The law shall be unchangeable, consistent and permanent</p> <p>The law shall be structured, verifiable and mathematical</p> <p>The law's results shall be measurable, quantifiable and observable</p>
Objectives (Why the principles are applied to law)	<p>To promote faith & trust in the Creator, Love, Truth, the environment & life</p> <p>To create stability and predictability in God's Universe</p> <p>To promote discovery, experimentation, education & learning</p> <p>To prevent negotiation, manipulation, and intentional misuse of the law</p> <p>To allow intelligent creatures to consistently and reliably create</p> <p>To enable discovery of individual truths via a large variety of fields of enquiry</p>
Application (The creation and laws affected)	<p>Every law</p> <p>All matter living and non-living</p>
Reveals (What the principles reveal about God)	<p>God's Love & Truth is consistent and permanent, verifiable & unchangeable</p> <p>God feels that Love must be consistent and permanent</p> <p>God desires humans to discover truth through their desires</p> <p>God is fixed and unmovable, unable to be manipulated, lied to or fooled</p> <p>God feels the same for all creations of the same type</p> <p>God wants to be trusted</p>
Examples (The principles' applications in law)	<p>Gravity</p> <p>Gravity is consistent for the environment which allows for my security and safety in taking actions with predictability.</p> <p>Aerodynamics</p> <p>The higher law, once known and understood, can be reliably, consistently, mathematically, safely and securely engaged.</p>

Permanence Principles (cont'd)

Examples (The principles' applications in law)	Fibonacci numbers in nature As an artist (proportion, people, placement of objects, etc) As a scientist (rotation of leaf placement photosynthesis efficiency etc) As a cosmologist (design of galaxies, efficient distribution of energy) As a marine biologist (efficient design and strength of living space - shells) As a botanist (design of plants etc) Cause and effect Every effect of the same kind has the same cause. Human soul Changes in my soul are measurable and repeatable.
Conclusion	Permanence principles: Ensure all laws are unchangeable, consistent, permanent, and self-enforcing and that creations can rely upon this fact. Permanence principles ensure that all creations of the same type function in the same manner so that function is certain. Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose permanence principles including: suggesting that love varies itself under different circumstances believing all law is a "process of negotiation" believing I can manipulate the law feeling if no one is watching then laws are not enforced feeling that I have a "special case or circumstance" to avoid law believing that only actions can be governed believing that superiority absolves me of certain law believing that circumstances dictate whether to obey law believing that financial considerations allow for disobedience believing freedom means being able to ignore or break law resisting growing faith based upon previous experience suggesting that there is no such thing as absolute truth, etc

e.g. Fields of Enquiry Diagram

Permanence Comparison	
God's Concept	Human Concept
God never varies the operation of Love under any circumstance	Humans suggests that love varies itself under different circumstances
God's Laws cannot be negotiated with and are always consistently enforced	Humans believe all law is a "process of negotiation" with the law enforcer
God's Laws cannot be manipulated or appealed to	Humans believe they can manipulate the law enforcer
God's Laws are self-enforcing and always observe the attitudes, feelings & actions	Humans feel if no one is watching, then laws are not enforced
God's Laws always operate and the effect is guaranteed in all circumstance	Humans feel that they have a "special case or circumstance" to avoid law
God's Laws operate upon the attitude & feeling and action of the individual	Humans believe that only actions should be governed
God's Laws operate without partiality, and absolve no-one	Humans believe that superiority absolves them of certain law
God's Laws require obedience in all circumstances	Humans believe that circumstances dictate whether to obey law
God's Laws do not consider financial circumstances at all	Humans believe that financial considerations allow for disobedience
God's Laws cannot be ignored and state that true freedom for all requires living in harmony with the laws of Love	Humans believe freedom means being able to ignore or break law

Permanence Principles Q&A

Use the morning as an opportunity to formulate my questions

Examine the "Permanence Principles" outline
 Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly
 Stop parroting what I think, rather than asking Jesus what I want to know
 Use the microphone properly

Questions About

Permanence principles

What the principles are
 Why the principles are applied to law
 The creation and laws affected by the principles
 What the principles reveal about God
 Examples of the principles' applications in law
 Permanence comparison between God and humans

Questions Answered

00:09:40 Fab Tolli

This principle applies to every one of God's Creations. Can you please give examples with things that can't be seen like frequencies and sound waves?

00:15:44 Wayne Shaw

Can the law's results be measured, quantified, and observed with our current knowledge of maths?

00:21:04 Laura Tolli

So how can a spirit or person tell that we have released an emotion?

00:25:10 Phoebe Bruce

If God feels love is permanent, is it possible for a human to love someone or thing and stop, or does that mean they never loved them in the first place?

00:27:00 Phoebe Bruce

Is it possible for human to love something then stop?

00:28:36 Eloisa Lytton-Hitchins

If "God desires humans to discover truth through their desires", how does this relate to consistency?

00:29:44 Eloisa Lytton-Hitchins

So the law is permanent but my desire is the thing that comes and goes?

00:30:49 Eloisa Lytton-Hitchins

So does a strong more consistent desire cause us to live in more harmony with Permanence?

00:31:22 Eloisa Lytton-Hitchins

Could you please explain more about will (current soul state) and desire (aspired to future state) and how that effects future events?

00:32:24 Kerry Foley

Does every effect of the same kind have the exact same cause, the same unloving action and/or suppressed emotion in every single person?

00:35:31 Kerry Foley

So with the example of different shoulder injuries, do they all have different causes?

00:36:04 Luli Faber

How do Permanence Principles fit with the fact that new laws are being created all the time?

00:39:23 Sandra Tuszynska

What is true obedience and is it possible to obey God's Laws without having received God's Love? Can we obey without understanding in our soul?

00:42:05 Sandra Tuszynska

So did God know that humans would create the mobile phone?

00:43:57 Sandra Tuszynska

So we are often not aware that we are obeying laws even when we are?

00:45:04 Patricia Sanders

How do the Permanence Principles apply to our souls since obviously our soul does change?

00:47:49 Paige Willoughby

Regarding "God's Laws are self-enforcing and always observe the attitudes, feelings and actions" could you explain how God "observes", what that means for us, and how that relates to the Permanence Principle?

00:53:44 Paige Willoughby

Is the Permanent Principle the reason why God can measure everything?

00:55:14 Nicky Primetica

If we can feel and have faith that the Permanence Principle is within all of God's Laws, does that help us make the shift from self reliance to God reliance?

00:58:55 Pierre Joseph

Development states that law can evolve while Permanence states laws are unchangeable and permanent. Can you please clarify?

01:00:28 Pierre Joseph

Are all Laws measurable, quantifiable and observable by humans in our current condition?

01:02:33 Monique De Martin

How can Permanence Principles help me develop a relationship with God?

10 Minute Break

Foundation Principles Scope Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Scope Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Scope that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Scope Principles	
Terms	<p>Creation includes any matter or creature from the smallest particle to the most complex living creation of the human soul</p> <p>Energy includes information, energy, emotion, thought, communication, relationship or interplay within or between <i>creation</i></p> <p>Properties include all properties, characteristics, attributes, attractions, and restrictions of the <i>creation</i> itself</p> <p>Inbuilt Rules means a set of laws and potentials built into the creation itself that govern the <i>creation's properties</i> and <i>energy</i></p> <p>External Rules means a set of laws and potentials created by <i>creation</i> combinations external to the individual <i>creation</i> itself that affect the creation's <i>properties</i> and <i>energy</i></p>
Summary	<p>Scope principles guarantee creation is governed by law, and that new creations and laws can exist, by ensuring:</p> <p><i>Inbuilt rules</i> are placed within each <i>creation</i> (e.g. genetics)</p> <p><i>Inbuilt rules</i> determine the <i>creation's</i> potentials, <i>energy</i> flow and <i>properties</i></p> <p><i>External rules</i> affect each <i>creation's properties</i> and <i>energy</i></p> <p><i>External rules</i> allow for expansion of each <i>creation's properties</i> and <i>energy</i></p> <p><i>External rules</i> allow for new laws and <i>creations</i></p> <p><i>External rules</i> control the flow of <i>energy</i> between <i>creations</i></p>
Definition (What the principles are)	<p>All <i>creation</i> shall be governed by law</p> <p><i>Inbuilt rules</i> shall be inbuilt into each <i>creation</i></p> <p><i>Inbuilt rules</i> shall determine the <i>creation's</i> potentials</p> <p><i>Inbuilt rules</i> determine the <i>energy</i> flow and <i>properties</i> of the <i>creation</i></p> <p>New <i>inbuilt rules</i> are created when combined <i>creations</i> form a new <i>creation</i></p> <p>New <i>inbuilt rules</i> determine the <i>energy</i> flow and <i>properties</i> of the new <i>creation</i></p> <p>The <i>energy</i> flow shall be governed by <i>inbuilt rules</i> and <i>external rules</i></p>
Objectives (Why the principles are applied to law)	<p>To allow for the Universe to exist</p> <p>To allow for simple and complex non-living and living creations to exist</p> <p>To allow for energy flow between creations</p> <p>To ensure that no creation is capable of anarchy</p> <p>To allow for automation of processes, functions, properties and life</p> <p>To allow for infinite combinations and permutations of;</p> <ul style="list-style-type: none"> creation new forms of creation evolution and devolution new inbuilt and external rules

Scope Principles (cont'd)	
Objectives (Why the principles are applied to law)	To create and allow for; self-enforcing law self-maintaining law new higher laws external rules governing all creation internal rules governing individual creation properties for each individual creation combination
Application (The creation and laws affected)	Every law All matter living and non-living
Reveals (What the principles reveal about God)	God is extremely intelligent God is a careful planner and designer God is interested in allowing creation to communicate & gain knowledge God wanted mutually beneficial relationships between various creations God wanted no creation to exist independently God wanted potentials to be governed by the creation itself God made provisions for all new creations and laws God wanted a self-maintaining Universe God wanted no creation to experience complete separation from God God wanted all devolution to result in further creation
Examples (The principles' applications in law)	<p>Gravity Gravity is not actually a single law or phenomenon. As a law it is actually a combination of creations and laws which, when combined make a higher law.</p> <p>Aerodynamics Aerodynamics is not actually a single law or phenomenon. As a law it is actually a combination of creations and laws which, when combined, make a higher law. It also involves many lower laws from a wide range of fields.</p> <p>Human bodies A combination of laws and substances, which include the flow of energy system (life), made from a combination of elements (which are governed by their own laws), made from a combination of atomic and sub-atomic particles (which also are governed by their own laws), which are made from a specific combination of particles (themselves also governed by specific laws).</p> <p>In addition, some external creations (such as viruses, and bacteria) which exist as separate organisms governed by their own laws, exist within the body. Also, the body communicates with the controlling soul and spirit body through a set of laws, and has the potential to communicate with anything in the rest of the Universe through another set of external laws.</p> <p>Each system within the body is also governed by its own set of laws but these, in a healthy system, work harmoniously to complete the whole creation and function of the human body.</p>

Scope Principles (cont'd)

Conclusion

Scope principles:

Determine the existence of the universe itself, everything within the universe, how everything communicates with all elements of the universe, how new creations and laws appear in the universe, and also the inbuilt soul based mechanisms via which the highest creation within the Universe is able to communicate with God.

Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose scope principles including:

Creating objects and systems that work against the environment and require maintenance

Creating without understanding the laws governing the constituent elements of the creation (e.g. chemical genetic manipulation, anti-bacterial or viral medication etc)

Creating 'medicines', 'solutions' or 'remedies' that deal only with effects (and don't consider the scope of what is occurring and why a 'symptom' exists)

Attempting to overcome or interact with a single law, or the effect of a single law, without considering the other laws that operate in unison with that law, etc

Scope Principles Q&A

Use the morning as an opportunity to formulate my questions

Examine the "Scope Principles" outline

Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly

Stop parroting what I think, rather than asking Jesus what I want to know

Use the microphone properly

Questions About

Scope Principles

What the principles are

Why the principles are applied to law

The creation and laws affected by the principles

What the principles reveal about God

Examples of the principles' applications in law

Questions Answered

00:09:07 Barbara McNair

If there is no atmosphere can we still talk and listen?

00:11:19 Laura Diaz

Does the spirit world have its own atmosphere?

00:11:41 Fabio Tolli

Can the external rules change like inbuilt rules change?

00:13:46 Rachael Bush

Do we collectively create a spiritual atmosphere that allows information to pass through it?

00:15:53 Mary

Are you saying that there are external rules that govern how energy mixes and creates a spiritual atmosphere?

00:17:06 Neil Henderson

Are there the same elements in the spirit world as there are in the physical?

00:18:24 Neil Henderson

Are there going to be more elements discovered in periodic table or is it finite?

00:21:15 Neil Henderson

Do Scope Principles limit the integration between creations?

00:37:53 Maximilian Ferraiuolo

Are you saying that the combined lower laws create the new higher law?

00:39:07 Sandra Tuszynska

Are we recycled and contain particles from dinosaurs and other people?

00:40:49 Alwyn Campbell

How do internal and external laws effect devolution?

00:47:51 Alex Mrnak

Isn't Scope the same as potential?

00:48:49 Karen Henry

Can you please help me with the external rules definition?

00:50:59 Karen Henry

Could you explain what you mean by "energy flow" in the context of inbuilt rules?

00:52:55 Sandra Tuszynska

When you say "God made provisions for all creation and laws" does this mean God foresees all potentialities and that God can never be surprised?

00:53:37 Sandra Tuszynska

Is God omnipotent?

00:54:21 Sandra Tuszynska

Can God be surprised?

00:55:31 Laurleen Lee

Is it the external rules that allow for the evolution of life forms?

00:55:37 Laurleen Lee

Does evolution of life forms exemplify to the human how we can change into the Divine Angel?

00:58:56 Denise Shaw

In regards to when new creations occur in the Universe (e.g. a new sphere) do Scope Principles determine the new creation and the Laws pertaining to the environment?

01:01:11 Patricia Sanders

Are there laws that apply only specifically to each of us as individuals (e.g. only me or only you)?

01:04:20 Patricia Sanders

Do hydrogen and oxygen being different elements have different internal and external laws that apply to them?

01:05:50 Luli Faber

How is it that internal and external rules allow for a new law or creation? e.g. with water

01:08:00 Richard Turner

What are some examples of soul based mechanisms that allow humans to communicate with God?

10 Minute Break

Foundation Principles

Human Law Comparison

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Human Law Comparison
Presenter(s):	Jesus
Description:	Jesus briefly compares God's Laws with human law in some fundamental areas to set the foundation for two further discussions about flaws in our individual and collective attitudes, feelings and emotions towards God's Laws

Reasons For Comparing Human Law with God's Laws

My personal pain

Since childhood I have been exposed only to parent and societal law
 I have now developed attitudes towards law that come from the childhood experience
 I have attitudes to God's Law which cause me much heartache and pain
 I have the same attitude towards God's Laws that I have towards human law
 I need to examine my attitude to God's Laws if I wish to become happy

Comparison allows me to examine problematic soul based issues

If I compare God's Laws and human law, I have a chance to identify my own soul based emotional injuries which prevent me from engaging God's Laws

Law Comparison	
God's Laws	Human Laws
The law maker is also the law enforcer and fully enforces obedience to every law	The law maker is usually not the law enforcer or policing officer, and the law enforcer is not able to fully enforce obedience to any law created
The law maker and enforcer is infinitely and always aware, perfect and infallible	The law maker and/or law enforcers have little awareness, are able to fail, and are imperfect
Laws are created by the law maker only to benefit all creation	Laws created with mixed and often unpredictable benefits, sometimes for the benefit of all creatures, or only for the benefit of the human, the law maker, the law enforcer or the police
Laws created to maintain survivability, growth, and transformation of all matter and living creatures within the Universe	Laws primarily created for the purpose of being a deterrent and to enforce punishment upon the law breaker and to discourage the most disobedient
Laws operate whether the creation is aware or not	Laws operate only if the law enforcer is aware and willing to enforce the law
Laws operate on the "heart", soul, attitude, character, thoughts and emotions of the human, and the action taken	Laws operate only on the action taken, and then only if the action is observed, processed and enforced, by the law enforcer
Laws operate consistently under all circumstances with no exceptions	Laws operate differently in each country and are inconsistently applied according to wealth, social status or position, race, gender, nationality, and hundreds of other variable factors

Foundation Principles

Human Law Comparison

Law Comparison Table	
God's Laws	Human Laws
Each law has loving penalties if disobeyed, and loving rewards when obeyed	Each law usually only has penalties when disobeyed, and then only if disobedience is observed, processed and enforced, by the law enforcer
The penalties and rewards are loving, consistent and predictable	Many penalties are unloving. Obedience is rarely rewarded. The results are usually unpredictable.
Each law deals with and addresses both the cause (relating to why the human used their will to disobey or obey the law) and the effect (the fact that the human did so use their will in a loving or unloving manner)	Law only deals with disobedience, and then does not fully address the effect but rather only provides "punishment" or "penalties" to act as a deterrent to further disobedience and force obedience. Does not address the cause of any action, and does not reward loving action.

Human Law Comparison	
Results	<p>Comparing God's Laws with human law reveals:</p> <ul style="list-style-type: none"> humans are "drunk" on their own perception of law humans see God's Law similarly to how they see human law humans impose their perception of human laws on God's Laws humans create a huge amount of pain and suffering as a result of the "Human law Hangover" <p>Human attitude to law is compromised because humans:</p> <ul style="list-style-type: none"> are not able to fully enforce obedience to any law created have little awareness, are able to fail, and are imperfect create laws with mixed and often unpredictable benefits create laws for the purpose of being a deterrent and to enforce punishment must observe disobedience and be willing to enforce the law only penalize disobedient actions, and then only if the action is noticed by, caught by and willing to be enforced by other humans create laws that operate differently in each country and are inconsistently applied according hundreds of variable factors create laws with unloving penalties, obedience is rarely rewarded and the results are usually unpredictable create law that only deals with disobedience, and then does not fully address the effect but rather only provides "punishment" or "penalties" to act as a deterrent <p>We will discuss the "Human law Hangover" and how this affects every person in attendance</p>
Summary	<p>Human law comparison reveals:</p> <ul style="list-style-type: none"> God's Laws are very different to human laws Human resistance to God's Law is based upon the flawed viewpoints of love and truth that come from childhood parental and societal experiences If I keep treating God's Laws like human laws I will continue to remain unhappy and in pain

Questions Answered

00:28:41 Sandra Tuszynska

I am not noticing any rewards for "good deeds" on earth but it seems that in the spirit world rewards appear faster?

00:30:42 Sandra Tuszynska

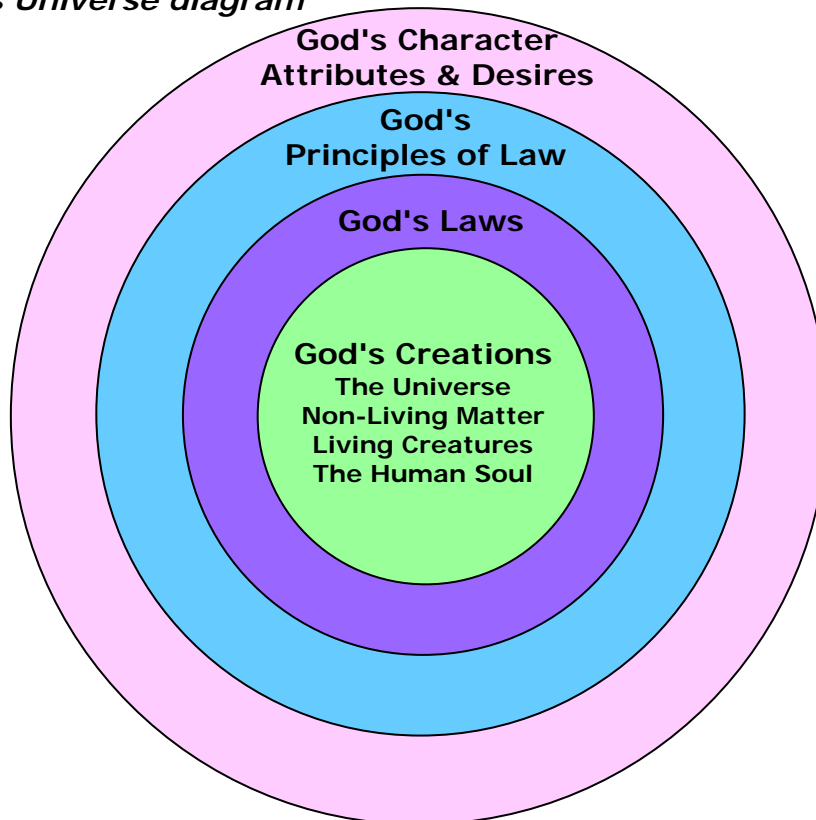

How do we feel God's Rewards for "good deeds" while on earth?

30 Minute Break (Lunch)

Series: Education In Love
Group: Understanding God's Loving Laws
Theme: Session 1 Review, Conclusion & Homework
Presenter(s): Mary
Description: Mary reviews and concludes the "Foundation Principles" session, and gives some homework to the participants for the following day

Foundation Principles Session

God's Universe diagram

Review

Form the foundation of the universe itself
Allow us to obtain some basic facts about God and God's Personality, Nature, Attributes, Characteristics and Desires
Ensure laws allow our very existence, to experience love, and live in a state of safety and security in the universe

Discussed

Foundation Principles including:
Love, Truth, Life, Development
Economy, Function, Permanence, Scope
Fundamental Facts
Human Law Comparison

Presentation Reviews**Fundamental Facts About God's Laws****Summary****Fundamental facts include:**

God is an infinite entity
 God's Personality, Characteristics, Attributes & Desires govern God's Principles
 God's Principles of Law govern God's Laws
 God's Laws govern the creation itself
 Billions of Laws exist
 Understanding Law requires following "God's Way" & receiving God's Love

Human law Comparison**Summary****Human law comparison reveals:**

God's Laws are very different to human laws
 God fully enforces obedience to every law
 God is infinitely and always aware, perfect and infallible
 God's Laws are created only for the benefit of the Created Creatures
 God's Laws maintain survivability, growth, and transformation
 God's Laws operate whether we are aware or not
 God's Laws operate on the soul, attitude, character, thoughts, emotions & actions
 God's Laws operate consistently under all circumstances with no exceptions
 Each law has loving penalties if disobeyed, and loving rewards when obeyed
 Each law addresses both the cause and the effect
 Human resistance to God's Law is based upon the flawed viewpoints of love and truth that come from childhood parental and society experiences
 If I keep treating God's Laws like human laws I will continue to remain unhappy and in pain

Principles Review**Love Principles****Summary****Love principles envelop God's Love around each creation, principle and law ensuring:**

Love governs all principles
 Love is enforced, compelled and upheld
 All creation experiences God's Love in different degrees
 All creation demonstrates and facilitates the flow of God's principled love
 The human soul can enter a love based relationship with God

Homework**How am I living in and/or out of harmony with Love principles?**

Foundation Principles

Session 1 Review, Conclusion & Homework

Truth Principles

Summary	Truth principles envelop God's Truth around each creation, principle and law ensuring: <ul style="list-style-type: none"> Truth is inseparably joined with Love as the highest of all principles Truth is enforced and compelled All creation lives within the framework of mathematical, scientific, spiritual and emotional fact Precision and certainty in the fabric and framework of creation
Homework	How am I living in and/or out of harmony with Truth principles?

Life Principles

Summary	Life principles transfer God's Life Force to each creation, principle and law ensuring: <ul style="list-style-type: none"> Life energy from God to be given to living creatures Life energy is transferred during pro-creation Life is promoted, nurtured, respected and sustained Imbalance is prevented and repaired Matter that "dies" is transformed to promote life
Homework	How am I living in and/or out of harmony with Life principles?

Development Principles

Summary	Development principles allow each creation, principle and law to evolve, grow and change positively ensuring: <ul style="list-style-type: none"> Expansive change is forced upon all matter Growth is supported, encouraged and sustained Positive development and evolution occurs for all matter Increasing capacities can develop within all creation Self-determination of the human soul
Homework	How am I living in and/or out of harmony with Development principles?

Economy Principles

Summary	Economy principles ensure that each creation and law economically uses resources by ensuring: <ul style="list-style-type: none"> The equal value of resources (time, matter and energy) The economical use of resources to create function The automation of laws and creations (no external maintenance) Economy is incorporated within creation and law
Homework	How am I living in and/or out of harmony with Economy principles?

Function Principles

Summary	<p>Function principles ensure that each creation and law has many functional purposes by ensuring:</p> <ul style="list-style-type: none"> The equal value of outcomes (results, beauty, and the use of resources of time, matter and energy) Each law and creation has multiple functions that are automatically fulfilled The economical use of resources to create multi-functionality The automation of function and outcome Creation itself instinctively "desires" to fulfil all outcomes
Homework	How am I living in and/or out of harmony with Function principles?

Permanence Principles

Summary	<p>Permanence principles mean that all creation can rely on permanent law by ensuring:</p> <ul style="list-style-type: none"> Laws are unchangeable, consistent, permanent, and self-enforcing Laws are structured, verifiable and mathematical Laws are measurable, quantifiable and observable Creation has safety and predictability in the universe
Homework	How am I living in and/or out of harmony with Permanence principles?

Scope Principles

Terms	<p>Creation includes any matter or creature from the smallest particle to the most complex living creation of the human soul</p> <p>Energy includes information, energy, emotion, thought, communication, relationship or interplay within or between <i>creation</i></p> <p>Properties include all properties, characteristics, attributes, attractions, and restrictions of the <i>creation</i> itself</p> <p>Inbuilt Rules means a set of laws and potentials built into the creation itself that govern the <i>creation's properties</i> and <i>energy</i></p> <p>External Rules means a set of laws and potentials created by <i>creation</i> combinations external to the individual <i>creation</i> itself that affect the creation's <i>properties</i> and <i>energy</i></p>
Summary	<p>Scope principles guarantee creation is governed by law, and that new creations and laws can exist, by ensuring:</p> <ul style="list-style-type: none"> <i>Inbuilt rules</i> are placed within each <i>creation</i> (e.g. genetics) <i>Inbuilt rules</i> determine the <i>creation's</i> potentials, <i>energy</i> flow and <i>properties</i> <i>External rules</i> affect each <i>creation's properties</i> and <i>energy</i> <i>External rules</i> allow for expansion of each <i>creation's properties</i> and <i>energy</i> <i>External rules</i> allow for new laws and <i>creations</i> <i>External rules</i> control the flow of <i>energy</i> between <i>creations</i>
Homework	How am I living in and/or out of harmony with Scope principles?

Homework

For the "Foundation Principles" session

How am I living in or out of harmony with each of the Foundation Principles?

Conclusion

Foundation Principles:

Foundation Principles form the foundation of the universe itself, and also allow us to obtain some basic facts about God and God's Personality, Nature, Attributes, Characteristics and Desires.

Next session: Order Principles

"Order Principles" are discussed in the next 2 day session

Questions Answered

00:23:14 Laura Tolli

Could you please give some examples of the homework for Scope Principles?

00:26:10 Joanne Ramundo

Could you please give an example of the inbuilt and external rules in Scope Principles homework?

00:28:36 Karen Pronk

What do you mean by "spiritual examples"?

Finish For Day

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Enforcing Love & Truth S3
Presenter(s):	Mary
Description:	Mary creates the correct environment for gaining an "Education in Love" by removing participants whom he feels are not addressing gender based emotional issues caused by a lack of sincere desire for love, truth and self-awareness

Enforcing Love & Truth

Removals

Mary removes those participants whom Jesus and Mary feel are not addressing gender based emotional issues caused by a lack of sincere desire for love, truth and self-awareness

Mary tells those participants why they are being removed and gives them an opportunity to ask questions about the issues

General questions from the audience about any issue are also allowed

Women Removed

Women who emasculate men emotionally & sexually, and gain power over, control & bully other women

1 woman removed is in this group

Women who support other women who emasculate men emotionally and sexually, or who are more humble about the first issue

None removed

Women who want power & control over other women & use abusive men & women to get it

None removed

Women who justify their fear of women bully's & do what women bully's want rather than confronting them

None removed

Men Removed

Men who want to criticise, compete, and put down Jesus

None removed

Men who want sexual power and control over women

None removed

Men who arrogantly believe women should meet all of their "needs"

None removed

Men who pander to abusive women in order to receive sex, sexual attention and validation

None removed

Conclusion

During the week, focus on principles and the application of principles

Spend time seeing how these principles can be applied in daily life

Are we here to Love, or just talk about Love?

Most participants need to question their own desire to Love

Needing to continually raise the same issues is an indication of lack of desire

Session 1 Reminders & Homework Review

Foundation Principles

Session 1 Reminders & Homework Review

Series: **Education In Love**
Group: **Understanding God's Loving Laws**
Theme: **Session 1 Reminders & Homework Review**
Presenter(s): **Mary**
Description: **Mary works through reminders from the previous "Foundation Principles" session and reviews the homework of the participants**

Introduction

Structure of reminders and homework

Will present reminders of each presentation for the "Foundation Principles" session
When get to each one of God's Principles, will ask the homework question:

<p>How am I living in and/or out of harmony with the "Foundation Principles"?</p>
--

Foundation Principles Session

Reminders

Form the foundation of the universe itself
Allow us to obtain some basic facts about God and God's Personality, Nature, Attributes, Characteristics and Desires
Ensure laws allow our very existence, to experience love, and live in a state of safety and security in the universe

Discussed

Foundation Principles including:
Love, Truth, Life, Development
Economy, Function, Permanence, Scope
Fundamental Facts
Human Law Comparison

Presentation Reminders

Fundamental Facts	
Summary	Fundamental facts include: God is an infinite entity God's Personality, Characteristics, Attributes & Desires govern God's Principles God's Principles of Law govern God's Laws God's Laws govern the creation itself Billions of Laws exist Understanding Law requires following "God's Way" & receiving God's Love

Human law Comparison

Summary	<p>Human law comparison reveals:</p> <ul style="list-style-type: none"> God's Laws are very different to human laws God fully enforces obedience to every law God is infinitely and always aware, perfect and infallible God's Laws are created only for the benefit of the Created Creatures God's Laws maintain survivability, growth, and transformation God's Laws operate whether we are aware or not God's Laws operate on the soul, attitude, character, thoughts, emotions & actions God's Laws operate consistently under all circumstances with no exceptions Each law has loving penalties if disobeyed, and loving rewards when obeyed Each law addresses both the cause and the effect <p>Human resistance to God's Law is based upon the flawed viewpoints of love and truth that come from childhood parental and society experiences</p> <p>If I keep treating God's Laws like human laws I will continue to remain unhappy and in pain</p>
----------------	--

Principles Reminders

Love Principles	
Summary	<p>Love principles envelop God's Love around each creation, principle and law ensuring:</p> <ul style="list-style-type: none"> Love governs all principles Love is enforced, compelled and upheld All creation experiences God's Love in different degrees All creation demonstrates and facilitates the flow of God's principled love The human soul can enter a love based relationship with God
Homework	How am I living in and/or out of harmony with Love principles?

Truth Principles	
Summary	<p>Truth principles envelop God's Truth around each creation, principle and law ensuring:</p> <ul style="list-style-type: none"> Truth is inseparably joined with Love as the highest of all principles Truth is enforced and compelled All creation lives within the framework of mathematical, scientific, spiritual and emotional fact Precision and certainty in the fabric and framework of creation
Homework	How am I living in and/or out of harmony with Truth principles?

Life Principles

Summary	Life principles transfer God's Life Force to each creation, principle and law ensuring: <ul style="list-style-type: none"> Life energy from God to be given to living creatures Life energy is transferred during pro-creation Life is promoted, nurtured, respected and sustained Imbalance is prevented and repaired Matter that "dies" is transformed to promote life
Homework	How am I living in and/or out of harmony with Life principles?

Development Principles

Summary	Development principles allow each creation, principle and law to evolve, grow and change positively ensuring: <ul style="list-style-type: none"> Expansive change is forced upon all matter Growth is supported, encouraged and sustained Positive development and evolution occurs for all matter Increasing capacities can develop within all creation Self-determination of the human soul
Homework	How am I living in and/or out of harmony with Development principles?

Economy Principles

Summary	Economy principles ensure that each creation and law economically uses resources by ensuring: <ul style="list-style-type: none"> The equal value of resources (time, matter and energy) The economical use of resources to create function The automation of laws and creations (no external maintenance) Economy is incorporated within creation and law
Homework	How am I living in and/or out of harmony with Economy principles?

Function Principles

Summary	Function principles ensure that each creation and law has many functional purposes by ensuring: <ul style="list-style-type: none"> The equal value of outcomes (results, beauty, and the use of resources of time, matter and energy) Each law and creation has multiple functions that are automatically fulfilled The economical use of resources to create multi-functionality The automation of function and outcome Creation itself instinctively "desires" to fulfil all outcomes
Homework	How am I living in and/or out of harmony with Function principles?

Foundation Principles

Session 1 Reminders & Homework Review

Permanence Principles	
Summary	<p>Permanence principles mean that all creation can rely on permanent law by ensuring:</p> <ul style="list-style-type: none"> Laws are unchangeable, consistent, permanent, and self-enforcing Laws are structured, verifiable and mathematical Laws are measurable, quantifiable and observable Creation has safety and predictability in the universe
Homework	How am I living in and/or out of harmony with Permanence principles?

Scope Principles	
Terms	<p>Creation includes any matter or creature from the smallest particle to the most complex living creation of the human soul</p> <p>Energy includes information, energy, emotion, thought, communication, relationship or interplay within or between <i>creation</i></p> <p>Properties include all properties, characteristics, attributes, attractions, and restrictions of the <i>creation</i> itself</p> <p>Inbuilt Rules means a set of laws and potentials built into the creation itself that govern the <i>creation's properties</i> and <i>energy</i></p> <p>External Rules means a set of laws and potentials created by <i>creation</i> combinations external to the individual <i>creation</i> itself that affect the creation's <i>properties</i> and <i>energy</i></p>
Summary	<p>Scope principles guarantee creation is governed by law, and that new creations and laws can exist, by ensuring:</p> <ul style="list-style-type: none"> <i>Inbuilt rules</i> are placed within each <i>creation</i> (e.g. genetics) <i>Inbuilt rules</i> determine the <i>creation's</i> potentials, <i>energy</i> flow and <i>properties</i> <i>External rules</i> affect each <i>creation's properties</i> and <i>energy</i> <i>External rules</i> allow for expansion of each <i>creation's properties</i> and <i>energy</i> <i>External rules</i> allow for new laws and <i>creations</i> <i>External rules</i> control the flow of <i>energy</i> between <i>creations</i>
Homework	How am I living in and/or out of harmony with Scope principles?

Conclusion

Foundation Principles:

Foundation Principles form the foundation of the universe itself, and also allow us to obtain some basic facts about God and God's Personality, Nature, Attributes, Characteristics and Desires.

Next session: Order Principles

The next presentation will be "Introducing (the) Order Principles" session.

10 Minute Break

Order Principles

Introducing Order Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Introducing Order Principles
Presenter(s):	Mary
Description:	Mary introduces the "Order Principles" session, lists each principle to be examined, and summarizes other presentations regarding attitudes to law and the human law "hangover" to be included in the 2 day session

Introduction

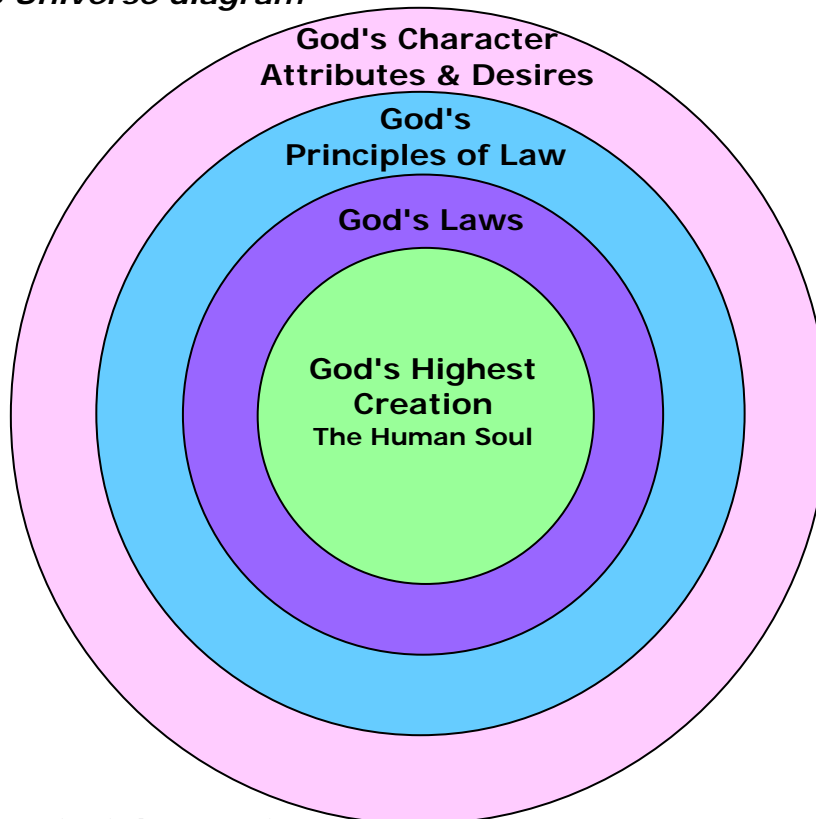

Brief summary of the next session

Presentations pertain primarily to the Laws governing the human soul itself

The "Order Principles" session discusses some of the principles that determine the Laws associated with how the human soul ***FITS INTO*** the Universe

Order Principles Preview

God's Universe diagram

Order Principles session

How the human soul fits into the Universe

How the human soul affects the Universe itself

How the human soul affects the lower creations within the Universe

What role the human soul has within the Universe

Order Principles definitions

Human will

The human has been given the gift of free will

Many gifts and responsibilities pertain to the use of the gift of free will

Many principles apply to the human soul because it has the gift of free will

Principles presented in this session have a direct impact upon the human soul

Self-responsibility

Self-Responsibility is the Law based requirement of self-awareness, to seek truth, love and understanding of all principles of Love and Law, and the loving ownership and expression of one's will, desire, passion, emotion, attitudes, intentions, thoughts and actions in harmony with God's Principles and Laws.

Order Principles To Present

Groups or classes of God's Principles

Foundation principles (already presented)

Love, Truth, Life, Development

Economy, Function, Permanence, Scope

Order principles (current session)

Hierarchy, Governance, Responsibility, Compensation

Soul specific principles (the final session)

Will, Desire, Redemption, Transformation

Hierarchy

There is a hierarchy of Laws and a hierarchy of creations within the Universe. Jesus will outline and discuss how these two hierarchies are inseparable, conjoined and inter-related, and built upon the foundation of Scope principles. Hierarchy principles apply to all creation.

Governance

Since humans have been given power over all other creation (whether that is just a potential or realized) and the potential to create, humans are also bound to additional laws regarding the governance of other creations.

Responsibility

Since humans have been given power over all other creation (whether that is just a potential or realized), and they have the ability to use their will and make choices and decisions affecting other creations, humans also have been made responsible for the way in which governance is exercised.

Compensation

Since humans must choose to take actions in or out of harmony with Love, and such actions potentially affect other humans and other creations, humans are compensated for loving actions, and penalized and corrected for unloving actions.

Other Session Presentations

Law Related Attitudes & Emotions

Presentation examines the relationships between the primary entities involved with law (human or God's Laws) including God, the human law maker, the human law enforcer, humans collectively, and the individual human, in order to examine the general attitudes and emotions related to law, law making, law enforcing, and obedience to law.

Human Law Hangover

Examines how human attitudes and emotions towards human law prejudice humans' attitudes and emotions towards God and God's Laws. The subsequent result is more pain and suffering for the human.

Conclusion

Summary

Order Principles form the foundation for the principles that govern the potentials of the human soul (covered in the "Human Soul Principles" session)
The Order Principles session will address how the human soul and other creations fit into the universe itself

10 Minute Break

Order Principles

Hierarchy Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Hierarchy Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Hierarchy that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Hierarchy Principles	
Terms	<p>Creation includes any matter or creature from the smallest particle to the most complex living creation of the human soul</p> <p>Components are creations of less complexity combined in new ways</p> <p>Any lower <i>creation</i> is a potential <i>component</i> for a higher <i>creation</i></p> <p>Energy includes information, energy, emotion, thought, communication, relationship or interplay within or between <i>creation</i></p> <p>Properties include all properties, characteristics, attributes, attractions, and restrictions of the <i>creation</i> itself</p> <p>Each creation's complexity is determined by the complexity of its individual components, energy and properties</p> <p>Each creation of higher complexity has higher energy capabilities</p> <p>If a creation has higher complexity and energy capabilities, it is also considered to be higher in hierarchy</p> <p>Inbuilt Rules means a set of laws and potentials built into the <i>creation</i> itself that govern the <i>creation's properties</i></p> <p>External Rules means a set of laws and potentials created by <i>creation</i> combinations external to the individual <i>creation</i> itself</p> <p>Rule set is the combination and interaction of <i>inbuilt</i> and <i>external rules</i></p> <p>Law is an individual set of laws or an individual <i>rule set</i></p> <p>Each more complex <i>creation</i> has more complex <i>inbuilt rules</i></p> <p>More complex <i>inbuilt rules</i> interact with more complex <i>external rules</i> and therefore create more complex laws</p>
Context (Help to understand)	<p>Scope determines the existence of the Universe, everything within the Universe, how everything communicates with all elements of the Universe, and also the inbuilt soul based mechanisms via which the highest creation within the Universe is able to communicate with God</p> <p>Hierarchy determines the position or place of each <i>creation</i> and law within the Universe, and the power and energy each creation or law has over other creations and laws lower in the hierarchy.</p>
Summary	<p>Hierarchy principles:</p> <ul style="list-style-type: none"> Determine the hierarchy of law by the complexity of each law Determine the hierarchy of creation by the complexity of each creation Ensure more complex creation is governed by more complex laws Ensure higher creations and laws exert more power, have more energy, and more complex properties

Hierarchy Principles (cont'd)

Definition (What the principles are)	<p>The Hierarchy of <i>creation</i> shall be determined by each <i>creation's</i> complexity The Hierarchy of law shall be determined by the complexity of each <i>law</i> Each more complex <i>creation</i> in the hierarchy of <i>creations</i> shall be governed by a hierarchy of more complex <i>laws</i> To ensure that <i>creations</i> and <i>laws</i> that are higher in hierarchy exert more <i>power</i> and have more complex <i>properties</i></p>
Objectives (Why the principles are applied to law)	<p>To ensure each creation is governed by law To ensure all matter can be broken down into its individual components To prevent the complete destruction of any form of matter To allow for the creation of more complex law To allow for the creation and survival of more complex creations To allow creations of higher complexity to contain more complex inbuilt rules To allow for each more complex individual law to more powerfully affect creations of higher complexity To allow for each more complex individual creation to have a more powerful energy flow and effect on creations of lower complexity To allow for each more complex individual law to have a more powerful effect on laws of lower complexity To create implied, instinctual or automatic governance, responsibility and compensatory systems which are not based upon will or desire but rather upon hierarchy</p>
Application (The creation and laws affected)	<p>Every law All matter living and non-living</p>
Reveals (What the principles reveal about God)	<p>God desires His creations to have the ability to create God is generous and sharing in His Nature God desires that each creation lives in relationship with other creations God feels that relationships are important and bring satisfaction of desires God creates instinct in all creatures for common functions God creates properties in all matter for common functions God feels that common purpose brings more powerful beneficial results God feels each creation component has value and is necessary and essential for the operation of the whole</p>
Examples (The principles' applications in law)	<p>Gravity Gravity is actually a combination of creations (matter) and laws (rule sets) creating a new law we call gravity. The greater the mass the greater gravitational force is exerted on other matter. This creates a law that maintains automatic safety for sustained life and development.</p> <p>Aerodynamics Aerodynamics is actually a combination of creations (matter) and laws (rule sets) creating a new law we call aerodynamics. It involves many lower laws from a wide range of fields including physics of motion, material properties, fluid dynamics, pressures and temperatures and so forth.</p> <p>Human bodies Hydrogen and oxygen, water, blood, cardiovascular systems, energy systems, human body discussion and example of creations of law and new law interactions with the environment and the injection of the life principle.</p> <p>Human soul Connection with physical body (most complex physical creation). Connection with spirit body (most complex spirit based creation). The human soul energy systems and receiving substances from God.</p>

Hierarchy Principles (cont'd)

Conclusion

Hierarchy principles:

Hierarchy determines the position or place of each creation and law within the Universe and creates implied, instinctual or automatic governance, responsibility and compensatory systems.

Hierarchy extends the Scope principles by placing Scope within a Hierarchical system. Scope allows for Hierarchy to exist.

Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose hierarchy principles including:

Feeling and believing I individually and humans collectively do not have control over our own creations (e.g. sin, disease, sickness, accidents etc)

Feeling and believing I can circumvent or am more powerful than the laws that govern me, etc

Hierarchy Principles Q&A

Use the morning as an opportunity to formulate my questions

Examine the "Hierarchy Principles" outline
Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly
Stop parroting what I think, rather than asking Jesus what I want to know
Use the microphone properly

Questions About

Hierarchy Principles

What the principles are
Why the principles are applied to law
The creation and laws affected by the principles
What the principles reveal about God
Examples of the principles' applications in law

Questions Answered

00:23:36 Fab Tolli

Can you please explain further what you mean by "more complex individual creations have more powerful energy flow effects on creations of lower complexity"?

00:25:52 Fab Tolli

Does that mean that temperature is of higher complexity than water, so therefore is higher in Hierarchy?

00:27:21 Hunter Lydon

Do we unknowingly help create new laws?

00:29:46 Phoebe Bruce

What makes one law more complex than another?

00:30:33 Wayne Shaw

God allows us to create so He created laws that allow GMO foods to exist. Have laws been created that will eventually destroy the GMO foods?

00:36:38 Paige Willoughby

One objective is "to create implied, instinctual, or automatic governance, responsibility and compensatory systems which are not based on will as desire, but rather upon hierarchy"? Why has God not included will and desire?

00:38:11 Claudia Vandenameele

What do you mean by implied governance?

00:43:16 Denise Shaw

In regards to the spheres and those in them, is it true to say they are governed by principles and laws greater than those in the lower spheres?

00:44:22 Denise Shaw

Is it true those in the higher spheres have greater scope than those in lower spheres but those in lower spheres have the potential to develop which displays God's Great Love for all?

00:45:10 Denise Shaw

So can developed spirits communicate with people in the lower condition but not the other way around?

00:46:39 Nicky Primetica

Do Hierarchy Principles allow for the workings of the Law of Repentance to supersede the correction-based workings of the Law of Compensation?

00:50:43 Karen Pronk

Since any lower creation is a potential component for a higher creation, does that imply that in the future the human soul could be merged/transformed into something greater (but still within God)?

00:52:22 Karen Pronk

Is an example of the Hierarchy Principle that the two spirit halves merge to produce soul union?

00:53:55 Sheridan Coy

Are laws that are higher in hierarchy more based on will? e.g. Law of Repentance & Forgiveness compared to the Law of Compensation

00:56:06 Sheridan Coy

Do you mean that my desire is higher in hierarchy than will?

00:57:18 David Raizman

How do Hierarchy Principles prevent the complete destruction of matter?

01:01:25 David Raizman

How does a higher law have an effect on a law of lower complexity?

01:07:01 Jesus for Luli Faber

Why is it important for more complex laws and creations to have more power than less complex laws and creations?

01:09:31 Alwyn Campbell

Is the Permanence Principle a part of the Hierarchy Principle?

01:12:27 Rebecca Johnstone

Is it possible to discover what elemental parts make up God's Love so we can learn more about God?

01:14:12 Rebecca Johnstone

In your 2000 years have you been able to understand what God's Love is?

30 Minute Break (Lunch)

Order Principles

Governance Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Governance Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Governance that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Governance Principles	
Terms	<p>Governance principles will be discussed in relation to self-aware beings with free will Other beings are controlled by Governance principles but the control is instinctual rather than will based The human soul (not the body or spirit body) is a self-aware being with the ability to express free will depending on development</p> <p>Energy includes information, energy, emotion, thought, communication, relationship or interplay within or between <i>creation</i> Development increases in quality and capacity as the human soul lives in more harmony with God's Principles, and decreases as the human soul lives in less harmony with God's Principles Power of governance is the <i>energy</i> able to be expressed by the human soul which varies in quality and capacity in direct relationship to <i>development</i></p>
Summary	<p>Governance principles ensure:</p> <ul style="list-style-type: none"> Everything is under God's Authority God's Laws control and govern all of creation God's Laws allow human souls to share governance Each human soul automatically governs, but the power of governance is determined by development
Definition (What the principles are)	<p>God's nature, character, attributes, desires & personality determine God's Principles God's Principles determine God's Laws God's Laws shall control and govern all of creation God's Laws allow all human souls to share governance Each human soul automatically governs, but the power to govern is determined by development</p>
Objectives (Why the principles are applied to law)	<ul style="list-style-type: none"> To ensure that God has ultimate and complete authority To allow God's highest creation (the human soul) to share in governance To gift to the human soul the ability to control its external environment based upon the human soul's development (positively or negatively) To ensure the human soul becomes educated in the effects of the use of power To give more power to those in higher development To restrict the power of those in lower development To allow the human soul to create independently of God To ensure creations of the human soul that are out of harmony with God's Principles are eventually destroyed

Governance Principles (cont'd)	
Application (The creation and laws affected)	All law All matter living and non-living Specific laws pertaining to the human soul Specific laws governing the creations of the human soul
Reveals (What the principles reveal about God)	God takes full responsibility for God's Creations God entrusts Her highest creation to govern in harmony with God God desires the highest creation to share Her Joy of creating God gifted to Her highest creation the potential of greater power over the environment by giving them the potential to develop God educates the highest creation in the loving use of power God loves giving and sharing power God makes provision for the human soul being repentant and changing
Examples (the principles' applications in law)	<p>Gravity & aerodynamics The human body is governed by gravity unless it learns of a higher law (aerodynamics) which can overcome gravity. The process of learning enables the human soul to develop more knowledge which then allows using different laws to overcome the limitations of gravity. The human soul creates a device using current known laws to benefit itself.</p> <p>Law of Attraction The human soul automatically governs via the soul's developed condition. The condition controls substances, creatures and events in harmony with the law so that the soul attracts these resources to aid in exposing to itself its current developed condition. The governance principle ensures these attractions occur to aid the soul in its own self-awareness.</p> <p>Environmental responses The soul is like a transmitting antenna sending to its environment its own governance condition (developed soul condition). Each external creation responds individually and collectively, to the individual and collective soul condition of the human. Humans individually and collectively make decisions and choices either in or out of harmony with Love (thoughts, emotions, and actions) based upon condition. This improves balance or creates imbalance in the environment and the results can be measured.</p> <p>Human bodies Each system within the body is also governed by its own set of laws. In a healthy person the governing system works harmoniously to complete the healthy creation and function of the bodies.</p>
Conclusion	<p>Governance principles: Ensure that God has authority over all Principles, Laws and Creations, but that each creation with free will and self-awareness does automatically, and can with education and knowledge, affect and control the positive or negative development of its environment.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose governance principles including: Not taking control of their own creations external to and within their own bodies (e.g. sin, disease, sickness, accidents etc) Desiring authority and power without love or development Creating without the ability to govern Denying the effect of their governance over other creatures upon those creatures, etc</p>

Use the morning as an opportunity to formulate my questions

Examine the "Governance Principles" outline
Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly
Stop parroting what I think, rather than asking Jesus what I want to know
Use the microphone properly

Questions About

Governance Principles

What the principles are
Why the principles are applied to law
The creation and laws affected by the principles
What the principles reveal about God
Examples of the principles' applications in law

Questions Answered

00:12:03 Monique De Martin

What do you mean by power of governance?

00:19:20 Hunter Lydon

How do human souls share governance?

00:23:26 Joanne Ramundo

If we are unaware of our soul condition does the law allow us to govern without awareness?

00:27:34 Anna MacDonald

How do "God's Laws allow human souls to share governance"? Can you expand on this please?

00:30:56 Anna MacDonald

When the soul is in a unified state does its power double in strength?

00:33:49 Joyce Thompson

As very dark people on earth can have a lot of power over other people and creatures, is this power of Governance?

00:42:08 Group Question

Why does God allow the bad condition on earth to continue?

00:45:34 Joyce Thompson

Are powerful people on earth getting power from God, or from other people on earth who are willing to give power to them?

00:48:20 Alwyn Campbell

What will power look like when people on earth begin becoming at-one with God?

00:50:41 Nicky Primetica

Frequently more power is given to those in a lower development in love. e.g. politicians. Do Governance Principles work to restrict that person's influence over time?

00:53:20 Cathy Walker

Are there laws that determine the timeframe for how long it takes creations out of harmony with God's Principles to be destroyed? Why are they not destroyed faster than "eventually"?

00:58:47 Cathy Walker

If I die of a physical illness will I still be ill as a spirit?

01:01:14 Cathy Walker

With the example of the "Berlin Wall" is that an example of how fast things can change from the power of Governance?

01:05:07 Eloisa Lytton-Hitchins

Does anything govern God? Are there any other Gods?

01:05:42 Eloisa Lytton-Hitchins

How did God get to be such a Good Governor?

01:06:44 Eloisa Lytton-Hitchins

Could you please give some examples of how "each human soul automatically governs, but the power to govern is determined by development"?

01:08:42 Eloisa Lytton-Hitchins

Aren't we already exercising unloving desires en-mass and causing anarchy on earth?

10 Minute Break

Order Principles

Responsibility Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Responsibility Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Responsibility that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Responsibility Principles	
Terms	<p>Responsibility principles are will-based, and will be discussed in relation to self-aware beings with free will. The human soul (not the body or spirit body) is a self-aware being with the ability to express free will depending on development and as such is the highest creation.</p> <p>Energy includes information, energy, emotion, thought, communication, relationship or interplay within or between <i>creation</i></p> <p>Development increases in quality and capacity as the human soul lives in more harmony with God's Principles, and decreases as the human soul lives in less harmony with God's Principles</p> <p>Power of governance is the <i>energy</i> able to be expressed by the human soul which varies in quality and capacity in direct relationship to <i>development</i></p> <p>Nature is each individual human soul's God given personality, attributes, characteristics, qualities, individuality, and primary fields of interest.</p> <p>Self-Responsibility is the law based requirement of self-awareness, to seek truth, love and understanding of all principles of Love and law, and the loving ownership and expression of ones will, desire, passion, emotion, attitudes, intentions, thoughts and actions in harmony with God's Principles and laws.</p> <p>Role-Responsibility is the assignment of specific roles of governance in God's Universe dependent upon <i>development</i>, <i>self-responsibility</i>, and according to one's <i>nature</i>.</p>
Summary	<p>Responsibility principles:</p> <ul style="list-style-type: none"> Force the human to be self-responsible Encourage the human to desire self-responsibility Allow God to reward true self-responsibility with role-responsibility (i.e. role-responsibility is a compensatory gift given to those with self-responsibility)
Definition (What the principles are)	<p>The highest creation shall be a <i>self-responsible</i> being</p> <p>The law shall enforce <i>self-responsibility</i></p> <p>The law shall reward <i>self-responsibility</i> with <i>role-responsibility</i> (i.e. <i>role-responsibility</i> is a compensatory gift given to those with <i>self-responsibility</i>)</p>

Responsibility Principles (cont'd)	
Objectives (Why the principles are applied to law)	The highest creation must be made responsible for the ownership and expression of its will, desire, passion, emotion, thoughts and actions To ensure highest creation is accountable To ensure anarchy is not possible for any creation To restrict the highest creation from irreversibly harming any creation To educate the highest creation that love is responsible and accountable To determine individuals who qualify for role-responsibility To reward self-responsible individuals with role-responsibility To ensure that an individual's <i>nature</i> is fully satisfied and experienced To form a foundation for God's highest principles that apply to the human soul such as Will, Desire, Compensation, Redemption and Transformation.
Application (The creation and laws affected)	All laws governing the human soul All laws governing the creations of the human soul A secondary affect on all laws and all creation
Reveals (What the principles reveal about God)	God feels Love always takes responsibility for creation God feels Love is always directly accountable for creation God is not reckless in creating the highest creation God has taken responsibility for His creation of the highest creation God wants the highest creation to enjoy its own nature God loves all creation enough to restrict the highest creation God loves rewarding those who act lovingly God feels joy comes from self-care
Examples (The principles' applications in law)	Gravity & aerodynamics Soul responsibility is enforced upon any person who wilfully attempts to break the Law of gravity or aerodynamics by using the law to desire to, or actually, harm themselves or others through negligence or direct action. Law of Cause & Effect Ensures individuals discover the relationship between what has happened (the effect) and what has caused the effect (the cause) so that individuals take full responsibility for their will, desire, passion, emotion, thoughts and actions. Law of Compensation Ensures individuals discover and receive the rewards for their own individual and collective responsible choices, and discover and receive the penalties for individual and collective irresponsible choices. Law of Repentance Ensures individuals become emotionally aware and emotionally repentant for each unloving choice and decision and become emotionally aware of his or her powerlessness to undo everything that has resulted from his or her unloving behaviour.
Conclusion	Responsibility principles: Responsibility principles ensure that God's highest creation is self-responsible, and is given role responsibilities in line with individuality and development. Scope, hierarchy, governance, responsibility and compensation form a foundation for principles that apply to the potentials of the human soul such as will, desire, redemption and transformation.

Responsibility Principles (cont'd)

Conclusion

Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose responsibility principles including:

- Wanting to be saved (by God, Jesus, parents, friends, partners, others) from the results of my creations
- Not taking responsibility for my emotions, desires, words or actions
- Wanting power without responsibility or development
- Wanting role-responsibility without self-responsibility
- Placing people in positions of societal power (role responsibility) when they are not self responsible
- Looking up to and seeking guidance, 'truth' and 'love' from people who are not self responsible (e.g. family, gurus, teachers, counsellors, etc)

Responsibility Principles Q&A

Use the morning as an opportunity to formulate my questions

- Examine the "Responsibility Principles" outline
- Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

- Stop telling stories, raise the issues directly
- Stop parroting what I think, rather than asking Jesus what I want to know
- Use the microphone properly

Questions About

Responsibility Principles

- What the principles are
- Why the principles are applied to law
- The creation and laws affected by the principles
- What the principles reveal about God
- Examples of the principles' applications in law

Questions Answered

00:17:34 Sandra Tuszynska

- Are the Responsibility Principles all about faith?

00:20:52 Elvira Gregorich

- Is it possible to reject compensatory rewards?

00:22:44 Barbara McNair

- Are people on earth allocated role responsibility automatically just like people in the spirit world are?

00:26:56 Barbara McNair

- Do you feel God assigns role responsibility to people on earth in an obvious manner?

00:32:54 Karen Pronk

- If I want to follow my desire which takes me to a role am I not assuming a role?

00:37:47 Karen Pronk

For role responsibility to happen must desire be engaged with humility?

00:38:40 Karen Pronk

If a person becomes a parent without consciously intending to, is God rewarding self responsibility with role responsibility?

00:45:32 Jesus

What If I am not ready to educate the child I have given birth to what can I do?

00:49:16 Joyce Thompson

Do we give role responsibility to each other and ourselves and/or is this a gift from God?

00:56:46 Jesus

When people ask Jesus about what their passions are how does he respond?

00:58:27 Courtney Pool

How can we develop more desire for more self responsibility?

01:02:14 Courtney Pool

Why do humans often not find joy in self-care?

01:04:24 Courtney Pool

Why do humans often give societal power and authority to people who are not self responsible or developed in love?

01:07:30 Courtney Pool

Why do we not want others to treat us like we're worth more?

End Of Day

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Enforcing Love & Truth S4
Presenter(s):	Jesus
Description:	Jesus creates the correct environment for gaining an "Education in Love" by removing participants whom he feels are not addressing gender based emotional issues caused by a lack of sincere desire for love, truth and self-awareness

Enforcing Love & Truth

Removals

Jesus removes those participants whom Jesus and Mary feel are not addressing gender based emotional issues caused by a lack of sincere desire for love, truth and self-awareness

Jesus tells those participants why they are being removed and gives them an opportunity to ask questions about the issues

General questions from the audience about any issue are also allowed

Women Removed

Women who emasculate men emotionally & sexually, and gain power over, control & bully other women

None removed

Women who support other women who emasculate men emotionally and sexually, or who are more humble about the first issue

None removed

Women who want power & control over other women & use abusive men & women to get it

None removed

Women who justify their fear of women bully's & do what women bully's want rather than confronting them

None removed

Men Removed

Men who want to criticise, compete, and put down Jesus

1 man removed

Men who want sexual power and control over women

The same man fits into this category

Men who arrogantly believe women should meet all of their "needs"

The same man fits into this category

Men who pander to abusive women in order to receive sex, sexual attention and validation

None removed

Conclusion

During the week, focus on principles and the application of principles

Spend time seeing how these principles can be applied in daily life

Are we here to Love, or just talk about Love?

Most participants need to question their own desire to Love

Needing to continually raise the same issues is an indication of lack of desire

Questions Answered

00:04:31 Alex Mrnak

I thought I was working on these issues already

Law Related Attitudes & Emotions

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Law Related Attitudes & Emotions
Presenter(s):	Jesus
Description:	Jesus continues comparing human law with God's Laws by discussing the law related attitudes and emotions of God and humans, and the related attitudes and emotions of each towards God's Law, human law and law makers & enforcers

Law Drama

Entities involved in the "Drama"

God

Humans generally & myself personally

Human law makers (parents, caregivers, politicians and rulers)

Human law enforcers (parents, caregivers, judges and police)

Analysis of general attitudes and emotions towards law helps us identify our "Hangover"

General Comments

Human law makers and human law enforcers (excluding parents and caregivers) are:
Generally much better acquainted with the problems associated with human law than the average human is
Generally have a higher appreciation of the application of law to assist society than the average human does

Consider

If humans are to become at-one with God, they will need to have the same attitudes and emotions about God's Laws that God has
Whenever we have a different attitude or emotion than God does, we are automatically sinning, and therefore creating more pain and suffering for ourselves

Comparison of Attitudes and Emotions

The following tables present:

Each entity's law related attitudes and emotions about law

Each entity's law related attitudes and emotions about the other entities in the drama

Each entity's law related attitudes and emotions about themselves individually

The way information is presented:

While each table presents the information from the perspective of each individual entity involved in the drama, the live presentation will only have time to compare God's law related attitudes and emotions with human law related attitudes and emotions.

God's Attitudes and Emotions About ...	
Who/What	Summary of Attitudes and Emotions
God	God knows he is the ultimate law maker and law enforcer, and does not need humans to acknowledge this Truth. God is also not concerned about having problems enforcing law, since He knows he has created a perfect system with only loving outcomes where every law is self-enforcing.
Law	All of God's Laws are essential and created to; allow all creatures and matter survive, and; allow all living creatures to grow, thrive and develop, and; allow humans to be redeemed and transformed and blissfully happy.
Human law makers	God allows human law makers to create laws as they see fit even though human laws should not be necessary. If the laws created by humans are in harmony with God's Love, then the human law makers will be supported by God. If not then the human law makers will be penalized by God's Laws.
Human law enforcers	God allows human law enforcers to enforce laws as they see fit. If the enforcement is in harmony with God's definition of love, then the human law enforcers will be supported by God's Laws. If the enforcement is not in harmony with God's definition of love, then the human law enforcers will be penalized by God's Laws.
All humans	God Loves humans, views them as His Highest Creation, treats each human equally, desires their individual and collective happiness, and is compassionate towards them. He knows that if humans choose to obey His Laws they will receive everlasting benefits and be happy. If humans choose to disobey His Laws, they will create their own misery.

Human Law Maker's Attitudes and Emotions About ...	
Who/What	Summary of Attitudes and Emotions
God	Generally do not believe they will need to answer to a higher law maker nor are they concerned about whether their laws are in harmony with the laws of the Highest law maker. Those who believe in God make many false presumptions about God's Laws, and those who are agnostic or atheist generally ignore any consideration of God's existence or power.
Law	Generally believe that laws should be made as a deterrence, using fear as a governing tool, to create order, to impose moral, economic, religious and society rules. They do not believe compliance with law should be rewarded, but strongly believe penalties and punishment are essential to maintain order. Generally do not believe God has laws that govern the human condition.
Human law makers	Generally see their own power as supreme and do not believe they will need to answer to a higher law maker or if they believe in God they presume their laws are in harmony with the laws of the Highest law maker. Believe they are performing a public service.
Human law enforcers	Generally believe that the law enforcer is their tool to enforce the penalties of the law they created.
All humans	Generally believe that humans are inherently imperfect and that it is human nature to break law. Therefore humans need to be restricted or deterred from harming or damaging themselves or others. Humans are never going to be loving or self-aware, so law makers need to stop unsociable behaviour by creating laws to govern society.

Order Principles

Law Related Attitudes & Emotions

Human Law Enforcer's Attitudes and Emotions About ...	
Who/What	Summary of Attitudes and Emotions
God	Generally do not believe they will need to answer to a higher law maker nor are they concerned about whether the enforcement of human law is in harmony with the laws of the Highest law maker. They see their own power as gifted by human law makers, and at times believe themselves to be above such laws.
Law	Generally see law as an arbitrary decision of the law maker, which changes from time to time. Feel enforcement must be tempered by practicalities. Do not believe in rewarding compliance with law, but strongly believe penalties and punishment are essential to maintain order. Believe that laws are a deterrence and use fear of penalty or punishment as a controlling tool.
Human law makers	Generally believe they must enforce the law of the law makers, whether they personally agree with or support the law created, whether those laws are loving, fair, or in harmony with God's Laws or not. Feel that human law makers do not consider or understand the practicalities of enforcing the laws they create.
Human law enforcers	Generally believe that they are the tool of enforcement of law. Believe law enforcement is a difficult job that requires constant compromise and commitment.
All humans	Believe that humans are inherently imperfect and that human nature is to break law. Humans need to be restricted or deterred from harming or damaging themselves or others. Humans are never going to be loving or self-aware, so law enforcers need to stop unsociable behaviour by enforcing laws to govern society.

Human Attitudes and Emotions About ...	
Who/What	Summary of Attitudes and Emotions
God	Do not believe they answer to a higher law maker whether they believe in God or not. If they believe in God, they believe God cannot be fully understood, is punishing, wrathful and makes arbitrary decisions with no permanence, consistency or justice. If agnostic or atheist they generally do not consider God at all.
Law	Generally do not believe in God's Laws, or if they do believe God has laws, do not understand or know those laws. See human law as an arbitrary decision of the law makers, only adhere to laws they personally agree with, see all law as negotiable, and are proud of their ability to avoid the consequence of law where possible.
Human law maker	Generally see human law makers as lacking awareness, imperfect and able to fail, and generally disrespect law maker decisions.
Human law enforcer	Generally fear human law enforcers when such enforcers are visibly present and in the vicinity but generally disrespect law enforcers.
Themselves	Generally see their own power as supreme and do not believe they will need to answer to a higher law maker whether that be God or any human law maker. Generally each human is self involved and selfish, sees themselves as the arbiter of their own life, sees themselves as superior to other humans, and is governed primarily by their own emotions, feelings and thoughts, and believes that they personally should be shown mercy rather than having a law enforced on them.
Other humans	Generally believe humans are inherently imperfect and it is human nature to break law. Therefore humans need to be restricted or deterred from harming or damaging themselves or others. Humans are never going to be loving or self-aware, so law makers need to stop unsociable behaviour by creating laws to govern society and law enforcers need to force everyone (other than me personally) to obey the law.

Law Related Attitudes & Emotions	
Conclusion	<p>Law Related Attitudes & Emotions:</p> <p>Human attitudes to and emotions about law, and in particular about God's Laws, come from each individuals own experience with human authority, which is inconsistent at best, and very destructive at worst.</p> <p>Attitudes and emotions from the childhood experience are imposed upon any authority, and severely affect the human desire to obey law. This creates a "human law hangover" that is imposed upon God's Laws, and which also the main creator of human unhappiness and pain.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose obedience to God's Law including:</p> <ul style="list-style-type: none"> Believing God is punishing or wrathful and makes arbitrary decisions with no permanence, consistency or justice Believing God's Law is negotiable Wanting laws to apply to others but not to self Disrespect of authority, etc <p>The human law "hangover":</p> <p>Analysis of general attitudes and emotions towards law helps us identify our "hangover". We will examine how these attitudes and emotions play out in the use of our desire and will to discover and be obedient to God's Laws in the presentation "Human Law Hangover".</p>
Summary	<p>God's Perspective:</p> <ul style="list-style-type: none"> God's Laws are essential to human existence and survival God's Laws allow all living creatures to grow, thrive and develop God's Laws allow humans to be redeemed and transformed and blissfully happy God loves all humans personally and knows humans are the highest creation God allows law makers and enforcers to make and enforce laws God desires human laws to be in harmony with God's Laws <p>Human Perspective:</p> <ul style="list-style-type: none"> Human attitudes and emotions to law are damaged and distorted Humans personally see laws as restrictive, arbitrary and negotiable Humans are normally self-oriented having little concern for the welfare of others Human law makers use laws as a deterrent for bad behaviour Humans create laws mostly to maintain society cohesion

Human law enforcer	<p>Generally see law as an arbitrary decision of the law makers of the day, which can be changed from time to time, and which must be tempered by practicalities of enforcement. They do not believe compliance with law should be rewarded, but strongly believe penalties and punishment are essential to maintain order. Generally believe that laws should be a deterrence and use fear of penalty as a controlling tool to create order.</p>

Attitudes and Emotions About Humans ...

Who	Summary of Attitudes and Emotions
God	God Loves humans, views them as His Highest Creation, treats each human equally, desires their individual and collective happiness, and is compassionate towards them. He knows that if humans choose to obey His laws they will receive everlasting benefits and be happy. If humans choose to disobey His laws, they will create their own misery.
My personal	I generally see my own power as supreme and do not believe I will need to answer to a higher law maker whether that be God or any human law maker. I am generally self involved and selfish, see myself as the arbiter of my own life, see myself as superior to other humans, are governed primarily by my own emotions, feelings and thoughts, and believe that I personally should be shown mercy rather than having a law enforced on me.
Humans generally	Generally believe that humans are inherently imperfect and that it is human nature to break law. Humans need to be restricted or deterred from harming or damaging themselves and others. Humans are never going to be loving or self-aware, so law makers need to stop unsociable behaviour by creating laws to govern society and law enforcers need to force everyone to obey the law.
Human law maker	Generally believe that humans are inherently imperfect and that it is human nature to break law. Therefore humans need to be restricted or deterred from harming or damaging themselves or others. Humans are never going to be loving or self-aware, so law makers need to stop unsociable behaviour by creating laws to govern society. This is a public service.
Human law enforcer	Generally believe that humans are inherently imperfect and that it is human nature to break law. Therefore humans need to be restricted or deterred from harming or damaging themselves or others. Humans are never going to be loving or self-aware, so law enforcers need to stop unsociable behaviour by enforcing the laws to govern society.

Attitudes and Emotions About Law Makers ...

Who	Summary of Attitudes and Emotions
God	God allows human law makers to create laws as they see fit. If the laws created by humans are in harmony with God's definition of love, then the human law makers will be supported by God's Laws. If the laws created by humans are not in harmony with God's definition of love, then the human law makers will be penalized by God's Laws.
Humans generally	Generally see human law makers as lacking awareness, imperfect and able to fail, and generally disrespect law maker decisions.
Human law maker	Generally see their own power as supreme and do not believe they will need to answer to a higher law maker or if they believe in God they presume their laws are in harmony with the laws of the Highest law maker. Believe they are performing a public service.
Human law enforcer	Generally believe that they must enforce the Law of the law makers, whether they personally agree with or support the law created, whether those laws are loving, fair, or in harmony with God's Laws or not, and that generally human law makers do not consider or understand the practicalities of enforcing the laws they created.

Attitudes and Emotions About Law Enforcers ...

Who	Summary of Attitudes and Emotions
God	God allows human law enforcers to enforce laws as they see fit. If the enforcement is in harmony with God's definition of love, then the human law enforcers will be supported and upheld by God's Laws. If the enforcement is not in harmony with God's definition of love, then the human law enforcers will themselves be penalized by God's Laws.
Humans generally	Generally fear human law enforcers when such enforcers are visibly present and in the vicinity but generally disrespect law enforcers.
Human law maker	Generally believe that the law enforcer is their tool to enforce the penalties of the law they created.
Human law enforcer	Generally believe that they are the tool of enforcement of law.

Human Law Hangover

Series: Education In Love
 Group: Understanding God's Loving Laws
 Theme: Human Law Hangover
 Presenter(s): Mary
 Description: Mary analyses the previous "Human Law Comparison" and highlights the human individual and collective attitudes, feelings and emotions towards God's Laws that have come from a "Human Law Hangover"

Introduction

My personal pain

Since childhood I have been exposed only to parent and societal law
 I have developed attitudes towards law (human and God's) that come from my childhood and adult experience
 I have attitudes to God's Law which cause me much heartache and pain
 I need to examine my attitude to God's Laws if I wish to become happy

Examining how attitudes affect my relationship with God's Laws & Principles

Human and parental law has created attitudes, emotions and beliefs within me about God's Laws and Principles that harm my perception and ability to engage my will to be obedient to God's Laws. Let's examine some of these.

Law Comparison "Hangover"

God's Law	Human Law
The law maker is also the law enforcer and fully enforces obedience to every Law	The law maker is usually not the law enforcer, and the law enforcer is not able to fully enforce obedience to any law created

My Erroneous "Hangover" Beliefs & Emotions

My obedience to God's Laws cannot or should not be enforced by anyone
 When I sin against God's Law I will probably get away with the sin
 God & God's Laws are unpredictable and inconsistent (just like my parents were)
 God will be very tolerant of my choices and desires to sin (just like my parents were)
 God will never enforce any law since that would be against my own definition of mercy

God's Law	Human Law
The law maker and enforcer is infinitely and always aware, perfect and infallible	The law maker and/or law enforcer has little awareness, is imperfect and able to fail

My Erroneous "Hangover" Beliefs & Emotions

God made a flawed humanity without the ability to be perfectly obedient
 Since I am "flawed" God and other humans should make allowances for my flaws
 God cannot "see", "hear" and "know" everything since humans in authority cannot
 I should be able to "hide" and be dishonest about my own disobedience and sin
 Confession is just harming myself rather than a part of redeeming myself

Order Principles

Human Law Hangover

God's Law	Human Law
Laws are created by the law maker and enforcer only for the benefit of the created creatures	Laws usually created with a mixed and often unpredictable benefit, sometimes for the benefit of all creatures, sometimes only for the benefit of the human, sometimes only for the benefit of the law maker, and sometimes only for the benefit of the law enforcer
My Erroneous "Hangover" Beliefs & Emotions God's Laws are a nuisance and should be ignored for the sake of personal advantage God's Laws are just for the sake of God and do not benefit me personally My only consideration should be what I judge as my personal welfare Human welfare collectively is more important than the welfare of other creations My anger and defiance towards God's Laws is valid and in my own interest No law maker or enforcer including God has my own interest at heart If I feel threatened I should be allowed to break the law and allowances should be made Being obedient means having to do what others want and "working" for others in authority	

God's Laws	Human Laws
Laws are created for the purpose of maintaining survivability, growth, and transformation of all matter and living creatures within the Universe	Laws primarily created for the purpose of being a deterrent
My Erroneous "Hangover" Beliefs & Emotions God's Laws only impose restrictions on my life and make it harder to survive God only created Law to restrain my "bad" nature that He created anyway God's Laws do not reward me for obedience God's Laws do not enable my free will God's Laws are punitive and punishing, driven by an angry God who wants to harm me God only wants to stop me from being happy God's Laws limit my freedom and make it harder to survive in the "real" world God's Laws are not practical	

God's Law	Human Law
Laws operate whether the creature is aware or not	Laws operate only if the law enforcer is aware and willing to enforce the law
My Erroneous "Hangover" Beliefs & Emotions Being "ignorant" of the law is to my own advantage Allowances should be made for me if I do not know God's Laws Allowances should be made for my "bad" (unloving) decisions and choices I react angrily, resentfully, and indignantly when I am "corrected" for wrongdoing I am able to cover over sin and get away with sin If I am not "caught" in the moment of sin punishment will never happen If God is "good" God would let me get away with sin I should not be punished for sins that I thought only affected me	

Order Principles

Human Law Hangover

God's Law	Human Law
Laws operate on the "heart", soul, attitude, character, thoughts and emotions of the human, along with operating upon the action taken	Laws operate only on the action taken, and then only if the action is observed, processed and enforced, by the law enforcer
My Erroneous "Hangover" Beliefs & Emotions God's Laws only apply to physical events God's Laws correct actions only (rather than thoughts, attitudes, character & emotions) I can lie or misrepresent to God what is in my heart If I have not been "caught" then I will never be punished If God "catches" my disobedience I will be able to negotiate the punishment with God If God "catches" my disobedience I only have to change my actions (not my heart) God is unjust to examine my heart	

God's Law	Human Law
Laws operate consistently under all circumstances with no exceptions	Laws operate differently in each country and are inconsistently applied according to wealth, social status or position, race, gender, nationality, and hundreds of other variable factors including withholding truth, misrepresenting truth, lying, and violence
My Erroneous "Hangover" Beliefs & Emotions My version of superiority (race, gender, status etc) should count with God I am a "special case" that God should make allowances for My unloving behaviour is justified by other's unloving behaviour God should know that other people's unloving behaviour is worse than my own Other people's motivations are worse than my own Punishment should be able to be negotiated based on my status	

God's Law	Human Law
Each law has loving penalties if disobeyed, and loving rewards when obeyed, and the penalties and rewards are consistent and predictable	Each law generally only has penalties when disobeyed, and then only if the disobedience is observed, processed and enforced, by the law enforcer. Many penalties are unloving. Obedience is rarely rewarded. The results are usually unpredictable.
My Erroneous "Hangover" Beliefs & Emotions There are no rewards for heart-felt obedience to God's Laws I will only be penalised if I am "caught" If it appears I have not been "caught" then I have avoided the penalty God does not penalise at all because God should be "loving" God cannot be relied upon to give just penalties and will not be compassionate I will not be rewarded for being honest and truthful about my sins God should let me get away with things that others should be punished for God will punish me for things that others get away with I only have to do it right and I should not have to "feel" it right If I punish myself then I should be able to avoid punishment by the Law I should not get punished when I am already punishing myself	

Order Principles

Human Law Hangover

God's Law	Human Law
Each law deals with and addresses both the cause (relating to why the human used their will to disobey or obey the law) and the effect (the fact that the human did so use their will in a loving or unloving manner)	Law only deals with disobedience, and then does not fully address the effect but rather only provides "punishment" to act as a deterrent to further disobedience. Does not address the cause of any action, and does not reward loving action.
My Erroneous "Hangover" Beliefs & Emotions I should be able to just change my action rather than have to correct my attitude I should be able to avoid recognition of the harm I have caused to others and the environment God's Laws are "anally retentive" and "nit-picking" God wants to punish me for no real reason e.g. I did not do it, I only felt it! God's Laws will not punish me when I don't believe I should be punished God's Laws will not force me to face the consequences of my disobedience Being happy means being able to do what I want when I want	

Human Law Hangover	
Conclusion	Human law hangover: Humans are "drunk" on their own perception of law Humans see God's Law similarly to how they see human law Humans impose their perception of human laws on God's Laws Humans create a huge amount of pain and suffering as a result of the human law "hangover" Unless I personally stop treating God's Laws like human laws, I will continue to remain unhappy and in pain
Summary	Human law hangover: There is an enormous difference between God's Laws and human laws Each human law hangover prevents us from desiring to obey God's Laws Sin is generated by the desire to avoid discovering and obeying God's Laws Each sin creates more pain and suffering for humans individually and collectively

10 Minute Break

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Human Law Hangover Q&A
Presenter(s):	Jesus
Description:	Jesus answers questions from the audience about the material covered in the previous presentation "Human Law Hangover"

Introduction

Use the morning as an opportunity to formulate my questions

Examine the "Human Law Hangover" outline
Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly
Stop parroting what I think, rather than asking Jesus what I want to know
Use the microphone properly

Questions About

Response to human laws (and parental laws)

The law maker/enforcer is not able to enforce obedience to any law
The law maker/enforcer has little awareness, is imperfect and able to fail
Laws created with a mixed and often unpredictable benefit
Laws created for the purpose of being a deterrent
Laws operate only if the law enforcer is aware and willing to enforce the law
Laws operate only on the action taken if the action is observed, processed and enforced, by the law enforcer
Laws operate differently in each country and are inconsistently applied
Each law generally only has penalties when disobeyed, and then only if the disobedience is observed, processed and enforced, by the law enforcer
Many penalties are unloving
Obedience is rarely rewarded
The results are usually unpredictable
Law only deals with disobedience, and then does not fully address the effect but rather only provides "punishment" to act as a deterrent to further disobedience
Does not address the cause of any action, and does not reward loving action

Response to God's Laws

The law maker is also the law enforcer and fully enforces obedience to every Law
The law maker and enforcer is infinitely and always aware, perfect and infallible
Laws created only for the benefit of the created creatures
Laws created for the purpose of maintaining survivability, growth, and transformation
Laws operate whether the creature is aware or not
Laws operate on the soul, attitude, character, thoughts and emotions of the human
Laws operate consistently under all circumstances with no exceptions
Each law has loving penalties if disobeyed, and loving rewards when obeyed

The penalties and rewards are consistent and predictable
Each law deals with and addresses both the cause and the effect

Hangover attitudes & emotions towards human law

Hangover attitudes & emotions towards God's Laws

Questions Answered

00:01:34 Paige Willoughby

Is the desire to live in harmony with self responsibility the key to exposing and deconstructing all my hangover beliefs and emotions?

00:08:47 Paige Willoughby

Is the reason I am not aware of loving rewards due to the fact that I choose to ignore or deny the loving correction and penalties when I disobey God's Principles and Laws?

00:16:44 Nicky Primetica

If current human laws are not ultimately in harmony with God's Laws but assist in the governance of humans in our current condition, will God still support those laws?

00:19:22 Nicky Primetica

As human law makers strongly believe that penalties and punishments are necessary to maintain order, has this attitude predominantly come from the priesthood and their fear-mongering attitudes to get others to conform to their false beliefs about God?

00:23:11 Nicky Primetica

I have a feeling that in order to implement God's Laws on Earth, the earth would be sectioned by Law, not country borders as it currently is. How do you feel about this?

00:26:36 Nicky Primetica

If there are sections in different countries would that encourage people in lower conditions to go through those lessons?

00:28:24 Nicky Primetica

If somebody first embraces loving concepts and ideas then can celestial spirits assist them to implement those ideas and laws?

00:29:38 Rachael Bush

Is it a requirement of God's Law to obey human laws even if it limits your free will but is not being unloving to others?

00:32:54 Rachael Bush

Is it loving to not obey laws of a country that I find unloving, feel are unjust, or that seem to oppress my will?

00:35:06 Peter Lytton-Hitchins

Can you share what happens in our soul when we are obeying law through fear compared to a desire to obey?

00:36:04 Peter Lytton-Hitchins

Does obeying law through fear come from parental upbringing and education at school?

00:38:23 Peter Lytton-Hitchins

If we are law abiding citizens when we are just terrified to disobey, from God's perspective are we still breaking law?

30 Minute Break (Lunch)

Understanding God's Loving Laws

Order Principles

Compensation Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Compensation Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Compensation that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Compensation Principles	
Terms	<p>Compensation principles are will-based, and will be discussed in relation to self-aware beings with free will. The human soul (not the body or spirit body) is a self-aware being with the ability to express free will depending on development and as such is the highest creation.</p> <p>Self-Responsibility is the law based requirement of self-awareness, to seek truth, love and understanding of all principles of Love and law, and the loving ownership and expression of one's will, desire, passion, emotion, attitudes, intentions, thoughts and actions in harmony with God's Principles and laws.</p> <p>Compensation is the reward provided to the soul and its environment for <i>self-responsibility</i> (the obedience to God's Principles), or the corrective penalty enforced upon the soul and its environment for the disobedience to God's Principles.</p>
Summary	<p>Compensation principles:</p> <ul style="list-style-type: none"> Educate the human soul about the concept of sin Provide compensation (reward or correction) to the soul Ensure self-responsibility is the measure for compensation Force the highest creation to be responsible and accountable Compensate consistently and predictably according to the soul's actual level of self-responsibility whether the external environment is affected or not
Definition (What the principles are)	<p>The law shall provide <i>compensation</i> to the soul and its environment</p> <p>The law shall ensure <i>self-responsibility</i> is the measure for <i>compensation</i></p> <p>The law shall ensure that the highest creation is made responsible and accountable for its own level of self-responsibility via compensation</p> <p>The law shall have a consistent compensatory effect according to the soul's level of self-responsibility whether the external environment is affected or not by the soul's emotions, decisions, and actions</p>
Objectives (Why the principles are applied to law)	<ul style="list-style-type: none"> To compensate the highest creation for its own level of self-responsibility To educate the highest creation that love creates pleasure and sin creates pain To educate the highest creation that the gift of free will brings responsibilities To create the framework for evolution and devolution of the soul To allow intelligent creations to solve problems associated with cause & effect To generate within the highest creation a desire for truth and love To build on the Responsibility principle to create the foundation for God's highest principles that apply to the human soul such as will, desire, redemption and transformation

Compensation Principles (cont'd)	
Application (The creation and laws affected)	All laws governing the human soul All laws governing the creations of the human soul A secondary affect on all laws and all creation
Notes	Sins committed by others that affect me attract pleasurable compensation and allowance towards me Sins committed by me that affect others trigger a pleasurable compensation and allowance towards others Sins committed by me attract a negative penalty towards myself Sins committed by any person trigger a negative penalty toward those who committed the sin
Reveals (What the principles reveal about God)	God feels Love always rewards self-responsibility God was not reckless in creating Her highest creation God has taken responsibility for Her creation of the highest creation God wants the highest creation to understand how to enjoy life God loves all creation enough to restrict the highest creation God loves rewarding those who act lovingly God feels joy comes from self-responsibility God feels everything is connected, and nothing operates in a vacuum God feels love provides loving limitations and takes corrective action God honours free will choices and decisions God feels humans must take full responsibility for their own creations God feels the heart-felt condition of the human is of extreme importance God believes in and supports the redemption of the human towards goodness God feels recovery from bad choices is possible since he made it possible
Examples (the principle's application in law)	<p>Gravity & aerodynamics Compensation is provided, through the form of physical, emotional, and spiritual pleasure or pain, for obedience or disobedience to the laws of gravity or aerodynamics. The amount of compensation is applied consistently based upon the level of self-responsibility and the intention of the individual.</p> <p>Law of Cause & Effect Ensures individuals are compensated for the cause that exists within them based upon their level of <i>self-responsibility</i> so that the individual is educated about the relationship between causes and effects, and can take actions to remove causes that generate undesired or painful effects.</p> <p>Law of Compensation This law merges the principles of Will, Desire, Scope, Hierarchy, Responsibility and Compensation into a single complete law system that is then applied to the human soul itself, and in a secondary manner, to all of creation. Provides rewards and corrections.</p> <p>Law of Repentance Repentance is God's desired attitude from the human towards disobedience to all law. Repentance would not be possible as a concept if Compensation principles did not exist. i.e. Compensation provides the measure of whether something is "good" (in harmony with Love) or "bad" (out of harmony with Love). Without the measure, no repentance is possible. Disobedience without compensation would result in no correction of disobedience, and therefore repentance for disobedience would also not be possible.</p>

Compensation Principles (cont'd)

Conclusion	<p>Compensation principles:</p> <p>Ensure that God's highest creation becomes aware of and is compensated (rewarded or corrected) for the manner in which it engages self-responsibility.</p> <p>Compensation principles are also linked to scope, hierarchy, governance and responsibility, and form a foundation for God's highest principles that apply to the human soul such as will, desire, redemption and transformation.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose compensation principles including:</p> <p>Feeling that disobedience will never be penalized or corrected and obedience will never be rewarded</p> <p>Feeling they can sin with impunity, minimizing and justifying sin</p> <p>Feeling that they only sin if they act (e.g. get your "sexual" appetite anywhere, release it at home)</p> <p>Complaining about the negative compensation effects that the person has created through their own free will choices, etc</p>
-------------------	--

Compensation Principles Q&A

Use the morning as an opportunity to formulate my questions

Examine the "Compensation Principles" outline
 Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly
 Stop parroting what I think, rather than asking Jesus what I want to know
 Use the microphone properly

Questions About

Compensation Principles

What the principles are
 Why the principles are applied to law
 The creation and Laws affected by the principles
 What the principles reveal about God
 Examples of the principles' applications in Law

Questions Answered

00:09:53 Lani Reid

Is a desire to fix up my impure desire an unloving desire?

00:11:07 Lani Reid

So have I been worried about the outcome rather than examining my real desire?

00:11:59 Lani Reid

If my desire is pure, can God bring me many more possibilities and potentials?

00:15:50 Example

Compensation for a man stealing my car

00:19:01 Peter Lytton-Hitchins

Referring the example, does compensation go further and analyse all of the causes of an outcome?

00:20:39 Rui Henriques

How does God know that my anger was triggered from the actions of another person?

00:22:05 Elvira Gregorich

Referring the example, are parents responsible for their child's sin partially or fully?

00:22:49 Elvira Gregorich

Aren't most of my choices my own responsibility?

00:23:20 Elvira Gregorich

Even if your family believes stealing is OK, surely there are other messages from society that stealing is not OK?

00:25:06 Claudia Vandenameele

How come we get allowance from God while we have attracted the event in the first place?

00:26:02 Adria Escudero

If I stole your care, and you got angry, why would your anger get a positive compensatory benefit?

00:28:05 Mary

Is it also because we have this black and white "you're to blame and I'm not" thinking rather than considering the myriad of variables that God considers?

00:48:57 Katrina Bailey

What is the timeframe in which God applies compensation; either a reward or correction?

00:50:10 Joyce Thompson

If the Law of Compensation is immediate upon the soul, how soon does this manifest in the body and life and is there always an obvious connection?

00:57:10 Anna MacDonald

Why are some of us so inherently afraid of responsibility?

01:04:31 Maximilian Ferraiuolo

Is self responsibility the measure for compensation because once a person takes personal responsibility for their sin, they have a sincere desire to correct the cause and the effect of their sin; they are already doing what compensation would do?

01:06:48 Paige Willoughby

Could you please elaborate on the objective "to educate the highest creation that the gift of free will brings responsibilities"?

10 Minute Break

Series: Education In Love
Group: Understanding God's Loving Laws
Theme: Session 2 Review, Conclusion & Homework
Presenter(s): Mary
Description: Mary reviews and concludes the "Order Principles" session, and gives some homework to the participants for the following day

Introduction

Order Principles

How the human soul fits into the Universe
How the human soul affects the Universe itself
How the human soul affects the lower creations within the Universe
What role the human soul has within the Universe

God's Universe diagram

Definitions

Human Will is the genuine personal expression of the gift of Free Will, is determined by the current soul based emotional condition, is developed by desire, is measured by its relative harmony with God's Principles, and drives the thoughts, beliefs, attitudes, actions, allowance of inspiration and response to memories of the individual

Definitions (cont'd)

Self-Responsibility is the Law based requirement of self-awareness, to seek truth, love and understanding of all principles of Love and Law, and the loving ownership and expression of one's will, desire, passion, emotion, attitudes, intentions, thoughts and actions in harmony with God's Principles and Laws.

Role-Responsibility is the assignment of specific roles of governance in God's Universe dependent upon development, self-responsibility, and according to one's nature.

Compensation is the reward provided to the soul and its environment for self-responsibility (the obedience to God's Principles), or the corrective penalty enforced upon the soul and its environment for the disobedience to God's Principles.

Presentation Reviews

Law Related Attitudes & Emotions	
Conclusion	<p>Law Related Attitudes & Emotions:</p> <p>Human attitudes to and emotions about law, and in particular about God's Laws, come from each individuals own experience with human authority, which is inconsistent at best, and very destructive at worst. If humans are to become at-one with God, they will need to have the same attitudes and emotions about God's Laws that God has.</p> <p>Attitudes and emotions from the childhood experience are imposed upon any authority, and severely affect the human desire to obey law. This creates a "human law hangover" that is imposed upon God's Laws, and which also the main creator of human unhappiness and pain.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose obedience to God's Law including:</p> <ul style="list-style-type: none"> Believing God is punishing or wrathful and makes arbitrary decisions with no permanence, consistency or justice Believing God's Law is negotiable Wanting laws to apply to others but not to self Disrespect of authority, etc
Human Law Hangover	
Conclusion	<p>Human law hangover:</p> <ul style="list-style-type: none"> Humans are "drunk" on their own perception of law Humans see God's Law similarly to how they see human law Humans impose their perception of human laws on God's Laws Humans create a huge amount of pain and suffering as a result of the human law "hangover" Unless I stop treating God's Laws like human laws, I will continue to remain unhappy and in pain

Principles Review

Hierarchy Principles	
Terms	<p>Creation includes any matter or creature from the smallest particle to the most complex living creation of the human soul</p> <p>Components are creations of less complexity combined in new ways</p> <p>Any lower <i>creation</i> is a potential <i>component</i> for a higher <i>creation</i></p> <p>Energy includes information, energy, emotion, thought, communication, relationship or interplay within or between <i>creation</i></p> <p>Properties include all properties, characteristics, attributes, attractions, and restrictions of the <i>creation</i> itself</p> <p>Each creation's complexity is determined by the complexity of its individual components, energy and properties</p> <p>Each creation of higher complexity has higher energy capabilities</p> <p>If a creation has higher complexity and energy capabilities, it is also considered to be higher in hierarchy</p> <p>Inbuilt Rules means a set of laws and potentials built into the <i>creation</i> itself that govern the <i>creation's properties</i></p> <p>External Rules means a set of laws and potentials created by <i>creation</i> combinations external to the individual <i>creation</i> itself</p> <p>Rule set is the combination and interaction of <i>inbuilt</i> and <i>external rules</i></p> <p>Law is an individual set of laws or an individual <i>rule set</i></p> <p>Each more complex <i>creation</i> has more complex <i>inbuilt rules</i></p> <p>More complex <i>inbuilt rules</i> interact with more complex <i>external rules</i> and therefore create more complex laws</p>
Summary	<p>Hierarchy principles:</p> <p>Determine the hierarchy of law by the complexity of each law</p> <p>Determine the hierarchy of creation by the complexity of each creation</p> <p>Ensure more complex creation is governed by more complex laws</p> <p>Ensure higher creations and laws exert more power, have more energy, and more complex properties</p>
Conclusion	<p>Hierarchy principles:</p> <p>Hierarchy determines the position or place of each creation and law within the Universe and creates implied, instinctual or automatic governance, responsibility and compensatory systems.</p> <p>Hierarchy extends the Scope principles by placing Scope within a Hierarchical system. Scope allows for Hierarchy to exist.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose hierarchy principles including:</p> <p>Feeling and believing I individually and humans collectively do not have control over our own creations (e.g. sin, disease, sickness, accidents etc), believing that I can circumvent or am more powerful than the laws that govern me, etc</p>
Homework	How am I living in and/or out of harmony with Hierarchy principles?

Governance Principles	
Terms	<p>Governance principles will be discussed in relation to self-aware beings with free will Other beings are controlled by Governance principles but the control is instinctual rather than will based The human soul (not the body or spirit body) is a self-aware being with the ability to express free will depending on development</p> <p>Energy includes information, energy, emotion, thought, communication, relationship or interplay within or between <i>creation</i> Development increases in quality and capacity as the human soul lives in more harmony with God's Principles, and decreases as the human soul lives in less harmony with God's Principles Power of governance is the <i>energy</i> able to be expressed by the human soul which varies in quality and capacity in direct relationship to <i>development</i></p>
Summary	<p>Governance principles ensure:</p> <ul style="list-style-type: none"> Everything is under God's Authority God's Laws control and govern all of creation God's Laws allow human souls to share governance Each human soul automatically governs, but the power of governance is determined by development
Conclusion	<p>Governance principles: Ensure that God has authority over all Principles, Laws and Creations, but that each creation with free will and self-awareness does automatically, and can with education and knowledge, affect and control the positive or negative development of its environment.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose governance principles including:</p> <ul style="list-style-type: none"> Not taking control of their own creations external to and within their own bodies (e.g. sin, disease, sickness, accidents etc), desiring authority and power without love or development, creating without the ability to govern, denying the effect of their governance over other creatures upon those creatures, etc
Homework	How am I living in and/or out of harmony with Governance principles?

Responsibility Principles

Terms	<p>Responsibility principles are will-based, and will be discussed in relation to self-aware beings with free will. The human soul (not the body or spirit body) is a self-aware being with the ability to express free will depending on development and as such is the highest creation.</p> <p>Energy includes information, energy, emotion, thought, communication, relationship or interplay within or between <i>creation</i></p> <p>Development increases in quality and capacity as the human soul lives in more harmony with God's Principles, and decreases as the human soul lives in less harmony with God's Principles</p> <p>Power of governance is the <i>energy</i> able to be expressed by the human soul which varies in quality and capacity in direct relationship to <i>development</i></p> <p>Nature is each individual human soul's God given personality, attributes, characteristics, qualities, individuality, and primary fields of interest.</p> <p>Self-Responsibility is the law based requirement of self-awareness, to seek truth, love and understanding of all principles of Love and law, and the loving ownership and expression of one's will, desire, passion, emotion, attitudes, intentions, thoughts and actions in harmony with God's Principles and laws.</p> <p>Role-Responsibility is the assignment of specific roles of governance in God's Universe dependent upon <i>development</i>, <i>self-responsibility</i>, and according to one's <i>nature</i>.</p>
Summary	<p>Responsibility principles:</p> <ul style="list-style-type: none"> Force the human to be self-responsible Encourage the human to desire self-responsibility Allow God to reward true self-responsibility with role-responsibility (i.e. role-responsibility is a compensatory gift given to those with self-responsibility)
Conclusion	<p>Responsibility principles:</p> <p>Responsibility principles ensure that God's highest creation is self-responsible, and is given role responsibilities in line with individuality and development.</p> <p>Scope, hierarchy, governance, responsibility and compensation form a foundation for principles that apply to the potentials of the human soul such as will, desire, redemption and transformation.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose responsibility principles including:</p> <ul style="list-style-type: none"> Wanting to be saved (by God, Jesus, parents, friends, partners, others) from the results of my creations Not taking responsibility for my emotions, desires, words or actions Wanting power without responsibility or development Wanting role-responsibility without self-responsibility Placing people in positions of societal power (role responsibility) when they are not self responsible Looking up to and seeking guidance, 'truth' and 'love' from people who are not self responsible (e.g. family, gurus, teachers, counsellors, etc)

Responsibility Principles (cont'd)

Homework	<p>Harmony</p> <p>How am I living in and/or out of harmony with Responsibility principles?</p> <p>Responsibility</p> <p>What do I think it means to be fully self-responsible?</p> <p>How am I taking full responsibility for self?</p> <p>Would God give me role-responsibility given my current level of self-responsibility?</p>
-----------------	---

Compensation Principles

Terms	<p>Compensation principles are will-based, and will be discussed in relation to self-aware beings with free will. The human soul (not the body or spirit body) is a self-aware being with the ability to express free will depending on development and as such is the highest creation.</p> <p>Self-Responsibility is the law based requirement of self-awareness, to seek truth, love and understanding of all principles of Love and law, and the loving ownership and expression of one's will, desire, passion, emotion, attitudes, intentions, thoughts and actions in harmony with God's Principles and laws.</p> <p>Compensation is the reward provided to the soul and its environment for <i>self-responsibility</i> (the obedience to God's Principles), or the corrective penalty enforced upon the soul and its environment for the disobedience to God's Principles.</p>
Summary	<p>Compensation principles:</p> <ul style="list-style-type: none"> Educate the human soul about the concept of sin Provide compensation (reward or correction) to the soul Ensure self-responsibility is the measure for compensation Force the highest creation to be responsible and accountable Compensate consistently and predictably according to the soul's actual level of self-responsibility whether the external environment is affected or not
Conclusion	<p>Compensation principles:</p> <p>Ensure that God's highest creation becomes aware of and is compensated (rewarded or corrected) for the manner in which it engages self-responsibility.</p> <p>Compensation principles are also linked to scope, hierarchy, governance and responsibility, and form a foundation for God's highest principles that apply to the human soul such as will, desire, redemption and transformation.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose compensation principles including:</p> <ul style="list-style-type: none"> Feeling that disobedience will never be penalized or corrected and obedience will never be rewarded Feeling they can sin with impunity, minimizing and justifying sin Feeling that they only sin if they act (e.g. get your "sexual" appetite anywhere, release it at home) Complaining about the negative compensation effects that the person has created through their own free will choices, etc
Homework	How am I living in and/or out of harmony with Compensation principles?

Conclusion

Order Principles:

Presentations pertain primarily to the laws governing the human soul itself

The "Order Principles" session primarily discussed some of the principles that determine the laws associated with how the human soul **FITS INTO** the Universe

Next session: Soul Specific Principles

"Soul Specific Principles" is the next 2 day session.

The "Soul Specific Principles" session primarily discusses some of the principles that determine laws that govern the **POTENTIAL** of the human soul within the universe and how the human soul progresses or evolves, or regresses and devolves.

Questions Answered

00:28:51 Rebecca Johnstone

Would you say it is good to reflect about the consequences for my injuries to develop a desire to change those injuries?

00:29:37 Laura Tolli

Is there a way to utilise question 4 so it is not a yes or no answer?

Finish For Day

Order Principles

Session 2 Reminders & Homework Review

Series: Education In Love
Group: Understanding God's Loving Laws
Theme: Session 2 Reminders & Homework Review
Presenter(s): Mary
Description: Mary works through reminders from the previous "Order Principles" session and reviews the homework

Introduction

Structure of reminders and homework

Will present reminders of each presentation for the "Order Principles" session
When get to each one of God's Principles, will ask the homework question:

**How am I living in and/or out of harmony
with the "Order Principles"?**

When get to Responsibility principles will ask the additional questions:

**What do I think it means to be fully self-responsible?
How am I taking full responsibility for self?
Would God give me role-responsibility given my
current level of self-responsibility?**

Presentation Reminders

Order Principles

How the human soul fits into the Universe
How the human soul affects the Universe itself
How the human soul affects the lower creations within the Universe
What role the human soul has within the Universe

Law Related Attitudes & Emotions

Reminders

Law Related Attitudes & Emotions:

Human attitudes to and emotions about law, and in particular about God's Laws, come from each individuals own experience with human authority, which is inconsistent at best, and very destructive at worst. If humans are to become at-one with God, they will need to have the same attitudes and emotions about God's Laws that God has.

Attitudes and emotions from the childhood experience are imposed upon any authority, and severely affect the human desire to obey law. This creates a "human law hangover" that is imposed upon God's Laws, and which also the main creator of human unhappiness and pain.

Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose obedience to God's Law including:

Believing God is punishing or wrathful and makes arbitrary decisions with no permanence, consistency or justice, believing God's Law is negotiable, wanting laws to apply to others but not to self, disrespect of authority, etc

Human Law Hangover

Reminders	<p>Human law hangover:</p> <p>Humans are "drunk" on their own perception of law Humans see God's Law similarly to how they see human law Humans impose their perception of human laws on God's Laws Humans create a huge amount of pain and suffering as a result of the human law "hangover" Unless I stop treating God's Laws like human laws, I will continue to remain unhappy and in pain</p>

Principles Reminders

Hierarchy Principles

Reminders	<p>Hierarchy principles:</p> <p>Hierarchy determines the position or place of each creation and law within the Universe and creates implied, instinctual or automatic governance, responsibility and compensatory systems.</p> <p>Hierarchy extends the Scope principles by placing Scope within a Hierarchical system. Scope allows for Hierarchy to exist.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose hierarchy principles including:</p> <p>Feeling and believing I individually and humans collectively do not have control over our own creations (e.g. sin, disease, sickness, accidents etc)</p> <p>Feeling and believing I can circumvent or am more powerful than the laws that govern me, etc</p>
Homework	How am I living in and/or out of harmony with Hierarchy principles?

Governance Principles

Reminders	<p>Governance principles:</p> <p>Ensure that God has authority over all Principles, Laws and Creations, but that each creation with free will and self-awareness does automatically, and can with education and knowledge, affect and control the positive or negative development of its environment.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose governance principles including:</p> <p>Not taking control of their own creations external to and within their own bodies (e.g. sin, disease, sickness, accidents etc)</p> <p>Desiring authority and power without love or development</p> <p>Creating without the ability to govern</p> <p>Denying the effect of their governance over other creatures upon those creatures, etc</p>
Homework	How am I living in and/or out of harmony with Governance principles?

Responsibility Principles

Reminders	<p>Responsibility principles:</p> <p>Responsibility principles ensure that God's highest creation is self-responsible, and is given role responsibilities in line with individuality and development.</p> <p>Scope, hierarchy, governance, responsibility and compensation form a foundation for principles that apply to the potentials of the human soul such as will, desire, redemption and transformation.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose responsibility principles including:</p> <ul style="list-style-type: none"> Wanting to be saved (by God, Jesus, parents, friends, partners, others) from the results of my creations Not taking responsibility for my emotions, desires, words or actions Wanting power without responsibility or development Wanting role-responsibility without self-responsibility Placing people in positions of societal power (role responsibility) when they are not self responsible Looking up to and seeking guidance, 'truth' and 'love' from people who are not self responsible (e.g. family, gurus, teachers, counsellors, etc)
Homework	<p>Harmony</p> <p>How am I living in and/or out of harmony with Responsibility principles?</p> <p>Responsibility</p> <ul style="list-style-type: none"> What do I think it means to be fully self-responsible? How am I taking full responsibility for self? Would God give me role-responsibility given my current level of self-responsibility?

Compensation Principles

Reminders	<p>Compensation principles:</p> <p>Ensure that God's highest creation becomes aware of and is compensated (rewarded or corrected) for the manner in which it engages self-responsibility.</p> <p>Compensation principles are also linked to scope, hierarchy, governance and responsibility, and form a foundation for God's highest principles that apply to the human soul such as will, desire, redemption and transformation.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose compensation principles including:</p> <ul style="list-style-type: none"> Feeling that disobedience will never be penalized or corrected and obedience will never be rewarded Feeling they can sin with impunity, minimizing and justifying sin Feeling that they only sin if they act (e.g. get your "sexual" appetite anywhere, release it at home) Complaining about the negative compensation effects that the person has created through their own free will choices, etc
Homework	<p>How am I living in and/or out of harmony with Compensation principles?</p>

Conclusion

Order Principles:

Presentations pertain primarily to the Laws governing the human soul itself

The "Order Principles" session primarily discussed some of the principles that determine the Laws associated with how the human soul FITS INTO the Universe

Next session: Soul Specific Principles

The next presentation will broadly introduce "Soul Specific Principles"

The "Soul Specific Principles" session primarily discusses some of the principles that determine laws that govern the **POTENTIAL** of the human soul within the Universe and how the human soul progresses or evolves, or regresses and devolves.

10 Minute Break

Series: Education In Love
Group: Understanding God's Loving Laws
Theme: Introducing Soul Specific Principles
Presenter(s): Mary
Description: Mary introduces the "Soul Specific Principles" session by examining the concept of soul specific principles, summarising each principle, and introducing other subjects regarding God, Law, Authority and Principles included in the next 2 day session

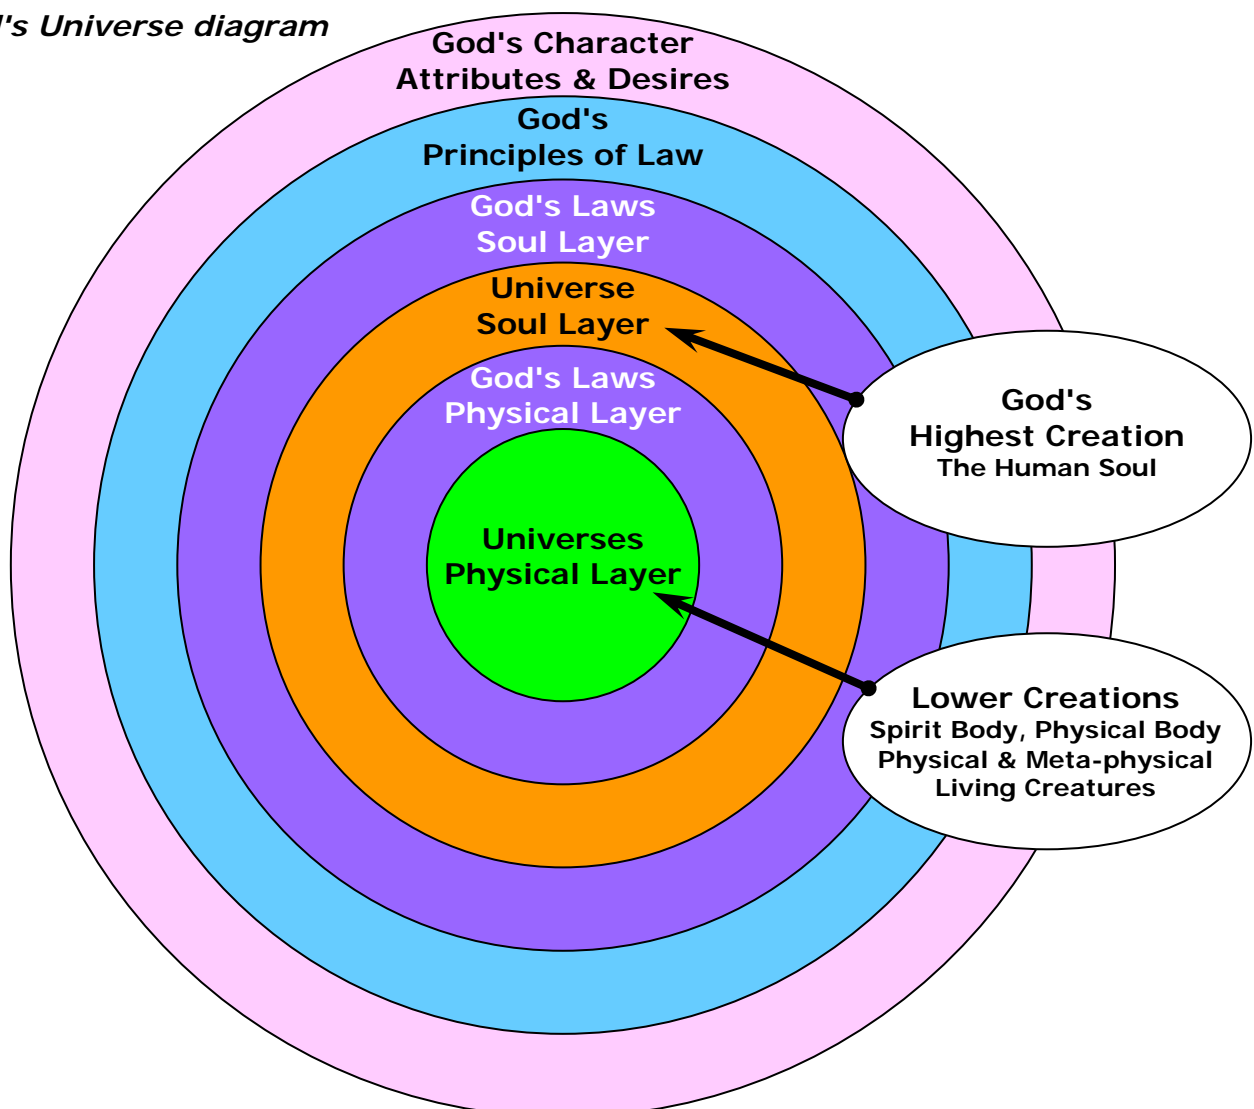

Introduction

Brief summary of the next session

The "Soul Specific Principles" session discusses some of the principles that determine Laws that govern the potential of the human soul within the universe and how the human soul progresses or evolves, or regresses and devolves through the universe.

Soul Specific Principles Preview

God's Universe diagram

Soul Specific Principles session covers God's Principles that allow:

The human soul half's potential and the complete soul's potential of expression while connected to the spirit and physical bodies in the physical universe

The human soul's potential in:

The soul universe

Other universes which may come into existence due to the future transformation of the human soul

The potential discovery of higher parts of the human soul which either come into existence, or which have always been present, but which can only exist in higher universes

The potential of the human soul to create higher universes

Terms Used

- ***Hierarchical universes*** can be constructed, each one governing and containing multiple universes of the lower hierarchical type.
- ***Physical universes*** are the lowest human based hierarchical universes and are the physical and spiritual universes (complete with all spheres) able to be perceived through the senses of the physical and spiritual bodies.
- ***Soul universe*** is the current highest human based hierarchical universe. It can only be perceived by the soul in a self-aware state and also contains unaware souls.
- ***Will*** is the genuine personal expression of the gift of Free Will, is determined by the current soul based emotional condition, is developed by desire, is measured by its relative harmony with God's Principles, and drives the thoughts, beliefs, attitudes, actions, allowance of inspiration and response to memories of the individual.
- ***Desire*** or aspiration is the genuine expression of current soul based faith, can only occur in self-aware beings, is measured by its relative harmony with God's Principles, is expressed as an intended or aspired to soul based emotional state, motivates future will based decisions, choices and actions, and differs from instinctual need.
- ***Sin*** is the existence of will or desire in disharmony with God's Principles whether the will or desire is acted upon or not.
- ***Human redemption*** is the process of paying the penalty for and removing sin from the human soul in order to recover the human soul back to its created pristine condition. It is a will based self reliant process that involves the enforced painful release of emotion. Forgiveness is accomplished through emotional "forgetfulness" of past sin and the correction of the desire to sin.
- ***Divine redemption*** occurs only through a personal relationship with God, and is the process of wilfully desiring and engaging God's Help to remove sin from the soul. It recognizes that only God can remove all the effects of our sin, asks God to help removing the cause of sin, to receive God's Truth on all matters, and to eventually obtain immortality.
- ***Transformation*** is the potentiality offered to the human soul with sincere and passionate desire to exceed its original created condition and potentials as a human, and to allow God's Personal Love to be absorbed by the soul in order to transform the soul into an immortal Divine creature with the potential of infinite expansion. Transformation principles are the most complex principles.

Soul Specific Principles Presentations

Groups or classes of God's Principles

Foundation principles (already presented)

Love, Truth, Life, Development

Economy, Function, Permanence, Scope

Order principles (already presented)

Hierarchy, Governance, Responsibility, Compensation

Soul specific principles (this session)

Will, Desire, Redemption, Transformation

Will

Human will is driven by the soul's current condition and determines what the soul will automatically do in the current moment unless desire is engaged to progress or regress.

Desire

Human desire is driven by what the soul currently has faith in and determines what the soul desires in and for its future. Desire can be positive and drive progression, or negative and drive regression.

Redemption

Redemption is a process by which the human itself can return either to its original created condition (human redemption), or to a new condition which prepares the soul for a relationship with God.

Transformation

Transformation is the potential offered to the human soul with sincere and passionate desire to exceed its original created condition and potentials as a human, and allows God's Personal Love to be absorbed by the soul in order to transform the soul into an immortal Divine creature with the potential of infinite expansion. Transformation principles are the most complex principles.

Other Session Presentations

God's Authority

Analyses the subject of loving authority, what God's Authority is, what God has authority over, what humans have authority over, and the results of my personal acceptance or rejection of God's Authority.

Knowing & Loving God

Analyses the methods and processes that can be used to discover and understand God's Loving Laws and presents the only possible successful method. Introduces the concept that knowing God's Principles creates a true awareness of sin.

Conclusion

Summary

The "Soul Specific Principles" session discusses some of the principles that determine Laws that govern the potential of the human soul within the universe and how the human soul progresses or evolves, or regresses and devolves through the universe and how the human soul obtains these potentials.

10 Minute Break

Soul Specific Principles

Human Will Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Human Will Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes how God's Laws respond to human will, and gives examples of how these Human Will Principles are built into God's Laws and act upon all matter according to the human soul's current condition

Human Will Principles	
Terms	<p>Free Will is the God given gift of the ability to be a self-aware being able to make self-responsible and self-generated decisions and choices, and able to have desires which come from self-awareness rather than instinct</p> <p>Will is the genuine personal expression of the gift of Free Will, is determined by the current soul based emotional condition, is developed by desire, is measured by its relative harmony with God's Principles, and drives the thoughts, beliefs, attitudes, actions, allowance of inspiration and response to memories of the individual.</p> <p>Will is driven by the soul's current condition and determines what the soul will automatically do in the current moment unless desire is engaged to progress or regress.</p>
Summary	<p>Human Will principles:</p> <ul style="list-style-type: none"> Ensure all laws respond to the will of the human Ensure all laws satisfy the will used in harmony with God's Love and correct the will used in disharmony with God's Love Give power and joy to God's Highest Creation to create independently, to govern, to be responsible, compensated and redeemed
Definition (What the principles are)	<p>The Law shall respond to <i>will</i></p> <p>The Law shall satisfy <i>will</i> used in harmony with God's Principles</p> <p>The Law shall correct <i>will</i> used out of harmony with God's Principles</p>
Objectives (Why the principles are applied to law)	<ul style="list-style-type: none"> To allow God's Highest Creation to create independently To ensure God's Highest Creation governs and is <i>self-responsible</i> To give <i>role-responsibility</i> to humans who are <i>self-responsible</i> To enforce compensation to humans for the use of will To ensure that all creation responds to human governance To ensure God's Laws create attractions based upon will Compensation, responsibility, governance, redemption and transformation principles are applied uniquely to humans because of the gift of free will
Application (The creation and Laws affected)	<ul style="list-style-type: none"> All Laws governing the human soul All Laws governing the creations of the human soul A secondary affect on all laws and all creation
Reveals (What the principles reveal about God)	<ul style="list-style-type: none"> God respects and honours His gifts to humans God generously desires humans to experience the joy of creation God feels that real joy comes from being self-responsible God feels love involves providing potentials for the expression of will God wants us to be emotional beings with capacity for happiness

Human Will Principles (cont'd)

<p>Examples (the principles' applications in Law)</p>	<p>Gravity & Aerodynamics Engaging the laws of aerodynamics is only possible for humans by using will to understand the laws. Compensation is applied for will based engagement with both laws.</p> <p>Law of Attraction Our will (current soul based condition) determines what we currently attract. All attractions either correct or reward our condition. Determining attractions with the mind is a pointless exercise.</p> <p>Law of Cause and Effect Human health is only possible by understanding the relationship between the unloving use of our will and disease or sickness occurring in the human body. Each specific disease or sickness results from a specific unloving emotion, either directed towards self, another person, or the environment.</p> <p>Redemption of the human soul Redemption principles operate automatically to change the will by causing the creation of pain when we sin and the release of pain when the pain becomes too intense to suppress within us. Redemption principles can be engaged with desire by making a choice to emotionally engage forgiveness and repentance with faith in emotional release being of benefit, which rapidly speeds the process of redemption. Redemption principles can be engaged with God, by sincerely desiring God's love and forgiveness (the desire is repentance), which has the added benefit of preparing the soul through prayer for the reception of God's Love and the establishment of a relationship with God.</p> <p>Development of the human soul Development of the human soul (to the perfect natural human) is possible without awareness due to the Laws of Compensation and principles of redemption operating upon the will. i.e. By causing the creation of pain when we sin and the release of pain when the pain becomes too intense to control. Eventually development results in the redemption of the human soul to the point of the perfect natural human, but no further development can be obtained without desire.</p>
<p>Conclusion</p>	<p>Human Will principles: Human Will principles allow the human soul to be the creation at the top of the hierarchy system, to be responsible, to govern, and be compensated and redeemed. Human Desire principles allow the potential for change, growth, development and transformation of the human soul into a Divine being with immortality. Will is driven by the soul's current condition and determines what the soul will automatically do in the current moment unless desire is engaged to progress or regress.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose human will principles including: Attempting to use will-power to change Refusing to admit to my current emotional condition Refusing to admit my sin Refusing self-awareness, pride, being driven by addiction, acting upon unloving desires (causing my will condition to degrade) Denying responsibility for my will (denying I have choice) Blaming others for the use of my will (my past pain, others in my life), etc</p>

Is our will like our facade?

00:14:39 Laurleen Lee

When we are a child does our parents' will become our own will, and if so, how do we ever change?

00:15:19 Alwyn Campbell

I am not clear about how a person in a dark condition can be attracted to a lighter person for inspiration?

00:25:49 Karen Pronk

If I attract good people in my life who help me, does that mean I have a stronger emotion causing that attraction?

00:33:26 Adria Escudero

Can I use will power to start up my desire for change?

Human Desire Principles

Soul Specific Principles

Human Desire Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Human Desire Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes how God's Laws respond to human desire, and gives examples of how these Human Desire Principles are built into God's Laws and act upon all matter according to the human soul's current faith

Human Desire Principles	
Terms	<p>Human Desire or Aspiration is the genuine expression of current soul based faith, can only occur in self-aware beings, is measured by its relative harmony with God's Principles, is expressed as an intended or aspired to soul based emotional state, motivates future will based decisions, choices and actions, and differs from instinctual need.</p> <p>Desire is driven by what the soul currently has faith in and determines what the soul desires in and for its future.</p> <p>If will and desire are in harmony change is not possible</p>
Summary	<p>Human Desire principles:</p> <ul style="list-style-type: none"> Ensure all laws respond to the desire of the human Ensure all laws satisfy the desire used in harmony with God's Love and correct the desire used in disharmony with God's Love Allow the potential for change, growth, development and transformation of the human soul into a Divine being with immortality by engaging God's Principles of Redemption and Transformation
Definition (What the principles are)	<p>The Law shall respond to <i>desire</i></p> <p>The Law shall satisfy <i>desire</i> used in harmony with God's Principles</p> <p>The Law shall correct <i>desire</i> used out of harmony with God's Principles</p>
Objectives (Why the principles are applied to law)	<ul style="list-style-type: none"> To allow God's Highest Creation to change and grow irrespective of its current soul condition or external environmental factors To allow God's Highest Creation to experience the happiness of having desires in harmony with Love satisfied To allow God's Highest Creation to experience the pain of having desires out of harmony with Love satisfied To ensure that humans see the true effect of their desires upon creation To ensure God's Laws create attractions based upon desire To ensure new potentials exist for humans based upon desire To ensure that "wish and desire is closely interwoven with the opportunity for gratification" Aphraar, Through the Mists New potentialities of Compensation, Responsibility, Governance, Redemption and Transformation principles are enabled by human desire
Application (The creation and Laws affected)	<ul style="list-style-type: none"> All Laws governing the human soul All Laws governing the creations of the human soul A secondary affect on all laws and all creation

Human Desire Principles (cont'd)	
Reveals (What the principles reveal about God)	<p>God respects and honours His Gifts to humans</p> <p>God generously desires humans to experience the joy of desire</p> <p>God feels that real joy is experienced by having loving desires satisfied</p> <p>God's Love provides potentials that result from the expression of desire</p> <p>God wants humans to be desirous beings with new aspirations</p> <p>God feels desire is an essential part of living</p> <p>God feels love gives humans the potential to change</p>
Examples (the principles' applications in Law)	<p>Gravity & aerodynamics</p> <p>Engaging the laws of aerodynamics was only possible for humans by someone using their desire with faith to understand the laws. Desire is rewarded by knowledge being obtained.</p> <p>Law of Attraction</p> <p>Our desire (genuine expression of soul based faith) determines what we attract now to enable change. All attractions "satisfy" our current desire, even when those desires are unloving. Unloving desires can be measured by the pain they create.</p> <p>Human hunger</p> <p>True hunger compared to addictive eating. True hunger is an automatic animal instinct necessary for survival of the body connected to an undeveloped soul. Addictive hunger is a desire to satisfy the demands of our current emotional condition (our will).</p> <p>Redemption of the human soul</p> <p>Redemption principles operate automatically to change the will by causing the creation of pain when we sin and the release of pain when the pain becomes too intense to suppress within us.</p> <p>Redemption principles can be engaged with desire by making a choice to emotionally engage forgiveness and repentance with faith in emotional release being of benefit, which rapidly speeds the process of redemption.</p> <p>Redemption principles can be engaged with God, by sincerely desiring God's love and forgiveness (the desire is repentance), which has the added benefit of preparing the soul through prayer for the reception of God's Love and the establishment of a relationship with God.</p> <p>Transformation of the human soul</p> <p>Transformation of the human soul (into the Divine angel) is not possible without desire. Desire draws Transformation principles into play in Laws operating upon the human soul, and desire for God also engages God's Desire to transform the human through the transmission of God's Love into the human soul.</p> <p>The subsequent result is not only an increasing relationship with God, but, due to the reception of God's Love, the transformation of the soul itself into a new creature with increased current capabilities and future potentials.</p>

Human Desire Principles (cont'd)

<p>Conclusion</p>	<p>Human Desire principles:</p> <p>Human Desire principles allow the potential for change, growth, development and transformation of the human soul into a Divine being with immortality. Human Will principles allow the human soul to be the creation at the top of the hierarchy system, to be responsible, to govern, and be compensated and redeemed.</p> <p>Desire is driven by what the soul currently has faith in and determines what the soul desires in and for its future. If will and desire are in harmony change is not possible</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose human desire principles including:</p> <ul style="list-style-type: none"> The concept that desire must be suppressed to attain spiritual enlightenment Constantly needing to be inspired Resisting the development of my own aspirations Resisting the development of faith Remaining ignorant of my own potential Refusing to recognize and respond to my own desires (either acting upon loving desires or removing the causes of unloving desires) Telling myself I have 'desire' for something when my actions do not reflect this desire and my will does not change, etc

Questions Answered

00:02:05 Karen Henry

Can God gift us faith that increases our desire? If yes, what determines the reception of the gift of faith? Is it desire?

00:03:22 Karen Henry

Does the reception of God's Love always enable new desires (and greater faith) because you're now more in harmony with God's Principles?

00:06:37 Patricia Sanders

Is faith the confidence that we can accomplish what we desire?

00:10:09 Pierre Joseph

Is our level self responsibility measured by our current will unless we have a desire more in harmony with God's Laws to increase it or a desire less in harmony to lower it?

00:18:28 Rahni Longden

You said "if will and desire are in harmony change is not possible"; how does this relate to when they are both in harmony with love and truth?

00:20:40 Kerry Foley

Can you explain what new potentialities of Compensation, Responsibility, Governance, Redemption & Transformation Principles enabled by human desire means?

00:23:07 Kerry Foley

Would you say that desire pulls you through your current will state to change of your current condition?

00:25:02 Maximilian Ferraiuolo

From God's perspective is human free will predictable or predetermined?

00:29:46 Hunter Lydon

If we act on what we think are our desires but don't always feel great doing them, is it because they aren't our true desires or are we just being insincere?

00:33:45 David Raizman

Can the intensity of our desire grow as we engage it and refine our use of it?

00:35:01 Lani Reid

Can you please describe the process of purifying desire and how it can change the will?

00:41:07 Nicky Primetica

Do our guides first try to inspire us and then slowly "back off" to help us see the importance of our desire in determining our future?

00:44:47 Rebecca Johnstone

If God wants us to be emotional beings with capacity for happiness, why did God create us only with the capacity to be happy?

00:48:10 Rebecca Johnstone

Are we neutral towards our soulmate in our first incarnation?

00:49:21 Monique De Martin

Could dreaming up or imagining what I'd like to be and how I'd like to treat people be a way of igniting desire?

10 Minute Break

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	God's Authority
Presenter(s):	Jesus
Description:	Jesus analyses the subject of loving authority, what God's Authority is, what God has authority over, what humans have authority over, the results of accepting or rejecting God's Authority, and answers audience questions on the subject

Introduction

Human law "hangover" & authority

The manner in which those in authority (parents, teachers, custodians, law-makers and law-enforcers) treat children creates a "hangover" that has a major influence upon how each human adult views authority, and in particular views God's Authority

Definitions	
Subject	Information
Authority	The label given to the sum total of God's Principles of Scope, Hierarchy, Governance, Responsibility and Compensation working in unison through Laws that force assignment of authority to each soul that creates Each soul is the highest authority over its creations as long as all constituent elements of its creation have been created by that soul
Love	God's definition of Love includes each soul: <ul style="list-style-type: none"> Governing and having power over its own creation Being the highest point of hierarchy over its own creation Having the final responsibility for its own creation Being compensated for the results of its own creation

God's Authority	
Subject	Information
Scope of God's Authority	<p>God is the Great Oversoul and has immutable authority over all of God's Principles, Laws and Creation, and potential Laws and Creation formed through God's Governing Principles, whether that authority is recognized by creation or not</p> <p>God has authority over human creations that contain elements that God created</p> <ul style="list-style-type: none"> e.g. children (God created their soul, and the laws governing the bodies) e.g. elements of creation by humans that needed elements God created in order to exist or survive (i.e. most physical creations) <p>God does not have direct authority over human creations that do not contain elements that God created but God does have authority over the Principles and Laws that govern the effects of such creations</p>

Human Authority	
Subject	Information
Scope of Human Authority	<p>God does not have direct authority over human creations that do not contain elements that God created but God does have authority over the Principles and Laws that govern the effects of such creations. Humans have direct authority over human creations that do not contain elements God created.</p> <p>e.g. sin e.g. a child's sin e.g. disease in the body e.g. my soul based spiritual condition (except any substance that exists within the soul that is from God received by choice) e.g. my emotions out of harmony with God's Principles e.g. my creations out of harmony with God's Principles such as creations that pollute, damage life, etc</p> <p>God has no authority over the human use of will but does have authority over its effects upon the soul and the environment because he has governance over the laws that govern the soul itself</p> <p>God expects humans to destroy their own creations that are out of harmony with God's Principles, and has created laws that assist the human in the destruction of such creations</p>

Human Choices & Decisions	
Item	Information
Accepting God's Authority	<p>A person who emotionally accepts God's Authority automatically loves, respects and accepts God's Personality, Attributes and Character, God's Principles, God's Laws and God's Creations and is more open to desiring God's Love</p>
Rejecting God's Authority	<p>Rejection of God's Authority:</p> <p>Is not possible as a real condition, but rather is an emotional imaginary condition created by humans</p> <p>Is the choice to believe, feel and act as if God's Authority does not exist</p> <p>Is a choice to reject God's Personality, Attributes and Character</p> <p>Results in not being able to establish a relationship with God or receive God's Love</p> <p>Will automatically create unhappiness, not only for myself but also for others</p> <p>Is a part of my sin against the Holy Spirit</p> <p>Since receiving God's Love is necessary to understand God's Principles and Laws, if I attempt to understand God's Principles without accepting God's Authority:</p> <p>I am incapable of a soul based emotional understanding God's Principles, Laws, and Creations</p> <p>I automatically do not love and respect God</p> <p>I cannot absorb God's Truth</p> <p>I cannot receive God's Love</p>

God's Authority	
Conclusion	<p>Rejecting God's Authority:</p> <p>Actual rejection of God's Authority is not possible as a real condition, but rather is the choice to act as if God's Authority does not exist. When I do this I choose to reject God's Personality, Attributes and Character. This results in not being able to establish a relationship with God or receive God's Love.</p> <p>Acting as if God's Authority does not exist therefore automatically creates unhappiness, for self and others, and is a part of my sin against the Holy Spirit.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose God's Authority including:</p> <p>Attempting to gain direct authority over God's Creations while at the same time attempting to deny personal direct authority over our own creations and claim that the God has authority over them</p> <p>Ignoring God's Principles and Laws</p> <p>Ignoring God</p> <p>Telling myself that it is not practical to live in harmony with God's Principles and Laws</p> <p>Creating sin</p> <p>Creating systems that damage harmony in the environment</p> <p>Not releasing unloving emotions</p> <p>Not releasing unloving beliefs</p> <p>Believing and acting like I own other people (e.g. partners, children), etc</p>
Summary	<p>God's Authority:</p> <p>God has immutable authority over all of God's Principles, Laws and Creation</p> <p>God has some authority over human creations that contain elements that God created</p> <p>God has no authority over human creations that do not contain elements that God created</p> <p>God has no authority over the human use of will but does have authority over its effects upon the soul</p> <p>God expects humans to destroy their own creations that are out of harmony with God's Principles and has created Laws that assist the humans to do this</p> <p>Human Authority:</p> <p>Humans have direct authority over what they create if those creations do not contain elements that God created</p> <p>If human creations contain elements that God created, then humans do not have authority over those elements</p> <p>God's Laws are working to destroy human creations out of harmony with Love</p>

Can you explain more about the creation of the spheres?

00:30:34 Pierre Joseph

Why did God create potential for anger?

00:33:21 Catherine Spence

Isn't the disease a result of sin?

00:41:36 Sandra Tuszynska

In the book "The World Unseen" great artists created art in the spirit world, so will it last?

00:51:02 Fab Tolli

Can one person who has accepted God's Authority effect many people in a positive way?

00:55:54 Kerry Foley

Can you please explain further "each soul is the highest authority over its creations as long as all constituent elements of its creation have been created by that soul"?

00:59:30 Paige Willoughby

With regards to "God expects humans to destroy their own creations that are out of harmony with God's Principles, and has created laws to assist us in destroying them"; could you give examples?

01:02:39 Pierre Joseph

How can we get to love God's Authority? Can you share also your personal experience about it in the first century and in this incarnation?

01:05:46 Phoebe Bruce

Are you saying that although God did not create, for example, my facade, and does not have authority over it; because my facade harms God's Creations (which he does have authority over), he is attempting to destroy it?

01:08:42 Phoebe Bruce

How does God help us become aware of our sin and develop a desire to do something about sin?

01:09:52 David Raizman

If God's Authority is absolute, isn't our rebellion and opposition completely futile?

01:10:47 Wayne Shaw

To accept God's Authority, do we first need to ask God to help us remove the emotional blockages to God's Authority?

01:13:05 Joyce Thompson

If each physical illness has the same cause in each person and disease was not created by God, did God create the potential for disease and then the collective human soul create the disease?

01:15:24 Joyce Thompson

How did cancer as a disease originally come about?

01:16:06 Nicky Primetica

Since God created laws to assist us in the destruction of creations out of harmony with God's Principles, when God's Principles are engaged, can improvement occur much more rapidly than degradation occurred?

01:18:18 Karen Henry

Are you saying when I have emotions, desires, beliefs, etc., in my soul out of harmony with love, I've personally created elements and subsequent combinations of elements to form unloving beliefs, emotions etc., and then my soul creates disease in my bodies and other unloving creations?

01:23:04 Karen Henry

I am doing all of this without any intellectual knowledge of the details of the process as it's only my soul perceptions that are capable of truly understanding this process, not my mind or brain?

End Of Day

Understanding God's Loving Laws

Soul Specific Principles

Human Redemption Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Human Redemption Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Human Redemption that govern the operation of God's Laws, gives examples of the way these principles are built into God's Laws, and answers audience questions about the principles

Human Redemption Principles	
Terms	<p>Sin is the existence of will or desire in disharmony with God's Principles whether the will or desire is acted upon or not.</p> <p>Human redemption is the process of paying the penalty for and removing sin from the human soul in order to recover the human soul back to its created pristine condition. It is a will based self reliant process that involves the enforced painful experience and release of sin related emotion. Forgiveness is accomplished through emotional "forgetfulness" of past sin and correction of the desire to sin.</p> <p>Divine redemption occurs by desiring a personal relationship with God. It is the process of desiring and engaging God's Help to remove the effects of sin and the desire to sin from the soul. It recognizes that only God can remove all the effects of sin (since sin affects other creations) and asks God to help remove the cause of sin within the soul.</p> <p>Divine redemption is a God reliant process driven by desire that involves awakening to sin and becoming emotionally repentant towards God and all of God's Creations. Forgiveness is accomplished by God responding to the emotional repentant desire and God's Love enters the soul to remove the effects of sin existing in the soul, and the soul's desire to sin. During Divine redemption we receive God's Truth on all matters and the soul is prepared to eventually obtain immortality.</p>
Summary	<p>Human Redemption principles:</p> <ul style="list-style-type: none"> Enforce compensation upon human will and desire Ensure <i>human redemption</i> of the soul's will to recover the human soul back to its created pristine condition Encourage a desire for <i>Divine redemption</i> to speed the recovery of the human soul, begin to establish and grow a relationship with God, and precondition the soul allowing transformation into the Divine to begin
Definition (What the principles are)	<p>The Law shall enforce compensation upon will and desire</p> <p>The Law shall ensure <i>human redemption</i></p> <p>The Law shall encourage <i>Divine redemption</i></p>
Objectives (Why the principles are applied to law)	<ul style="list-style-type: none"> To allow the soul to recover from its own degradation To repair the soul's personal relationship with all other creation and self To allow the removal of pain and its causes from the soul To ensure compensation for all sins committed by the soul

Soul Specific Principles

Human Redemption Principles

Human Redemption Principles (cont'd)

Objectives (cont'd)	<p>To encourage within the soul the development of a desire for a more pleasant personal life and a more pleasant affect on other creation</p> <p>To educate the soul about the effects of sin, and to encourage repentance and forgiveness in relation to sins committed towards self, other humans, God's Creations, God's Laws, God's Principles and God Herself</p> <p>To educate the soul about its own lack of ability and power to fully correct the results of sin without God's assistance</p> <p>To encourage the soul to desire an ever expanding infinite relationship with God</p>
Application (The creation and Laws affected)	<p>All Laws governing the human soul</p> <p>All Laws governing the potential of the human soul</p> <p>A secondary affect on all laws and all creation</p>
Reveals (What the principles reveal about God)	<p>God desires humans to recover from their own degradation</p> <p>God desires humans to understand the cause of their own unhappiness</p> <p>God desires close relationships between individual humans and between humans and other creations</p> <p>God desires a loving personal relationship with every human</p> <p>God rewards forgiveness and repentance</p> <p>God desires humans to realize that they need God</p> <p>God desires humans to exercise desire rather than being motivated by fear or forced by law</p> <p>God does not bear a grudge towards sinners and does not eternally punish them</p> <p>God does not need a "sacrifice" in order to forgive sin but rather God prefers obedience</p>
Examples (the principles' applications in Law)	<p>Gravity & Aerodynamics</p> <p>Each physical law has built-in properties which examine the intention and motivation of the human. If the physical law is wilfully broken with intent to harm oneself or another soul, then there are very severe penalties imposed upon the soul with that intention and motivation, even if the intention was only felt rather than acted upon.</p> <p>Law of Compensation</p> <p>The Law of Compensation itself involves the application and inclusion of every principle discussed until this point. Human Redemption principles ensure that Compensation principles are not permanently applied to the human soul without some remedial feature; otherwise the result would be the human soul never being able to recover from degradation.</p> <p>Redemption of the perfect natural human</p> <p>Redemption principles ensure that the human, no matter how he or she has used his or her will or desire, can recover from all the degradation and return to its original created perfection.</p> <p>Development of relationship with God</p> <p>Redemption principles ensure that the human can not only redeem self without God's assistance, to the point of its original created perfection, but can also begin to be educated about the necessity of a complete relationship with God and to engage God's mercy to allow self to begin transformation from its original created condition into another creature, the Divine angel. Redemption principles allow the human to see that it needs God in order to complete the process of full redemption, and therefore any further development must also require God.</p>

Human Redemption Principles (cont'd)

<p>Conclusion</p>	<p>Human Redemption principles:</p> <p>The Human Redemption principles work upon my will to remove sin in order to recover myself back to the created pristine condition (human redemption). If I engage my desire, Human Redemption principles can also begin the process of entering a relationship with God and eventually obtain immortality (divine redemption).</p> <p>Desire for <i>Divine redemption</i> will speed the emotional recovery of the human soul, begin to establish and grow a relationship with God, and precondition the soul to allow transformation into the Divine to begin.</p> <p>Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose human redemption principles including:</p> <ul style="list-style-type: none"> Rejecting the concept of sin Wilfully sinning Rejecting God's definition of love Retaining human definitions of love Rejecting repentance Immoral and unethical emotions and actions Remaining ignorant Attempting to reverse sickness and disease through physical means, etc

Questions Answered

00:14:32 Mary: Spirit Jacob 2nd Sphere

Can I have the desire to engage Human Redemption, rather than pain acting upon my will?

00:17:15 Rebecca Johnstone

If I desire to release my pain/sin for the sake of others, rather than for the sake to avoid my own pain?

00:26:48 Karen Pronk

Would you like to use an example of Marie in the "Harvest of Jealousy" as an example of Human Redemption Principle?

00:28:51 Karen Pronk

Is Human Redemption (redemption based on our will) an automatic process?

00:30:27 Peter Lytton-Hitchins

Does self responsibility play the major part in redemption process?

00:33:43 Bruce Carrigan

Is it faster, quicker, easier, to choose redemption now while on earth?

00:34:31 Bruce Carrigan

Will we recall what we learnt about Divine Truth while on earth when we pass into the spirit world?

00:47:41 David Raizman

Is the hardest part to start the redemption process?

00:49:44 David Raizman

After engaging Divine Redemption & Transformation, will it build faith and get easier, even if the emotions are tougher?

00:52:20 Phoebe Bruce

Is awakening to sin the first step in the redemption process?

00:57:11 Phoebe Bruce

Is realising you can't fully correct sin the first step in Divine Redemption?

00:58:51 Karen Pronk

How does the Human Redemption Principle add to what the Law of Compensation is doing? Are they not the same thing?

01:00:00 Nicky Primetica

Would it be impossible in terms of average life expectancy on earth for someone to complete the Human Redemption process due to it acting on the will of an individual in comparison to the Divine Redemption process?

01:01:09 Nicky Primetica

If we engaged in the Law of Forgiveness in childhood or as soon as somebody else damaged us, does that mean we would not ever require going through the repentance process?

01:03:01 Nicky Primetica

Hypothetically speaking, how long do you feel it would take if somebody just shut themselves away and focused solely on the process of Divine Redemption and direct engagement with God before they became at one with God?

01:04:10 Rebecca Johnstone

What do you mean by "God does not need a sacrifice in order to forgive sin but rather God prefers obedience"?

01:09:10 Nicolas Schemid

If we have a pre-destiny to become angels, how many souls already managed to achieve this? What happens to souls never achieving or taking billions of years? Does this happen too?

10 Minute Break

Soul Specific Principles

Human Transformation Principles

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Human Transformation Principles
Presenter(s):	Jesus
Description:	Jesus briefly summarizes God's Principles of Human Transformation that govern the operation of God's Laws and determine the human soul's future potential, and gives examples of the way these principles are built into God's Laws

Human Transformation Principles	
Terms	<p>Hierarchical universes can be constructed, each one governing and containing multiple universes of the lower hierarchical type.</p> <p>Physical universes are the lowest human based <i>hierarchical universes</i> and are the physical and spiritual universes (complete with all spheres) able to be perceived through the senses of the physical and spiritual bodies.</p> <p>Soul universe is the current highest human based hierarchical universe. It can only be perceived by the soul senses of a soul in a self-aware state and also contains unaware souls ready to incarnate.</p> <p>Transformation is the potentiality offered to the human soul with sincere and passionate desire to exceed its original created condition and potentials as a human, and to allow God's Personal Love to be absorbed by the soul in order to transform the soul into an immortal Divine creature with the potential of infinite expansion (but not infinite as God is). Transformation principles are the most complex of all of God's Principles.</p>
Summary	<p>Human Transformation principles:</p> <ul style="list-style-type: none"> Allow desire driven transformation from the human soul into a Divine soul Allow desire driven absorption of God's attributes by the human soul Allow the entire soul (both halves) to join in full self-awareness Assign the gift of immortality to the human soul who transforms Assign the potential of infinite expansion and expression to the human soul
Definition (What the principles are)	<p>The law shall enable the transformation of the human into the Divine</p> <p>The law shall offer the potential of immortality</p> <p>The law shall offer other Divinely infinite potentials to the human soul</p> <p>The law shall enable the soul to create ever increasing new universes to allow for the soul's infinite expansion and expression</p>
Objectives (Why the principles are applied to law)	<p>To create the external potential for every soul to understand God and receive communication and substances from God</p> <p>To create the internal potential in every soul to understand God and receive communication and substances from God</p> <p>To ensure the soul with desire can expand in its internal capabilities and awareness enough to grasp, understand, receive communication and substances from God</p> <p>To allow the soul with desire to have indisputable proof of God's Personal Love and also, as a result of receiving God's Love, God's Existence & Character</p> <p>To ensure the soul with desire can complete the necessary transformation required to become Divine</p>

Human Transformation Principles (cont'd)

Objectives (cont'd)	<p>To allow substantive parts of God's Attributes and Character to be absorbed by the human soul</p> <p>To ensure the human soul is able to become immortal</p> <p>To ensure the human soul has infinite potential</p> <p>To ensure the whole soul can become self-aware</p>
Application (The creation and laws affected)	<p>All laws governing the human soul's expression of desire</p> <p>All laws governing the potential of the human soul</p> <p>A secondary affect on all laws and all creation</p>
Reveals (What the principles reveal about God)	<p>God's Love is infinitely generous</p> <p>God's Love does not force transformation upon unaware souls</p> <p>God's Love responds to sincere desire and longing</p> <p>God has a personal interest in each person and their happiness</p> <p>God desires humans to understand what God feels like</p> <p>God desires humans to become immortal (guarantees living forever)</p> <p>God has principles and laws that govern the flow, reception and transmission of love from any source</p> <p>God desires to share God's Attributes and Substances with all of her children</p> <p>God desires open communication with all of Her children</p>
Examples (The principles' applications in law)	<p>Prayer</p> <p>Prayer is not governed by laws that contain any universe. Since prayer begins in the soul and enters the soul of God (who is not contained within any universe but who contains all universes and potential universes infinitely), the laws that govern transformation of the human soul are beyond all universes. Transformation principles enable laws governing prayer to exist and to operate in and outside of the laws governing all universes.</p> <p>Prayer is an emotion felt within the soul, but since the soul is connected to the two bodies, prayer feels like it is coming from the bodies.</p> <p>If prayer was coming from the brain existing within the body, and was bound by the currently discovered laws of the physical universe and operating at the speed of light, and if God was only as near as the nearest star, it would take 8 years to transmit the prayer from the body to God, and another 8 years to receive a reply.</p> <p>Reception of God's Love</p> <p>God's Love exists outside of all universes. Transformation principles allow God's Love to be received by souls who perceive themselves to be within the physical universe, and allow those souls to gain awareness of the union condition and expand beyond the soul universe into ever increasing universes of larger size.</p> <p>The unaware soul</p> <p>The unaware unified soul does not and cannot exist within the physical universe. The unaware soul remains within the soul universe while connecting into 2 pairs of bodies (physical and spiritual) through the instinctual incarnation process in order to engage in the embryonic stage of learning about itself.</p> <p>The physical and spiritual bodies are required by one half of the soul in order for the soul half to experience the physical and spiritual universe. This allows the soul half to be educated about love, inter-dependence, masculinity and femininity, and a huge number of other topics.</p>

Human Transformation Principles (cont'd)

Examples (cont'd)	Soul union condition Soul union is the condition of being completely self-aware as a unified soul. The physical and spiritual bodies cannot enter the soul universe, but the soul, due to Transformation principles not only exists in the soul universe, but potentially can expand into ever increasing hierarchical universes made from different substances and having a larger size but still contained within the infinite.
Conclusion	Human Transformation principles: Human Transformation principles are the most highly complex principles governing God's Laws and God's Highest Creation, create laws that exist outside of all current universes, and also outside of any new potential universes that could exist. Desire for and reception of God's Love is the human controlled mechanism by which transformation of the soul into a Divine creature occurs, and the transformed soul becomes completely self-aware, is assigned the gift of immortality and has the potential of infinite expansion and expression. Humans frequently justify & minimize desires, attitudes, emotions, thoughts and actions that oppose human transformation principles including: <ul style="list-style-type: none"> Rejecting God Rejecting God's Love Rejecting God's Truth Rejecting God's Principles and laws Rejecting faith Rejecting the potential of a spiritual afterlife Agnostic or atheistic beliefs Religious beliefs in disharmony with God's Love and Truth Wilfully engaging unloving behaviour Desiring ignorance Retaining human definitions of love Desiring to remain self reliant Believing 'I am God' Arrogance, narcissism, and desire to hold onto current self perception Holding onto emotions that resist the reception of love (from any source), etc

Questions Answered**00:10:10 Sandra Tuszynska**

Is the soul universe also compartmentalised so that self aware souls are not affecting souls that are not self aware yet?

00:11:23 Sandra Tuszynska

Is an incarnated soul basically like an unincarnated soul in that we are not really aware yet?

00:19:26 Laura Tolli

If you trusted God to become at-one with God, why is it so hard then to trust your other half?

00:35:22 Fab Tolli

Are our bodies inside of our own soul?

00:36:36 Alwyn Campbell

Are you saying that we exist in multidimensional space?

00:38:48 Mary

Group is feeling overwhelmed and questions how everything Jesus explains applies to them

00:47:57 Rachael Bush

How different is the level of development of the other earths compared to this one?

00:52:14 Karen Pronk

How does the potential of God withdrawing the gift of Divine Love fit with God's desire for humans to be happy?

00:53:24 Karen Pronk

Is God offering the gift of His Love based on people having a desire for it?

00:55:33 Karen Pronk

Does God want us to learn the lesson to receive a gift when the opportunity is offered?

00:56:57 Karen Pronk

Why does it feel like it is harder and harder for me to become at-one with God?

01:00:14 Rebecca Johnstone

In Jesus' first century life, when no one was teaching him, what was his first formulated prayer?

30 Minute Break (Lunch)

Series:	Education In Love
Group:	Understanding God's Loving Laws
Theme:	Human Transformation Principles Q&A
Presenter(s):	Jesus
Description:	Jesus answers questions from the audience about the material covered in the previous presentation "Human Transformation Principles"

Introduction

Use the morning as an opportunity to formulate my questions

Examine the "Human Transformation Principles" outline
Think & feel about what I would like to ask

I want my questions to be to the point, succinct and direct

Stop telling stories, raise the issues directly
Stop parroting what I think, rather than asking Jesus what I want to know
Use the microphone properly

Questions About

Human Transformation Principles

What the principles are
Why the principles are applied to law
The creation and Laws affected by the principles
What the principles reveal about God
Examples of the principles' applications in Law
The universes and the soul's potential within them

Questions Answered

00:01:14 Claudia Vandenameele

Could you clarify the objective "to create the external potential for every soul to understand God and receive communication and substances from God"?

00:07:43 Nicky Primetica

What parts of God's Attributes & Character can be absorbed by the human soul?

00:14:30 Nicky Primetica

In order to be 100% aware of your own immortality, does that mean recognizing completely that God's Love is immortal, therefore it can never be taken away once received to a certain point?

00:18:37 Nicky Primetica

Since "God's Principles & Laws act on our desire"; does that mean our attitudes towards emotions and pain will change so that we come to love experiencing them as it means we have the opportunity to grow closer to God?

00:25:44 Richard Turner

Regarding God's Principles & Laws for Human Transformation; if there is a robust intellectual acceptance, contrasted by a violent emotional rejection, what are the chief mechanisms to address this disharmony?

00:30:07 Pierre Joseph

Is Transformation the process of God turning our soul from a finite creature into a potentially infinite creature by accepting parts of the infinite in our souls?

00:33:29 Pierre Joseph

Is receiving God's Love into the soul always safe?

00:35:18 Pierre Joseph

Will I always cry when I receive God's Love?

00:36:44 Pierre Joseph

So we need to concentrate on this desire to constantly be overwhelmed as this is what will allow us to receive God's Love

00:39:02 Maximilian Ferraiuolo

Is the Holy Spirit governed by Transformation Principles?

00:40:10 Maximilian Ferraiuolo

Does this mean the Holy Spirit will be the messenger of God's Love, Attributes, & Character etc throughout our eternal development?

00:42:02 Maximilian Ferraiuolo

Can you clarify how God's Love flows into the soul?

00:44:01 Maximilian Ferraiuolo

Is the Holy Spirit a gift and we do not know how long it will be offered for?

00:45:17 Maximilian Ferraiuolo

Is the main desire that leads to the everlasting engagement of the Transformation Principles the sincere heartfelt desire to be closer to God?

00:48:21 Rebecca Johnstone

How do you desire a gift (God's Love) without expecting it? Isn't expecting it having faith?

00:57:31 Rebecca Johnstone

By raising children as feeling superior or inferior do we take away the ability of the child to receive a gift?

00:58:20 Mary: Question from a spirit

Faith is the knowledge that the gift is possible but not that the gift is an entitlement?

01:01:10 Mary: Question from a spirit

Is it that I must have the humble view point that as one of God's Children in principle God wants to love me?

01:02:14 Mary: Question from a spirit

Is my faith a knowledge that God wants to love me personally?

10 Minute Break

Series: Education In Love
Group: Understanding God's Loving Laws
Theme: Knowing & Loving God
Presenter(s): Jesus & Mary
Description: Jesus & Mary summarize the different methods that can be used to understand God's Loving Laws and discuss how knowing and loving God, and following God's Principles, leads us to automatically obey all of God's Loving Laws

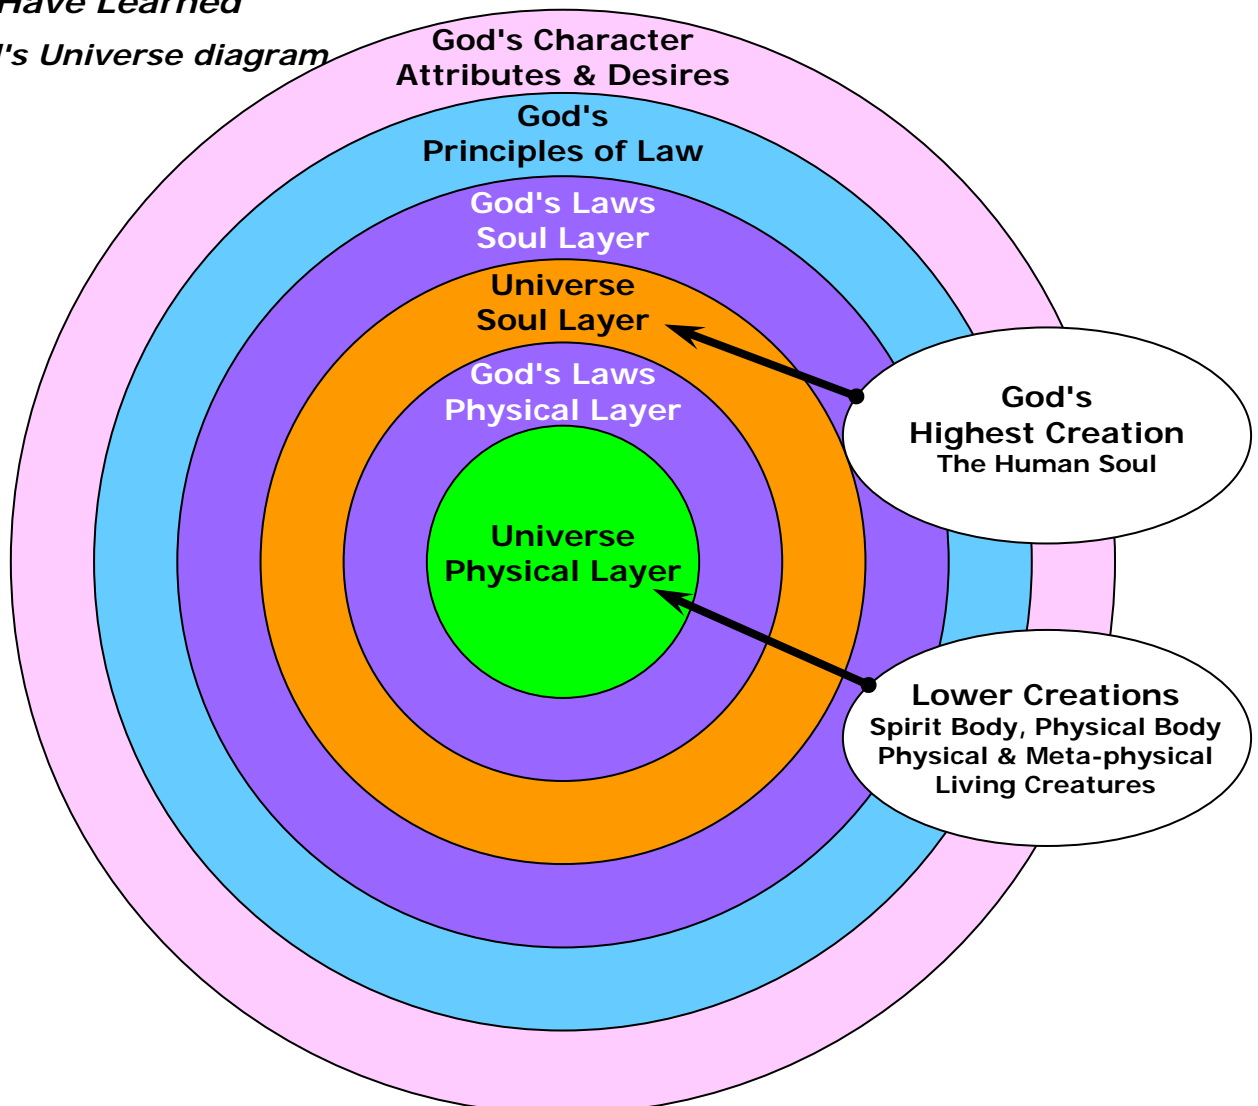

Introduction

Wanting to know and love God

A person who wants to know and love someone automatically wants a relationship
Wanting to know and love God causes a strong desire to become at-one with God
The result of becoming at-one with God causes us to obey God's Principles and results in our automatically obeying God's Laws even if we are yet to discover them

What I Have Learned

God's Universe diagram

Principles Presented

Groups or classes of God's Principles

Foundation principles

Love, Truth, Life, Development
Economy, Function, Permanence, Scope

Order principles

Hierarchy, Governance, Responsibility, Compensation

Soul specific principles

Will, Desire, Redemption, Transformation

Methods For Learning More

Method 1: Discover each of God's Laws through experimentation

Discovery process

Have will and desire for self learning only
Measure the pain resulting from the use of will and desire
Realize that a law must have been broken
Attempt to find out what the law is through experimentation
Discover God's Truth about the law
Obey each discovered law

Problems

Slowest method
Often the experimentation causes more pain
Process needs to be followed with every individual law
New laws are being created faster than we can learn about them
An almost infinite amount of laws exist
Understanding most laws at an intellectual level is impossible

Method 2: Learn about each of God's Laws from someone else

Learning law process

Learn God's Laws from someone else
Obey each learned law in every facet of one's life

Problems

Slow intermediate method
Requires a person who has already discovered each law
Process needs to be followed with every individual law
New laws are being created faster than we can learn about them
An almost infinite amount of laws exist
Understanding most laws at an intellectual level is impossible

Method 3: Learn about each of God's Principles from someone else

Learning principles process

Learn God's Principles from someone else
Obey each Principle in every facet of one's life

Problems

Faster intermediate method
Requires a person who has already discovered each Principle
Process needs to be followed with every individual Principle
Understanding Principles at an intellectual level is impossible
Understanding Principles requires God's Love to be received

Soul Specific Principles

Knowing & Loving God

Method 4: Receive Love from and learn about God

Learning principles process

Learn God's Personality, Characteristics, Attributes, Nature and Desires from God
Live a life of obedience to Principle and respect of God because you desire to

Problems

Fastest method
Understanding God requires God's Love to be received
Understanding God at an intellectual level is impossible
Requires the development of desire and a growth of will

Understanding Sin

God's Principles and Laws expose sin

Sin would not exist without the existence of God's Principles and Laws
I cannot understand sin unless I understand God's Principles and Laws
If I do not understand sin, I cannot be aware of when I sin
I sin if I live in disharmony with any single one of God's Principles or Laws

Knowing & Loving God	
Conclusion	Knowing & Loving God: Having a relationship with God and receiving God's Love is the most rapid method of coming to understand, and also to benefit from understanding, God's Loving Principles and Laws A person who loves God wants to accept God's Authority, and also will accept God's Principles and Laws If I do not understand God's Loving Principles and Laws then I will not know when I am sinning, and therefore have no awareness of how to stop or remove the sin
Summary	Knowing & Loving God: The fastest method to know and love God is to learn about God's Personality, Characteristics, Attributes, Nature and Desires from God Once I know and love God, understanding God's Principles and God's Loving Laws becomes possible Once I understand God's Loving Laws, I begin my awakening to sin
Next Assistance Group	Understanding Sin & Its Causes: As a part of awakening to sin, I must understand sin and its causes. To understand sin and its causes, I must have at least a rudimentary understanding of God's Loving Principles and laws. We recommend to develop a much stronger understanding of the material we have presented in this group, and then to examine your personal life every day to see how you are working in disharmony with God's Loving Principles and laws, so that you can begin your real awakening to sin.

Future Plans

Personal progression

Jesus & Mary's progression will assist you to have more faith and desire
At the moment we see that there is not a strong desire for God for most people
We feel we need to focus on our progression to demonstrate truths to you

Ideas for assistance groups

People are still struggling to put the material into action in their day to day life

We want to help others to apply the material and come to know and love God
Dates of all future groups will be changed depending on readiness of material and on the audience readiness to receive the material

Studio presentation of Q&A's specifically related to the three previous groups
Developing My Will To Love Q&A studio sessions
Developing My Loving Self Q&A studio sessions
Understanding God's Laws Of Love Q&A studio sessions
Studio presentation of "Fundamental Truth" series

Understanding Sin & Its Causes
Understanding Sin & Its Causes Q&A studio sessions

Removing Sin & Its Causes
Removing Sin & Its Causes Q&A studio sessions

Engaging God's Laws Of Love
